Constellation Power Source, Inc.; Notice of Issuance of Order

July 25, 2001.

Constellation Power Source, Inc. (CPS) submitted for filing a market-based rate schedule allowing eligible independent power producers (IPPs) to sell energy and/or capacity to CPS at market-based rates for resale. CPS also requested waiver of various Commission regulations for IPPs. In particular, CPS requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by eligible IPPs.

On June 5, 2001, pursuant to delegated authority, the Director, Division of Corporate Applications, Office of Markets, Tariffs and Rates, granted requests for blanket approval under Part 34, subject to the following:

Within thirty days of the date of the order, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by eligible IPPs should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request to be heard in opposition within this period, eligible IPPs are authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of the eligible IPPs, and compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of eligible IPP's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is August 24, 2001.

Copies of the full text of the Order are available from the Commission's Public Reference Branch, 888 First Street, NE., Washington, DC 20426. Portland General Electric Company; Notice of Availability of Environmental Assessment

July 25, 2001.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47910), the Office of Energy Projects has reviewed the Portland General Electric Company's (Portland General) application for license amendment to install an additional 70-kW turbine/generator unit at the Pelton Round Butte Hydroelectric Project, located on the Deschutes River in Jefferson, Marion, and Wasco Counties, Oregon, and has prepared an Environmental Assessment (EA). The project occupies lands of the Deschutes National Forest; Mt Hood National Forest; Willamette National Forest; Crooked River National Grassland; Bureau of Land Management; and tribal lands of the Confederated Tribes of the Warm Springs Reservation of Oregon.

The EA contains the Commission staff's analysis of the potential environmental impacts of the proposed amendment and concludes that approval of the proposed amendment with Portland General's proposed

environmental measures would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA is attached to a Commission order issued on July 20, 2001 for the above application. Copies of the EA are available for review at the Commission's Public Reference Room, located at 888 First Street, NE., Washington, DC 20426, or by calling (202) 208-1371. The EA may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance).
