DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP01-415-000]

**East Tennessee Natural Gas Company
Notice of Intent To Prepare an
Environmental Impact Statement for
the Proposed Patriot Project, Request
for Comments on Environmental
Issues, and Notice of Public Scoping
Meetings and Site Visit**

October 2, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental

impacts of the East Tennessee Natural Gas Company's (East Tennessee) Patriot Project in Tennessee, Virginia, and North Carolina.¹ The proposed facilities consist of an expansion of the existing mainline that would include replacement, looping, and uprating of about 187 miles of pipeline and the addition of 71,710 horsepower (hp) of compression at 5 new and 10 existing compressor stations, and an extension of the mainline that would include 99.63 miles of new pipeline. This EIS will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with applicable state laws.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility on My Land? What Do I Need To Know?" should have been attached to the project notice East Tennessee provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. The fact sheet is available for viewing on the FERC Internet website (<http://www.ferc.gov>).

This notice is being sent to affected landowners along East Tennessee's route; Federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes that might attach religious and cultural significance to historic properties in the area of potential effect; local libraries and newspapers; and the Commission's list of parties to the proceeding. We² encourage government representatives to notify their constituents of this proposed action and encourage them to comment on their areas of concern. Additionally, with this notice, we are

¹ East Tennessee's application in Docket No. CP01-415-000 was filed with the Commission under section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations.
