C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because of the foregoing Proposed Rule Change: (i) Does not significantly affect the protection of investors or the public interest; (ii) does impose any significant burden on competition; and (iii) the MSRB provided the Commission with written notice of its intent to file the proposed rule change and its amendment at least five business days prior to the filing date, the proposed rule change, as amended, is effective pursuant to Section 19(b)(3)(A) of the Exchange Act⁹ and Rule 19b-4(f)(6) thereunder.¹⁰ A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to the 30 days after the date of filing.¹¹ However, Rule 19b-4(f)(6)(iii) permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest.¹² The MSRB has requested that the Commission designate such shorter time period and accelerate the operative date of the proposal to August 6, 2001, less than 30 days from the date of filing of the amendment. The Commission, consistent with the protection of investors and the public interest,¹³ determined to grant the MSRB's request and make this rule change and its amendment operative on August 6, 2001.

For the reasons set forth above, the Commission finds that it is consistent with the protection of investors and the public interest for the rule proposal and its amendment to become operative on August 6, 2001. At any time within 60 days of the filing of this proposed rule change, the Commission may summarily abrogate this rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors

or otherwise in furtherance of the purposes of the Act. In particular, the MSRB believes the Proposed Rule Change qualifies as a "non-controversial filing" in that the Proposed Rule Change does not significantly affect the protection of investors or the public interest and does not impose any significant burden on competition.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including where the proposed rule is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submissions, all subsequent amendments, all written statements with respect to the Proposed Rule Change that are filed with the Commission, and all written communications relating to the Proposed Rule Change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing will also be available for inspection and copying at the MSRB's principal offices. All submissions should refer to File No. SR-MSRB-2001-05 and should be submitted by August 21, 2001.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁴

Margaret H. McFarland,

Deputy Secretary.

Information Collection Requests

1. *Title:* Inflatable Personal Flotation Devices (PFDs) for Recreational Vessels
OMB Control Number: 2115-0619.

Type of Request: Extension of a currently approved collection.

Forms: This collection of information does not require the public to fill out Coast Guard forms, but does require manufacturers of PFDs to place labels on these devices.

Abstract: The information collected under 46 CFR subpart 160.076 mainly concerns the labeling and preparation of manuals for inflatable PFDs. 33 CFR 175.15 requires that every person using a recreational vessel carry enough PFDs for each person on board. In keeping with this requirement, the Coast Guard has established a system for approval of PFDs for use on such vessels. To facilitate approval and inspection, the Coast Guard requires that manufacturers place labels on their devices and publish manuals to help the users. The labels serve two purposes. First, they indicate the chest size of each PFD and also display printed and pictographic instructions for proper use and care of it. Second, because they include specific product numbers and manufacturers'

names, they are central to the Coast Guard's mission of identifying faulty equipment and then notifying the responsible producer. Like the labels, the manuals serve two purposes. First, they give the users information they will need to properly use and maintain the PFDs. Second, they keep the Coast Guard current on the specifications and design of new PFDs.

Affected Public: Manufacturers of PFDs.

Annual Estimated Burden Hours: The estimated burden is 1,406 hours a year.

Dated: July 25, 2001.

V.S. Crea,

Director of Information and Technology.
