Although the selected alternative will be consistent with the intent of the Northwest Forest Plan, some of the current allocations or management direction may be modified. The selected alternative will amend the BLM's Coos Bay, Eugene, and Roseburg districts' Resource Management Plans, and the Siuslaw National Forest Land and Resource Management Plan, unless the no-action alternative is adopted.

2. Identification of the geographic area: The planning area covers approximately 675,000 acres in the Coast Range portion of the lower Umpqua River Basin in western Oregon. The area is primarily (98 percent) within Douglas County, Oregon (approximately 3,000 acres are in Coos County and 12,400 acres in Lane County). Approximately 225,000 acres are BLM-administered lands, 59,000 acres are National Forest lands, 34,300 acres are state lands, 8,300 acres are county or city, and 348,400 acres are privately owned.

3. General types of issues anticipated: In general, the issues anticipated include the following: improved efficiency of land and resource management; management of vegetation communities; minimizing effects on listed and proposed species and their habitats; watershed protection and function; timber sustainability on federal lands; timber supply to small businesses; revenues to state and local governments; consideration of continued public access and recreation; and protection of wetlands, riparian reserves, water quality, and cultural and historic resources.

4. Disciplines to be represented to prepare the plan will include, but not be limited to: wildlife biology, fish biology, forest ecology, silviculture, archaeology, economics, geology, soils, hydrology, lands and minerals, recreation, and land use planning.

5. Kind and extent of public participation: This project will be conducted with an open, public process. Public meetings/open houses will be held in July, during the comment period on the Draft Environmental Impact Statement, and at other times based on need. In addition, meetings will be initiated with city, county, state, and tribal governments, other federal agencies, the Southwest Oregon and Oregon Coast Provincial Advisory committees, and with other groups or agencies upon request. A website for the project, found at <http://www.or.blm.gov/umpqua>, will include flyers, mailers, and other documents, project updates, contacts, time lines, background, and other pertinent

information. The BLM project manager, Patrick Geehan, and the Foundation managers, Marc Kelley and Robert Gill, will be available to discuss public concerns and suggestions. Access to designers of the Multi-Resource Land Allocation Model (Model) and EIS interdisciplinary team members will be through the project managers. Comments concerning the scope of the analysis should be received in writing by August 8, 2001. INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-440]

In the Matter of Certain 4-Androstenediol; Request for Written Submissions on the Public Interest and Bonding

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission is requesting briefing on the public interest and the appropriate bond during the period of Presidential review, if a limited exclusion order is issued in the above-captioned investigation. The Commission previously found the only named respondent in the investigation to be in default.

FOR FURTHER INFORMATION CONTACT: Jean Jackson, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street, S.W., Washington, D.C. 20436, telephone 202-205-3104. Copies of all nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's

electronic docket (EDIS-ON-LINE) at <http://dockets.usitc.gov/eol.public>. Hearing-impaired persons are advised that information on the matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation, which concerns allegations of unfair acts in violation of section 337 of the Tariff Act of 1930 in the importation and sale of certain 4-androstenediol (a nutritional supplement used by body-builders) on December 19, 2000. 65 FR 79424. On April 19, 2001, complainant LPJ, Inc. of Seymour, Illinois (LPJ) moved pursuant to 19 U.S.C. 1337(a)(1) and 19 CFR 210.16 for an order directing the only respondent, Changzhou Huabang Pharmaceutical Group, Ltd. (Changzhou), to show cause why it should not be found in default for failure to respond to LPJ's complaint. The Commission investigative attorney (IA) supported LPJ's motion. The presiding administrative law judge (ALJ) (Judge Luckern) issued Order No. 8 on April 30, 2001, directing Changzhou to show cause why it should not be found in default. Changzhou did not respond to that order.

On May 24, 2001, the ALJ issued an ID finding Changzhou in default pursuant to 19 CFR 210.16, and ruling that it had waived its rights to appear, to be served with documents, and to contest the allegations at issue in the investigation. No petitions for review of the ID were filed. The Commission decided not to review the ID on June 8, 2001, 66 FR 32374 (June 14, 2001), thereby allowing it to become the Commission's final determination under 19 CFR 210.42. On June 25, 2001, pursuant to 19 U.S.C. 1337(g)(1) and 19 CFR 210.16(c)(1), complainant LPJ filed a declaration seeking limited relief against the defaulting respondent. In its declaration, LPJ requested that the Commission issue a limited exclusion order against Changzhou.

Section 337(g)(1), 19 U.S.C. (g)(1), authorizes the Commission to order limited relief against a respondent found in default unless, after consideration of public interest factors, it finds that such relief should not issue. In this investigation, Changzhou has been found in default and LPJ has requested issuance of a limited exclusion order that would deny entry to certain 4-androstenediol manufactured by Changzhou. If the Commission decides to issue a limited exclusion order against Changzhou, it must consider what the amount of the
