

several chemicals identified as hazardous air pollutants, including but not limited to lead compounds, arsenic compounds, and 1,3-butadiene. The rule provides protection to the public by requiring all secondary lead smelters to meet emission standards reflecting the application of the maximum achievable control technology (MACT). This information is being collected to assure compliance with 40 CFR part 63, Subpart X.

Owners or operators of the affected facilities described must make one-time-only notifications including: notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate, notification of the initial performance test, including information necessary to determine the conditions of the performance test, and performance test measurements and results. All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office. Owners or operators must maintain records of initial and subsequent compliance tests for lead compounds, and identify the date, time, cause and corrective actions taken for all bag leak detection alarms. Records of continuous monitoring devices, including parametric monitoring, must be maintained and reported semiannually. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the records for at least five years following the date of such measurements and records. At a minimum, records of the previous two years must be maintained on site.

Industry and EPA records indicate that 23 sources are subject to the standard, and no additional sources are expected to become subject to the standard over the next three years. However, we assume that one furnace will be rebuilt per year and that each facility will make a major adjustment once per year which will require revising its operational plan. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required

under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on February 1, 2001. No comments were received.

Burden Statement

The annual public reporting and record keeping burden for this collection of information is estimated to average 229 hours per response (includes time for recordkeeping activities). Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Owners or operators of secondary lead smelters.

Estimated Number of Respondents:

23.

Frequency of Response: Semiannual reports and one-time only notifications.

Estimated Total Annual Hour Burden: 16,033 person-hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$150,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1686.04 and OMB Control No. 2060-0296 in any correspondence.

Dated: August 29, 2001.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; National Emission Standards for Hazardous Air Pollutants for Beryllium Rocket Motor Firing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: National Emission Standards for Hazardous Air Pollutants for Beryllium Rocket Motor Firing (40 CFR part 61, subpart D), EPA ICR Number 1125.03, OMB Control Number 2060-0394, expiring October 31, 2001. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 11, 2001.

ADDRESSES: Send comments, referencing EPA ICR No. 1125.03 and OMB Control No. 2060-0394, to the following addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division, (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, contact Susan Auby at EPA by phone at (202) 260-4901, by E-Mail at Auby.Susan@epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1125.03. For technical questions about the ICR, contact Elson Lim at EPA by phone at (202) 564-7006, by E-Mail at Lim.Elson@epa.gov.

SUPPLEMENTARY INFORMATION:

Title: National Emission Standards for Hazardous Air Pollutants for Beryllium Rocket Motor Firing (40 CFR part 61 subpart D), OMB Control Number 2060-0394; EPA ICR No. 1125.03 expiration date October 31, 2001. This is a request for extension of a currently approved collection.

Abstract: Beryllium rocket motor firing operations result in emissions of beryllium. In the Administrator's judgment, emissions from these sources are in sufficient quantity to cause or contribute to air pollution that may endanger public health and welfare. The National Emission Standards for Hazardous Air Pollutants (NESHAP) 40 CFR part 61 subpart D establishes limits for beryllium.

In order to ensure compliance with the standards, adequate recordkeeping and reporting is necessary. This information enables the Agency to: (1) Identify the sources subject to the standard; (2) ensure initial compliance with emission limits; and (3) verify continuous compliance with the standard. Specifically, the rule requires subject test sites to test ambient air for beryllium during and after firing of a rocket motor. Samples are analyzed within 30 days and results are reported to the EPA Region by registered letter by the business day following the determination. In addition, stack sampling requires sampling of beryllium combustion products, analysis and reporting within 30 days. The results are reported to EPA by the day following the determination and calculation.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on May 23, 2001, (66 FR 28462). No comments were received.

Burden Statement

The annual public reporting and record keeping burden for this collection of information is estimated to average 8 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to: review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owner/Operators of Beryllium Rocket Motor Firing Plants.

Estimated Number of Respondents: 1.
Frequency of Response: Once per test firing in 3 years (1/3).

Estimated Total Annual Hour Burden: 8 hours.

Estimated Total Annualized Cost Burden: \$453.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1125.03 and OMB Control No. 2060-0394 in any correspondence.

Dated: August 29, 2001.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Clean Water Act State Revolving Fund Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Clean Water Act State Revolving Fund Program, OMB Control Number 2040-0118, and expiration date of 09/30/01. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 11, 2001.

ADDRESSES: Send comments, referencing EPA ICR No. 1391.06 and OMB Control No. 2040-0118, to the following addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and to

Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Susan Auby at EPA by phone at (202) 260-4901, by email at Auby.susan@epamail.epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1391.06. For technical questions about the ICR contact Nelson L. Price at (202) 564-0602.

SUPPLEMENTARY INFORMATION:

Title: Clean Water Act State Revolving Fund Program; OMB Control No. 2040-0118; EPA ICR No. 1391.06; expiring on 09/30/01. This is a request for an extension of a currently approved collection.

Abstract: The Clean Water Act, as amended by "The Water Quality Act of 1987" (U.S.C. 1381-1387 *et seq.*), created a Title VI which authorizes grants to States for the establishment of State Water Pollution Control Revolving Funds (SRFs). The information activities are pursuant to Section 606 of the Act, and SRF Interim Final Rule (March 1990).

The 1987 Act declares that water pollution control revolving loan funds shall be administered by an instrumentality of the State subject to the requirements of the Act. This means that each State has a general responsibility for administering its revolving fund and must take on certain specific responsibilities in carrying out its administrative duties. The information collection activities will occur primarily at the program level through the Capitalization Grant Application and Agreement/Intended Use Plan, Annual Report, State Audit, and Financial Assistance Application Review.

The State must prepare a Capitalization Grant Application and Agreement that includes an Intended Use Plan (IUP) outlining in detail how it will use the program funds. The agreement is an instrument by which the State commits to manage its revolving fund program.

The State must agree to complete and submit an Annual Report on the uses of the fund. The report will indicate how activities financed will contribute toward meeting the goals and objectives and provides information on loan recipients, loan amounts, loan terms and project categories of eligible costs.

The State will conduct or have conducted a financial audit of its CWSRF program. The audit report will contain an opinion on the financial
