#### Availability of Final Guidance for Coastal Impact Assistance Program

**AGENCY:** National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

**ACTION:** Notice of Availability of Final Guidance for Coastal Impact Assistance Program.

**SUMMARY:** Notice is hereby given of the availability of Final Guidance for the Coastal Impact Assistance Program (CIAP). The fiscal year 2001 appropriations for the Departments of Commerce, Justice and State created the CIAP.

The CIAP will direct approximately \$145 million to the outer continental (OCS) shelf oil and gas producing states of Alaska, Alabama, California, Florida, Louisiana, Mississippi and Texas and the approximately 150 coastal political subdivisions within those states to help mitigate the impacts of OCS activities and protect coastal resources. The CIAP requires these states to submit Coastal Impact Assistance Plans detailing how the funds will be expended. This guidance provides the information necessary for eligible states and coastal political subdivisions to develop CIAP plans and submit them to the National Oceanic and Atmospheric Administration (NOAA).

Copies of the Final Guidance for the Coastal Impact Assistance Program can be found on the NOAA website at <http://www.ocrm.nos.noaa.gov/cpd> or may be obtained upon request from: Joseph Flanagan, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland 20910, tel. 301-713-3155, extension 201, e-mail [joseph.flanagan@noaa.gov](mailto:joseph.flanagan@noaa.gov).

**FOR FURTHER INFORMATION CONTACT:** Josh Lott, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland 20910, tel. 301-713-3155,

extension 178, e-mail [josh.lott@noaa.gov](mailto:josh.lott@noaa.gov).

**SUPPLEMENTARY INFORMATION:** (1) Program Authorities: Specific authority for this Announcement is found in 43 U.S.C. 1331 *et seq.*, as amended, December 21, 2000. (2) Catalog of Federal Domestic Assistance Numbers: 11.419 for NOAA Coastal Zone Management Program Administration.

#### I. Introduction

The fiscal year 2001 appropriations act for the Departments of Commerce, Justice, and State created the Coastal Impact Assistance Program (CIAP) by amending the Outer Continental Shelf Lands Act (43 U.S.C. 1331 *et seq.*). The CIAP recognizes that impacts from Outer Continental Shelf (OCS) oil and gas activities fall disproportionately on the coastal states and localities nearest to where the activities occur, and where the associated facilities are located. The CIAP legislation appropriates money to the Secretary of Commerce who will disburse it to eligible states and coastal political subdivisions, and requires the states to submit Coastal Impact Assistance Plans detailing how the funds will be expended. This guidance provides information necessary for eligible states and coastal political subdivisions to participate in the CIAP. Alabama, Alaska, California, Florida, Louisiana, Mississippi, and Texas are the seven eligible states. Counties, parishes, or equivalent units of government within those states lying all or in part within the coastal zone as defined by section 304(1) of the Coastal Zone Management Act of 1972, as amended (CZMA), are the coastal political subdivisions eligible for CIAP funding (§ 31(a)(1)), a total of 147 local jurisdictions.

States must develop CIAP plans and submit them to the National Oceanic and Atmospheric Administration (NOAA) by July 1, 2001, and NOAA has 90 days from receipt to complete review (§ 31(d)(1), (3)). If a state has not submitted a plan by July 1, 2001, NOAA will hold the funds in escrow provided that the state is making a good faith effort to develop and submit its CIAP plan (§ 31(c)(4)).

#### II. Funding Allocations

The total fiscal year 2001 appropriation is \$149,670,000 (this is \$150 million less the 0.22% across the board reduction mandated in the appropriations act). Congress authorized and appropriated funds for the CIAP for fiscal year 2001 only. NOAA may utilize no more than five percent of the available funding to cover some of the

costs of program administration. These costs include legal and program work for developing and implementing the program; financial assistance expertise to ensure prompt delivery of funds; technical assistance to address other statutory requirements such as the National Environmental Policy Act (NEPA), Endangered Species Act (ESA), the Essential Fish Habitat provisions of the Sustainable Fisheries Act, Coastal Barrier Resources Act, National Historic Preservation Act, Americans with Disabilities Act, and others; technical needs for funding formula development; and other costs such as printing and public notices. Until the state plans have been submitted, it is difficult to predict the costs of complying with NEPA, ESA, and other federal authorities. If less than five percent is required for program administration, we will look to reallocate the remaining funds to the states and coastal political subdivisions.

The CIAP legislation allocates funds to eligible states and coastal political subdivisions according to a formula based on revenues from OCS leases, shoreline mileage and population of coastal political subdivisions, and distance from coastal political subdivisions to the OCS leased tracts. NOAA completed and released the allocations on April 16, 2001.

#### III. Developing the Coastal Impact Assistance Plan

Each Governor must designate a state agency to develop the Coastal Impact Assistance Plan. Coastal political subdivisions must supply a point of contact to the Governor's designated agency and a description of how they will expend their allotted funds. The local projects will be incorporated into the state plan and the Governor must certify that the uses of funds by the coastal political subdivisions are consistent with the authorized uses of funds specified in § 31(e) (§ 31(d)(2)(C)). Federal funds appropriated to the states under sections 306 or 309 of the CZMA may be used to develop the plan. See section IV.A. for more information on how states and coastal political subdivisions may incur CIAP costs before the funds are disbursed.

##### A. Public Participation

The CIAP legislation requires local input and public participation in the development of the plan (§ 31(d)(1)). This can be achieved through a variety of means: use of advisory committees; commission meetings; informal public workshops; or formal public hearings. At a minimum, states should involve the public in plan development, provide
