

OMB number: 3095-0024.

Agency form number: NA Form

16011.

Type of review: Regular.

Affected public: Private organizations.

Estimated number of respondents:

1,000.

Estimated time per response: 20 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 333 hours.

**Abstract:** The information collection is prescribed by 36 CFR 1280.94. The application is submitted to a Presidential library to request the use of space in the library for a privately sponsored activity. NARA uses the information to determine whether use will meet the criteria in 36 CFR 1280.94 and to schedule the date.

2. **Title:** Request for and Record of Pass.

OMB number: 3095-0026.

Agency form number: NA Form 6006.

Type of review: Regular.

Affected public: Individuals or households, business or other for-profit organizations and institutions, and Federal government.

Estimated number of respondents:

1,266.

Estimated time per response: 3 minutes.

Frequency of response: On occasion (when respondent wishes to enter NARA facilities). Respondents who are contractors are given a building pass which expires at the end of each fiscal year; those who are volunteers are given a pass valid for 5 years.

Estimated total annual burden hours: 63 hours.

**Abstract:** The collection of information is necessary as a security measure to protect employees, information, and property in National Archives and Records Administration (NARA) facilities and to facilitate the issuance of passes. Use of the form is authorized by 44 U.S.C. 2104. At the NARA College Park facility, individuals receive an access card with the pass that is electronically coded to permit access to secure zones ranging from a general nominal level to stricter access levels for classified records zones. The access card system is part of the security management system which meets the accreditation standards of the Government intelligence agencies for storage of classified information, and serves to comply with E.O. 12958.

Dated: July 23, 2001.

**L. Reynolds Cahoon,**

Assistant Archivist for Human Resources and Information Services.

## THE NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

### Meetings of Humanities Panel

**AGENCY:** The National Endowment for the Humanities.

**ACTION:** Notice of meetings.

**SUMMARY:** Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, as amended), notice is hereby given that the following meetings of the Humanities Panel will be held at the Old Post Office, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

#### FOR FURTHER INFORMATION CONTACT:

Laura S. Nelson, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, DC 20506; telephone (202) 606-8322. Hearing-impaired individuals are advised that information on this matter may be obtained by contacting the Endowment's TDD terminal on (202) 606-8282.

**SUPPLEMENTARY INFORMATION:** The proposed meetings are for the purpose of panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by the grant applicants. Because the proposed meetings will consider information that is likely to disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential and/or information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee meetings, dated July 19, 1993, I have determined that these meetings will be closed to the public pursuant to subsections (c)(4) and (6) of section 552b of Title 5, United States Code.

1. Date: August 1, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: The meeting will review applications for American and Latin American Literature and Linguistics, submitted to the Division of Research Programs at the May 1, 2001 deadline.

2. Date: August 2, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: This meeting will review applications for Romance Languages and Literatures, submitted to the Division of Research Programs at the May 1, 2001 deadline.

3. Date: August 3, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: This meeting will review applications for Film and Theater, submitted to the Division of Research Programs at the May 1, 2001 deadline.

4. Date: August 6, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: This meeting will review applications for Anthropology and Folklore, submitted to the Division of Research Programs at the May 1, 2001 deadline.

5. Date: August 7, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: This meeting will review applications for History of Art and Architecture I, submitted to the Division of Research Programs at the May 1, 2001 deadline.

6. Date: August 8, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: This meeting will review applications for Medieval Studies, submitted to the Division of Research Programs at the May 1, 2001 deadline.

7. Date: August 9, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: This meeting will review applications for African, Near Eastern, and Asian Studies, submitted to the Division of Research Programs at the May 1, 2001 deadline.

8. Date: August 9, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 415.

Program: This meeting will review applications for Classical Studies, submitted to the Division of Research Programs at the May 1, 2001 deadline.

9. Date: August 10, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 415.

Program: This meeting will review applications for Sociology, Psychology, and Education, submitted to the Division of Research Programs at the May 1, 2001 deadline.

10. Date: August 10, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: This meeting will review applications for American Studies, submitted to the Division of Research Programs at the May 1, 2001 deadline.

11. Date: August 13, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Room: 315.

Program: This meeting will review applications for Germanic and Slavic Languages and Literatures, Comparative Literature, Literary Criticism and Linguistics, submitted to the Division of Research Programs at the May 1, 2001 deadline.

12. Date: August 14, 2001.  
Time: 8:30 a.m. to 5:00 p.m.  
Room: 315.

Program: This meeting will review applications for American Studies, Rhetoric, Communication and Media, submitted to the Division of Research Programs at the May 1, 2001 deadline.

13. Date: August 16, 2001.  
Time: 8:30 a.m. to 5:00 p.m.  
Room: 315.

Program: This meeting will review applications for History of Art and Architecture II, submitted to the Division of Research Programs at the May 1, 2001 deadline.

14. Date: August 17, 2001.  
Time: 8:30 a.m. to 5:00 p.m.  
Room: 315.

Program: This meeting will review applications for European History, submitted to the Division of Research Programs at the May 1, 2001 deadline.

BILLING CODE 7536-01-M

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-334 and 50-412]

### Firstenergy Nuclear Operating Company (FENOC), et al., Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License Nos. DPR-66 and NPF-73 issued to FENOC (the licensee) for operation of the Beaver Valley Power Station, Unit Nos. 1 and 2 (BVPS-1 and 2), located in Shippingport, PA.

The proposed amendment would revise the applicability of the current BVPS-2 heatup/cooldown curves contained in Technical Specification (TS) 3/4.4.9, "Pressure/Temperature Limits," from 15 Effective Full-Power Years (EFPY) to 14 EFPY. Proposed changes to TS 3.7.1.1, "Main Steam Safety Valves (MSSVs)," include revisions of the limiting condition for operation and to the title and content of Table 3.7-1 to provide consistency with the NUREG-1431 improved standard TS, creation of new Actions to address inoperable MSSVs, reduction of the Power Range Neutron Flux—High reactor trip setpoint to be consistent with Technical Specification Traveler

Form—235, Revision 1, and changes to the maximum power levels permissible with inoperable MSSVs. TS Bases changes are also proposed for consistency.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

(1) Does the proposed amendment involve a significant increase in the probability or consequences of an accident previously evaluated?

The proposed change to the Effective Full Power Years (EFPY) for the Unit 2 reactor coolant system heatup/cooldown curves are being made to impose a conservative projection of the increase in neutron fluence associated with a proposed 1.4% power uprate. This projection will ensure that the requirements of 10 CFR 50, Appendix G, "Fracture Toughness Requirements," will continue to be met following the proposed uprate. Thus, there is no significant increase in the probability or consequences of an accident previously evaluated.

The proposed changes to the Main Steam Safety Valve (MSSV) Technical Specifications will not reduce the valve's capability to provide pressure relief when required. The design basis events that were protected against by the heatup/cooldown curves and the MSSV's have not changed; therefore, the probability of an accident previously evaluated is not increased by these proposed changes. These proposed changes also do not alter any assumptions previously made in the radiological consequence evaluations, nor affect mitigation of the consequences of an accident previously evaluated.

Therefore, the proposed changes do not result in a significant increase in the probability or consequences of an accident previously evaluated.

(2) Does the proposed amendment create the possibility of a new or different kind of accident from any accident previously evaluated?

No new accident scenarios, failure mechanisms or single failures are introduced

as a result of the proposed changes. All systems, structures, and components previously required for the mitigation of an event remain capable of fulfilling their intended design function. The proposed changes have no adverse effects on any safety-related system or component and do not challenge the performance or integrity of any safety related system.

Therefore, the proposed changes do not create the possibility of a new or different kind of accident from any accident previously evaluated.

(3) Does the proposed amendment involve a significant reduction in a margin of safety?

The proposed change to the EFPYs for the Unit 2 reactor coolant system heatup/cooldown curves preserves the margin of safety by imposing a conservative projection of the increase in neutron fluence associated with the proposed 1.4% power uprate.

The design basis for the MSSVs is to limit the secondary system pressure to  $\leq 110\%$  of design pressure for any anticipated operational occurrence (AOO) or accident considered in the Design Basis Accident and transient analysis. All cases analyzed demonstrate that the MSSVs maintain Main Steam System integrity by limiting the maximum steam pressure to less than 110% of system design pressure. Since the design basis of the MSSVs is maintained, there is no significant reduction in the margin of safety.

Therefore, the proposed changes do not involve a significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to
