

available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552) and Commission regulations, on normal business days between the hours of 8:30 a.m. and 5 p.m. at the Public Reference Section, Room 130, Federal Trade Commission, 600 Pennsylvania Avenue NW., Washington, DC 20580. Comments will also be posted on the Commission website, <http://www.ftc.gov>.

Section D. Communications by Outside Parties to Commissioners or Their Advisors

Written communications and summaries or transcripts of oral communications respecting the merits of this proceeding from any outside party to any Commissioner or Commissioner's advisor will be placed on the public record. See 16 CFR 1.26(b)(5).

Section E. Regulatory Flexibility Act

The provision of the Regulatory Flexibility Act requiring an initial regulatory flexibility analysis (5 U.S.C. 605) does not apply because it is believed that the proposed amendment to the Rule will not have a significant economic impact on a substantial number of small entities (5 U.S.C. 605). This notice also serves as certification to the Small Business Administration of that determination.

The economic impact of the proposed amendment to the Rule is not anticipated to be significant because it is only extending, for a two-year period, a sliding scale mechanism that is already in place. The proposed amendment does not alter the *status quo*, and would postpone the potential economic impact, if any, of the expiration of the sliding scale mechanism. Thus, the economic impact of the amendment to the Rule is expected to be comparatively minimal.

Nonetheless, to ensure that no significant economic impact on a substantial number of small entities is overlooked, the Commission hereby requests public comment on the effect of the proposed amendment to the Rule on the costs, profitability, and competitiveness of, and employment in, small entities. After considering such comments, if any, the Commission will determine whether preparation of a final regulatory flexibility analysis (pursuant to 5 U.S.C. 605) is required.

Section F. Paperwork Reduction Act

This amendment would not amend any information collection requirements that have previously been reviewed and approved by the Office of Management and Budget pursuant to the Paperwork

Reduction Act, as amended, 44 U.S.C. 3501 *et seq.*

Section G. Questions on the Proposed Amendment

Members of the public are invited to comment on any issues or concerns they believe are relevant or appropriate to the Commission's consideration of the proposed amendment to the Children's Online Privacy Protection Rule. The Commission proposes to extend the sliding scale mechanism for obtaining verifiable parental consent for two years until April 21, 2004. The Commission is particularly interested in comments addressing the following questions:

(1) Are secure electronic mechanisms now widely available to facilitate verifiable parental consent at a reasonable cost? Please include comments on the following:

- (a) Digital signature technology;
- (b) Digital certificate technology;
- (c) Other digital credentialing technology;
- (d) P3P technology; and
- (e) Other secure electronic technologies.

(2) Are infomediary services now widely available to facilitate verifiable parental consent at a reasonable cost?

(3) Is this proposed extension an adequate amount of time considering the current development of secure electronic mechanisms and/or infomediary services for obtaining verifiable parental consent at a reasonable cost? Please include comments on the following:

- (a) The anticipated availability of secure electronic mechanisms and/or infomediary services;
- (b) The anticipated affordability of secure electronic mechanisms and/or infomediary services; and
- (c) The likelihood and timeframe of consumer adoption of secure electronic mechanisms and/or infomediary services.

(4) Should the extension be longer than two years?

(5) Rather than be extended, should the sliding scale mechanism be kept in place indefinitely, until the development of secure electronic mechanisms and/or infomediary services become widely available to facilitate verifiable parental consent at a reasonable cost?

(6) What, if any, will be the negative impact of extending the time period for the sliding scale mechanism for obtaining verifiable parental consent? Please include comments on whether the extension will serve as a disincentive for industry to develop secure electronic mechanisms and/or infomediary services to facilitate

verifiable parental consent at a reasonable cost.

List of Subjects in 16 CFR Part 312

Children, Communications, Consumer protection, Electronic mail, E-mail, Internet, Online service, Privacy, Record retention, Safety, Science and technology, Trade practices, Website, Youth.

Accordingly, the Federal Trade Commission proposes to amend 16 CFR Part 312 as follows:

PART 312—CHILDREN'S ONLINE PRIVACY PROTECTION RULE

1. The authority citation for part 312 continues to read as follows:

Authority: 15 U.S.C. 6501 *et seq.*

2. Amend § 312.5 by revising the second sentence of paragraph (b)(2) to read as follows:

§ 312.5 Parental consent.

* * * * *

(b) * * *

(2) * * * *Provided that:* For the period until April 21, 2004, methods to obtain verifiable parental consent for uses of information other than the "disclosures" defined by § 312.2 may also include use of e-mail coupled with additional steps to provide assurances that the person providing the consent is the parent. * * *

* * * * *

By direction of the Commission.

Donald S. Clark,

Secretary.

[FHWA Docket No. FHWA-2000-7799]

RIN 2125-AE79

Design-Build Contracting

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Correction to notice of proposed rulemaking.

SUMMARY: This document corrects a typographical error in the FHWA's notice of proposed rulemaking (NPRM), published on October 19, 2001, at 66 FR 53288. The NPRM proposes the implementation of regulations for design-build contracting as mandated by

section 1307(c) of the Transportation Equity Act for the 21st Century (TEA-21). The docket number that appeared in the heading of the NPRM was incorrect. This notice provides the correct docket number regarding the design-build contracting NPRM as FHWA-2000-7799.

DATES: Written comments to the NPRM must be received on or before December 18, 2001. Late comments will be considered to the extent practicable.

FOR FURTHER INFORMATION CONTACT: Mr. Gerald Yakowenko, Office of Program Administration (HIPA), (202) 366-1352, or Mr. Harold Aikens, Office of the Chief Counsel (202) 366-1373, Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Electronic Access

An electronic copy of this document may be downloaded using a modem and suitable communications software from the Federal Register Electronic Bulletin Board Service at (202) 512-1661. Internet users may reach the Federal Register's homepage at: <http://www.nara.gov/fedreg> and the Government Printing Office's database at: <http://www.access.gpo.gov/nara>.

Background

On October 19, 2001, at 66 FR 53288, the FHWA issued a NPRM regarding the implementation of regulations for design-build contracting as mandated by section 1307(c) of the TEA-21. The heading of this NPRM inadvertently referenced an incorrect docket number, FHWA-2000-7790 (this docket number references a final rule published by the Coast Guard). The purpose of this notice is to correct the docket number for the design-build contracting NPRM. The correct docket number for the design-build contracting NPRM is FHWA-2000-7799. All written comments submitted to the docket in response to the October 19, 2001, NPRM should reference the correct docket number, FHWA-2000-7799.

Authority: 23 U.S.C. 315; sec. 1307(c) of Pub. L. 105-178, 112 Stat. 107 (1998); 49 CFR 1.48.

Issued on: October 26, 2001.

Mary E. Peters,

Federal Highway Administrator.

BILLING CODE 4910-22-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 80

[FRL-7095-9]

RIN 2060-AJ76

Prohibition on Gasoline Containing Lead or Lead Additives for Highway Use: Fuel Inlet Restrictor Exemption for Motorcycles

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Today's proposed rule exempts motorcycles with emission control devices that could be affected by the use of leaded gasoline from having to be equipped with gasoline tank filler inlet restrictors. As before, motorcycles and other motor vehicles without such emission control devices are not required to be equipped with gasoline tank filler inlet restrictors.

The Clean Air Act and corresponding EPA regulations prohibit gasoline containing lead or lead additives (leaded gasoline) as a motor vehicle fuel after December 31, 1995. As a deterrent to misfueling prior to that date, the EPA regulations required filler inlet restrictors on motor vehicles equipped with an emission control device that could be affected by the use of leaded gasoline, such as a catalytic converter. EPA retained that provision after 1995 because the filler inlet restrictor, besides being a deterrent to misfueling, has also been incorporated into the design of some vapor recovery gasoline nozzle spouts. Gasoline tank filler inlet restrictors do not work well with most motorcycle fuel tanks, especially the saddle type of tank, because of their shallow depth. A gasoline tank filler inlet restrictor may cause gasoline spitback or spillage when a motorcycle is refueled, which increases evaporative emissions. Today there is relatively little risk of misfueling a motorcycle. Also, it is unlikely that a gasoline tank filler inlet restrictor on a motorcycle helps to control gasoline vapors when the motorcycle is refueled.

DATES: Comments on this proposed rule must be received in writing by November 30, 2001.

ADDRESSES: Materials relevant to this rule are available for inspection in public docket A-2001-17 at the Air Docket Office of the EPA, Room M-1500, 401 M Street, S.W., Washington, D. C. 20460, (202)260-7548, between the hours of 8:00 a.m. to 5:30 p.m., Monday through Friday. As provided in

40 CFR part 2, a reasonable fee may be charged for copying docket material.

FOR FURTHER INFORMATION CONTACT:

Richard Babst at (202) 564-9473, facsimile: (202) 565-2085, e-mail address: babst.richard@epa.gov.

SUPPLEMENTARY INFORMATION: For more information on this proposal, please see EPA's direct final rule published in the Rules and Regulations section of this **Federal Register** which amends the regulations to exempt motorcycles from the tank filler inlet restrictor provision of 40 CFR 80.24(b). The Agency views this direct final rule as a noncontroversial action for the reasons discussed in the Direct Final Rule published in today's **Federal Register**. If no adverse or critical comments or requests for a public hearing are received in response to this proposal, no further action is contemplated in relation to this rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. We will address all public comments in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

Administrative Requirements

A. Executive Order 12866

Under Executive Order 12866 (58 FR 51735 (Oct. 4, 1993), the Agency must determine whether the regulatory action is "significant" and therefore subject to OMB review and the requirements of the Executive Order. The Order defines "significant regulatory action" as one that is likely to result in a rule that may:

- (1) Have an annual effect on the economy of \$100 million or more, or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;
- (2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;
- (3) Materially alter the budgetary impact of entitlement, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or
- (4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

It has been determined that this proposed rule is not a "significant regulatory action" under the terms of Executive Order 12866 and is therefore not subject to OMB review.
