j. *Description of Proposal:* The Applicants propose a transfer of the licenses for the Vanceboro, West Branch, and Forest City water storage projects from Georgia-Pacific to Domtar Maine. The Applicants state that the personnel who currently manage and operate the projects for Georgia-Pacific will continue to do so for Domtar Maine.

The licenses for the West Branch and Forest City projects expired September 30, and August 31, 2000, respectively, however, notices authorizing continued operation were issued for both projects. The transfer application was filed within five years of the expiration of the licenses for these two projects. In Hydroelectric Relicensing Regulations Under the Federal Power Act (54 Fed. Reg. 23,756; FERC Stats. and Regs., Regs. Preambles 1986–1990 30,854 at p. 31,437), the Commission declined to forbid all license transfers during the last five years of an existing license, and instead indicated that it would scrutinize all such transfer requests to determine if the transfer's primary purpose was to give the transferee an advantage in relicensing (id. at p. 31,438 n. 318).
