BILLING CODE 3410-110-M

DEPARTMENT OF COMMERCE

Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Current Industrial Reports (Wave II Voluntary).

Form Number(s): M327G, M331J, MQ311A, MQ325A, MQ325C, MQ325F, MQ335C, MA311D, MA333N, and MA335L.

Agency Approval Number: 0607-0206.

Type of Request: Revision of a currently approved collection.

Burden: 3,779 hours.

Number of Respondents: 2,723.

Avg Hours Per Response: 1.39.

Needs and Uses: The Census Bureau conducts a series of monthly, quarterly, and annual surveys as part of the Current Industrial Reports (CIR) program. The CIR program focuses primarily on the quantity and value of shipments of particular products and occasionally with data on production and inventories; unfilled orders, receipts, stocks and consumption; and comparative data on domestic production, exports, and imports of the products they cover. Government agencies, business firms, trade associations, and private research and consulting organizations use these data to make trade policy, production, and investment decisions.

Due to the large number of surveys conducted in the CIR program, for clearance purposes, the CIR surveys are divided into "waves." There are three waves and each wave contains a voluntary and mandatory clearance package, making 6 separate clearances. Each year, one wave (2 clearance packages) is submitted for review. Counterpart forms were added to supplement some monthly and quarterly surveys to collect annual information on a mandatory basis from respondents not participating in the more frequent voluntary collections. In this request, we are discontinuing MQ316A, "Footwear," due to budgetary reductions.

Affected Public: Business or other for-profit organizations.

Frequency: Quarterly, Monthly, and Annually.

Respondent's Obligation: Voluntary—monthly, quarterly, and annually; Mandatory (Annual Counterpart).

Legal Authority: Title 13, United States Code, Sections 182, 224, and 225.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at mclayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: July 3, 2001.

Madeleine Clayton,

*Departmental Paperwork Clearance Officer,
Office of the Chief Information Officer.*

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

Census Bureau

Survey of Income and Program Participation (SIPP) Wave 4 of the 2001 Panel

ACTION: Proposed collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other federal agencies to take this opportunity to comment on proposed or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before September 7, 2001.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Judith H. Eargle, Census Bureau, FOB 3, Room 3387,

Washington, DC 20233-0001, (301) 457-3819.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau conducts the SIPP which is a household-based survey designed as a continuous series of national panels. New panels are introduced every few years with each panel usually having durations of one to four years. Respondents are interviewed at 4-month intervals or "waves" over the life of the panel. The survey is molded around a central "core" of labor force and income questions that remain fixed throughout the life of the panel. The core is supplemented with questions designed to address specific needs, such as obtaining information on taxes, the ownership and contributions made to an Individual Retirement Account, Keogh, and 401K plans, examining patterns in respondent work schedules, and child care arrangements. These supplemental questions are included with the core and are referred to as "topical modules."

The SIPP represents a source of information for a wide variety of topics and allows information for separate topics to be integrated to form a single, unified database so that the interaction between tax, transfer, and other government and private policies can be examined. Government domestic-policy formulators depend heavily upon the SIPP information concerning the distribution of income received directly as money or indirectly as in-kind benefits and the effect of tax and transfer programs on this distribution. They also need improved and expanded data on the income and general economic and financial situation of the U.S. population. The SIPP has provided these kinds of data on a continuing basis since 1983 permitting levels of economic well-being and changes in these levels to be measured over time.

The 2001 Panel is currently scheduled for three years and will include nine waves of interviewing beginning February 2001. Approximately 50,000 households will be selected for the 2001 Panel, of which 37,500 are expected to be interviewed. We estimate that each household will contain 2.1 people, yielding 78,750 interviews in Wave 1 and subsequent waves. Interviews take 30 minutes on average. Three waves of interviewing will occur in the 2001 SIPP Panel during FY 2002. The total annual burden for 2001 Panel SIPP interviews would be 118,125 hours in FY 2002.

The topical modules for the 2001 Panel Wave 4 collect information about:

- Annual Income and Retirement Accounts

- Taxes
- Work Schedule
- Child Care

Wave 4 interviews will be conducted from February 2002 through May 2002.

A 10-minute reinterview of 2,500 persons is conducted at each wave to ensure accuracy of responses. Reinterviews would require an additional 1,253 burden hours in FY 2002.

An additional 2,100 burden hours is requested in order to continue the SIPP Methods Panel testing. The test targets SIPP items and sections that require thorough and rigorous testing in order to improve the quality of core data.

II. Method of Collection

The SIPP is designed as a continuing series of national panels of interviewed households that are introduced every few years with each panel having durations of one to four years. All household members 15 years old or over are interviewed using regular proxy-respondent rules. During the 2001 Panel, respondents are interviewed a total of nine times (nine waves) at 4-month intervals making the SIPP a longitudinal survey. Sample people (all household members present at the time of the first interview) who move within the country and reasonably close to a SIPP primary sampling unit will be followed and interviewed at their new address. Individuals 15 years old or over who enter the household after Wave 1 will be interviewed; however, if these individuals move, they are not followed unless they happen to move along with a Wave 1 sample individual.

III. Data

OMB Number: 0607-0875.

Form Number: SIPP/CAPI Automated Instrument.

Type of Review: Regular.

Affected Public: Individuals or Households.

Estimated Number of Respondents: 78,750 persons per wave.

Estimated Time Per Response: 30 minutes per person on average.

Estimated Total Annual Burden Hours: 121,478.

Estimated Total Annual Cost: The only cost to respondents is their time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for the Office of Management and Budget approval of this information collection. They also will become a matter of public record.

Dated: July 3, 2001.

Madeleine Clayton,

Departmental Paperwork Clearance Officer,
Office of the Chief Information Officer.

[Docket No. 010628164-1164-01]

National Defense Stockpile Market Impact Committee Request for Public Comments on the Potential Market Impact of Proposed Increases in Stockpile Disposals of Mica Splittings and Titanium Sponge

AGENCY: Department of Commerce.

ACTION: Notice of request for public comments on the potential market impact of proposed increases in the disposal quantities of Mica Splittings and Titanium Sponge from the National Defense Stockpile under the proposed Fiscal Year (FY) 2002 Annual Materials Plan (AMP).

SUMMARY: This notice is to advise the public that the National Defense Stockpile Market Impact Committee (co-chaired by the Departments of Commerce and State) is seeking public comments on the potential market impact of proposed increases in the disposal quantities of Mica Splittings and Titanium Sponge National Defense Stockpile under the proposed Fiscal Year (FY) 2002 Annual Materials Plan (AMP).

DATES: Comments must be received by August 8, 2001.

ADDRESSES: Written comments should be sent to Richard V. Meyers, Co-Chair, Stockpile Market Impact Committee, Office of Strategic Industries and Economic Security, Room 3876, Bureau

of Export Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; FAX (202) 482-5650; E-Mail: rmeyers@bxa.doc.gov

FOR FURTHER INFORMATION CONTACT:

Richard V. Meyers, Office of Strategic Industries and Economic Security, Bureau of Export Administration, U.S. Department of Commerce, (202) 482-3634; or Terri L. Robl, Office of International Energy and Commodity Policy, U.S. Department of State, (202) 647-3423; co-chairs of the National Defense Stockpile Market Impact Committee.

SUPPLEMENTARY INFORMATION: Under the authority of the Strategic and Critical Materials Stock Piling Act of 1979, as amended, (50 U.S.C. 98 *et seq.*), the Department of Defense (DOD), as National Defense Stockpile Manager, maintains a stockpile of strategic and critical materials to supply the military, industrial, and essential civilian needs of the United States for national defense. Section 3314 of the Fiscal Year (FY) 1993 National Defense Authorization Act (NDAA) (50 U.S.C. 98h-1) formally established a Market Impact Committee (the Committee) to "advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions and disposals of materials from the stockpile * * *." The Committee must also balance market impact concerns with the statutory requirement to protect the Government against avoidable loss.

The Committee is comprised of representatives from the Departments of Commerce, State, Agriculture, Defense, Energy, Interior, Treasury, and the Federal Emergency Management Agency, and is co-chaired by the Departments of Commerce and State. The FY 1993 NDAA directs the Committee to "consult from time to time with representatives of producers, processors and consumers of the types of materials stored in the stockpile."

The National Defense Stockpile Administrator ("the Administrator") has proposed revising the proposed FY 2002 Annual Materials Plan (AMP) (previously approved by the Committee) to increase the disposal quantities of Mica Splittings from 4 million pounds to 8.5 million pounds, and Titanium Sponge from 5,000 short tons to 7,000 short tons.

The proposed increase for Mica Splittings will allow the Administrator to consider the possibility of an offer to sell most of the remaining Stockpile inventory of Mica Splittings in one transaction. The proposed increase for
