[Docket No. CP00-412-000]

### Cross Bay Pipeline Company, L.L.C. and Transcontinental Gas Pipe Line Corporation; Notice of Availability of the Environmental Assessment for the Proposed Cross Bay Project

August 1, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Cross Bay Pipeline Company, L.L.C. (Cross Bay) and Transcontinental Gas Pipe Line Corporation (Transco) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the proposed project which includes the transfer of ownership, construction, and operation of natural gas pipeline facilities. Cross Bay proposes to expand the capacity of facilities in New Jersey and New York to transport an additional 125,000 dekatherms per day of natural gas to KeySpan Energy Delivery New York and KeySpan Energy Delivery Long Island. Cross Bay proposes to:

- Acquire, hydrostatically test, and replace sections of 3.27 miles of Transco's 42-inch-diameter Cross Bay Extension in Middlesex County, New Jersey;
- Acquire and uprate by hydrostatic testing 33.66 miles of Transco's 26-inch-diameter Cross Bay Extension crossing Middlesex and Monmouth Counties, New Jersey and Queens and Nassau Counties, New York;
- Acquire Transco's Morgan and Long Beach Meter Stations in Middlesex County, New Jersey and Nassau County, New York, respectively; and
- Construct and operate a 16,000-horsepower Cross Bay Compressor Station and Cross Bay Meter Station at

the same location in Middlesex County, New Jersey.

The applicants also request the abandonment of certain Transco pipeline facilities by transfer to Cross Bay.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street, N.E., Room 2A, Washington, DC 20426, (202) 208-1371.
