II. What Action is the Agency Taking

This notice announces receipt by EPA of requests from Cheminova A/S, FMC Corporation, and Micro-Flo Corporation to cancel five pesticide products registered under section 3 of FIFRA. These registrations are listed in Table 1.

A. Background Information

Ethion is an organophosphate insecticide registered for use on citrus in Florida and Texas, and cattle in eartags.

On August 24, August 29, and August 31, 2001, Micro-Flo Corporation, FMC Corporation, and Cheminova A/S, respectively, signed a Memorandum of Agreement with EPA requesting voluntary cancellation pursuant of 6(f) of FIFRA of all their registrations for products containing ethion. The effective cancellation dates are intended to be no earlier than October 1, 2003, for manufacturing use products and December 31, 2003, for end-use products.

B. Requests for Voluntary Cancellation

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary termination of any minor agricultural use before granting the request, unless: (1) The registrants request a waiver of the comment period, or (2) the Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment. The registrant has requested that EPA waive the 180-day comment period. EPA is granting the registrants' request to waive the 180-day comment period. EPA anticipates granting the cancellation request shortly after considering the comments received during the 30-day comment period for

this notice. The registrations for which cancellations were requested are identified in Table 1.

TABLE 1.—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Company	Registration Number	Product
Cheminova A/S	4787–10	Cheminova Ethion Technical
FMC Corporation	279–2280	Ethion Technical Insecticide
	279–1254	Ethion 4 Miscible
Micro-Flo Corporation	51036–89	Ethion 4 EC
	51036–90	Ethion 8 EC

III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA section 6(f)(1) further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**, make reasonable efforts to inform persons who rely on the pesticide for minor agricultural uses, and provide a 30-day period in which the public may comment. Thereafter, the Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. A withdrawal shall have no effect on any cancellation that has already been ordered; the effective date of such cancellation and all other provisions of any earlier cancellation action shall remain in effect. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The Agency intends to prohibit the sale and distribution of existing stocks of ethion manufacturing products on October 1, 2003, and to prohibit the use

of manufacturing use products on December 31, 2003. The Agency intends to prohibit the sale and distribution of end-use product on October 1, 2004, and to prohibit the use of end-use product on December 31, 2004. This is in accordance with the Agency's statement of policy as prescribed in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL–3846–4). Exceptions will be made if EPA determines that a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a Data Call-In. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold, or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product. Exception to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in a Special Review action, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

VI. Future Tolerance Revocations

EPA anticipates drafting a future **Federal Register** notice proposing revocation of tolerances on commodities on which there has been no registered uses of ethion. With this present proposal, EPA seeks comment as to whether any individuals or groups want to support continuation of these tolerances.
