SUPPLEMENTARY INFORMATION:

Title: Reporting and Recordkeeping Requirements for Universal Waste Handlers and Destination Facilities (OMB Control Number 2050-0145; ICR Number 1597.04) expiring September 30, 2001. This is a request for extension of a currently approved collection.

Abstract: The universal waste regulations at 40 CFR part 273 were

promulgated by EPA under the authority of Subtitle C in Resource Conservation and Recovery Act (RCRA). This information collection targets the collection of information for the following reporting or recordkeeping requirements: notification, labeling and marking, storage time limitations, off-site shipments, tracking of universal waste shipments, and petitions to include other waste categories at the federal level. It is necessary for EPA to collect universal waste information to ensure that universal waste is collected and managed in a manner that is protective of human health and the environment. EPA requires, among other things, Large Quantity Handlers of Universal Waste (LQHUV) to notify the Agency of their universal waste management activities so that EPA can obtain general information on these handlers, and to facilitate enforcement of the regulations at part 273. In addition, EPA requires universal waste handlers to record the date on which they begin storing universal waste on-site to ensure that such accumulation is performed responsibly. EPA also requires certain universal waste handlers to track receipt of universal waste shipments as well as shipments sent off-site to ensure that universal waste is properly treated, recycled, and disposed. Finally, the submission of petitions in support of regulating other wastes or waste categories under part 273 helps EPA (1) to compile information on these wastes, and (2) to determine whether regulation as a universal waste is appropriate. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on March 27, 2001 (66 FR 16672); no comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information in hours per response is estimated to average 1 hour for Small Quantity Handlers of Universal Waste (SQHUV), 3 hours for Large Quantity Handlers of Universal Waste (LQHUV), and 201 hours for destination facilities. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review
