[Investigations Nos. 701-TA-417-421 and 731-TA-953-963 (Preliminary)]

### Carbon and Certain Alloy Steel Wire Rod From Brazil, Canada, Egypt, Germany, Indonesia, Mexico, Moldova, South Africa, Trinidad and Tobago, Turkey, Ukraine, and Venezuela

#### Determinations

On the basis of the record<sup>1</sup> developed in the subject investigations, the United States International Trade Commission determines, pursuant to section 703(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a)) (the Act), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Brazil, Canada, Germany, Trinidad and Tobago, and Turkey of carbon and certain alloy steel wire rod<sup>2</sup> that are alleged to be subsidized by the Governments of Brazil, Canada, Germany, Trinidad and Tobago, and Turkey. The Commission also determines, pursuant to section 733(a) of the Act (19 U.S.C. 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Brazil, Canada, Germany, Indonesia, Mexico, Moldova, Trinidad and Tobago, and Ukraine of carbon and certain alloy steel wire rod that are alleged to be sold in the United States at less than fair value (LTFV). The Commission also determines,<sup>3</sup> pursuant to section 771(24)(A) of the Act (19

U.S.C. 1677(24)(A)), that imports of carbon and certain alloy steel wire rod from Egypt, South Africa, and Venezuela that are alleged to be sold in the United States at LTFV are negligible, and its investigations with regard to those countries are thereby terminated pursuant to section 733(a) of the Act.

#### Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce of affirmative preliminary determinations in the investigations under sections 703(b) and 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) and 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

#### Background

On August 31, 2001, a petition was filed with the Commission and Commerce by counsel on behalf of Co-Steel Raritan, Inc., Perth Amboy, NJ; GS Industries, Inc., Charlotte, NC; Keystone Consolidated Industries, Inc., Dallas TX; and North Star Steel Texas, Inc., Edina, MN, alleging that an industry in the United States is materially injured by reason of subsidized imports of carbon and certain alloy steel wire rod from Brazil, Canada, Germany, Trinidad and Tobago, and Turkey and LTFV imports of carbon and certain alloy steel wire rod from Brazil, Canada, Egypt, Germany, Indonesia, Mexico, Moldova, South Africa, Trinidad and Tobago, Ukraine, and Venezuela. Accordingly, effective August 31, 2001, the Commission instituted investigations Nos. 701-TA-417-421 and 731-TA-953-963 (Preliminary).

Notice of the institution of the Commission's investigations and of a

public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of September 10, 2001 (66 FR 47036). The conference was held in Washington, DC, on September 21, 2001, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on October 15, 2001. The views of the Commission are contained in USITC Publication 3456 (October 2001), entitled Carbon and Certain Alloy Steel Wire Rod from Brazil, Canada, Egypt, Germany, Indonesia, Mexico, Moldova, South Africa, Trinidad and Tobago, Turkey, Ukraine, and Venezuela: Investigations Nos. 701-TA-417-421 and 731-TA-953-963 (Preliminary).

By order of the Commission.

Issued: October 23, 2001.

The public record for this investigation may be viewed on the Commission's electronic docket (EDIS-ON-LINE) at <http://dockets.usitc.gov/eol/public>.

**SUPPLEMENTARY INFORMATION:** This patent-based section 337 investigation was instituted on August 23, 2000, based upon a complaint filed on July 20, 2000, by Intel Corporation ("Intel") and Level One Communications, Inc. ("Level One"). 65 FR 51327 (Aug. 23, 2000). The respondent is Altima Communications, Inc. ("Altima"). A second patent-based section 337 investigation naming Altima as a respondent was instituted on April 24, 2000, based upon a complaint filed by Level One on March 23, 2000, and supplemented on April 13, 2000. 65 FR 21789 (Apr. 24, 2000). On August 24, 2000, the presiding administrative law judge (ALJ) issued an order consolidating the two investigations. From April 16, 2001, through April 30, 2001, the ALJ held an evidentiary hearing. On July 19, 2001, the ALJ issued a final initial determination (ID) finding that respondent Altima has violated section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), by infringing certain claims of two of complainants' asserted patents. Specifically, the ALJ found that: (1) There has been importation and sale of the accused products; (2) complainants practice the patents in controversy and satisfy the domestic industry requirements of section 337; (3) certain of the claims in issue are valid; (4) the accused imported products directly infringe certain of the claims in issue; and (5) respondent has induced infringement of certain of the claims in issue. Based on these findings, the ALJ concluded there was a violation of section 337. The ALJ recommended issuance of a limited exclusion order.

Complainants Intel and Level One and respondent Altima filed petitions for review of various portions of the ALJ's final ID, and opposed each others' petitions for review. The Commission investigative attorney (IA) did not petition for review of the final ID, but opposed the other parties' petitions for review. On September 5, 2001, the Commission determined not to review the ALJ's final ID and issued a notice to that effect. 66 Fed. Reg. 47037 (Sep. 10, 2001).

Having determined that a violation of section 337 has occurred in the

importation, sale for importation, or sale in the United States of the accused integrated repeaters, as well as integrated repeaters and switches in plastic ball grid array (PBGA) packages, the Commission considered the issues of the appropriate form of relief, whether the public interest precludes issuance of such relief, and the bond during the 60-day Presidential review period.

The Commission determined that a limited exclusion order prohibiting the importation of the accused integrated repeaters, and circuit boards and carriers containing such devices, as well as integrated repeaters, switches and other products in PBGA packages, and circuit boards and carriers containing such devices, and directed to respondent Altima is the appropriate form of relief. The Commission further determined that the statutory public interest factors do not preclude the issuance of such relief, and that respondent's bond under the limited exclusion order shall be in the amount of 100 percent of the entered value of the imported articles.

This action is taken under the authority of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and section 210.50 of the Commission's Rules of Practice and Procedure (19 CFR 210.50).

Dated: Issued: October 24, 2001.

By order of the Commission.
