

**DEPARTMENT OF THE INTERIOR****Bureau of Land Management****[ES-032-02-1430-EU]****Realty Action; Recreation and Public Purpose Act Classification; Benzie County, MI****AGENCY:** Bureau of Land Management, Milwaukee Field Office.**ACTION:** Notice of Realty Action; Bureau Motion; Recreation and Public Purposes Act (R&PP) Classification; Michigan.

**SUMMARY:** The following public lands near the community of Frankfort, Benzie County, Michigan have been examined and found suitable for classification and opening under the provisions of the Recreation and Public Purposes Act of 1926, as amended (43 U.S.C. 869 *et seq.*). In accordance with section 7 of the Act of June 28, 1934, as amended, 43 U.S.C. 315f and EO 6964, the described lands are hereby classified as suitable for disposal under the authority of the Recreation and Public Purposes Act of 1926, as amended; 43 U.S.C. 869 *et seq.*

**Michigan Meridian**

T. 26 N., R. 16 W.,

Lot 10 and Lot 12, section 4

The above lands aggregate 4.05 acres

This action is a motion by the Bureau of Land Management to make the lands identified above available for disposal through the Recreation and Public Purposes Act of 1926 (43 U.S.C. 869 *et seq.*) to protect the historic lighthouse, associated structures and the surrounding lands. The subject lands were identified in the Michigan Resource Management Plan Amendment, approved June 30, 1997, as not needed for Federal purposes and having potential for disposal to protect the historic structures and surrounding lands. Lease or conveyance of the lands for recreational and public purpose use would be in the public interest. Detailed information concerning this action is available for review at the office of the Bureau of Land Management, Milwaukee Field Office, Wisconsin.

**FOR FURTHER INFORMATION CONTACT:** Paul J. Salvatore, Realty Specialist, Bureau of Land Management, Milwaukee Field Office, 310 West Wisconsin Avenue, Suite 450, Milwaukee, Wisconsin 53203, (414) 297-4413.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Executive Order dated July 24, 1875, a parcel of public located in Benzie County, Michigan was reserved for lighthouse purposes. The parcel contains the Point Betsie Lighthouse and is located on the eastern shore of

Lake Michigan near the city of Frankfort and has subsequently been resurveyed and divided into three (3) separate lots: Lot 10—1.70 acres, Lot 11—3.52 acres and Lot 12—2.35 acres.

The Department of Transportation, United States Coast Guard, submitted a Notice of Intent (NOI) to relinquish custody, accountability and control of Lot 10 on January 6, 1984. Lot 10 was determined suitable for return to public domain on November 21, 1995. A second Notice of Intent to relinquish custody, accountability and control was submitted for Lot 12 on August 12, 1998. Lot 12 was determined suitable for return to public domain on December 6, 2000. Lot 11 has not been relinquished.

Lease or conveyance of the above described public lands will be subject to the following terms, conditions and reservations:

1. Provisions of the Recreation and Public Purposes Act and to all applicable regulations of the Secretary of the Interior.
2. All valid existing rights documented on the official public land records at the time of lease/patent issuance.
3. All minerals shall be reserved to the United States, together with the right to prospect for, mine and remove the minerals.
4. Any terms and conditions identified through the site specific environmental analysis.
5. Any other reservations that the authorized office deems appropriate to ensure public access and proper management of Federal lands and interest therein.

Upon publication of this notice in the **Federal Register**, the above described lands will be segregated from all forms of appropriation under the public land laws, except for lease or conveyance under the Recreation and Public Purposes Act of 1926 (43 U.S.C. 869 *et seq.*) and leasing under the mineral leasing laws.

For a period of 45 days after issuance of this notice, interested parties may submit comments regarding the proposed classification to the Field Manager, Milwaukee Field Office, Bureau of Land Management, 310 West Wisconsin Avenue, Suite 450, Milwaukee, Wisconsin 53203. Any adverse comments will be evaluated by the State Director who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, the classification will become effective 60 days from the date of publication of this notice.

Upon the effective date of classification, the lands will be open to

the filing of applications under the Recreation and Public Purposes Act of 1926 (43 U.S.C. 869 *et seq.*) by any interested, qualified applicant. If, after 9 months following the effective date of the classification, an application has not been filed, the segregative effect of the classification shall automatically expire and the lands classified shall return to their former status without further action by the authorized officer.

Dated: October 16, 2001.

**Chris Hanson,***Acting Milwaukee Field Manager.*

**BILLING CODE 4310-PN-P****DEPARTMENT OF THE INTERIOR****Bureau of Land Management****[MT-926-02-1420-BJ]****Montana: Filing of Plat of Survey****AGENCY:** Bureau of Land Management, Montana State Office, Interior.**ACTION:** Notice.

**SUMMARY:** The plat of survey of the following described land is scheduled to be officially filed in the Montana State Office, Billings, Montana, thirty (30) days from the date of this publication.

**Principal Meridian, Montana**

T. 6 N., R. 52 E.

The plat, representing the dependent resurvey of a portion of the subdivisional lines and the adjusted original meanders of the right bank of the Powder River, downstream, through section 32, the survey of the new meanders of the present right bank of the Powder River, downstream, through section 32 and certain division of accretion lines in section 32, Township 6 North, Range 52 East, Principal Meridian, Montana, was accepted September 17, 2001.

This survey was executed at the request of the Bureau of Land Management, Miles City Field Office, and was necessary to identify accretion in section 32 of this township.

A copy of the preceding described plat will be immediately placed in the open files and will be available to the public as a matter of information.

If a protest against this survey, as shown on this plat, is received prior to the date of the official filing, the filing will be stayed pending consideration of the protest.

This particular plat will not be officially filed until the day after all protests have been accepted or dismissed and become final or appeals from the dismissal affirmed.

**FOR FURTHER INFORMATION CONTACT:**

Bureau of Land Management, 5001 Southgate Drive, P.O. Box 36800, Billings, Montana 59107-6800.

Dated: September 26, 2001.

**Steven G. Schey,**

*Chief Cadastral Surveyor, Division of Resources.*

**BILLING CODE 4310-DN-P**

**DEPARTMENT OF THE INTERIOR****Bureau of Reclamation****North of the Delta Offstream Storage, California**

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of intent to prepare an environmental impact report/ environmental impact statement (EIR/EIS).

**SUMMARY:** The Bureau of Reclamation (Reclamation) intends to participate with the California Department of Water Resources (DWR) in the North of the Delta Offstream Storage (NDOS). Pursuant to the National Environmental Policy Act (NEPA) of 1969 (as amended), and the California Environmental Quality Act (CEQA), Reclamation and DWR propose to prepare a joint (EIR/EIS) for the NDOS. NDOS will evaluate potential surface storage north of the Delta in the Sacramento Valley watershed. The CALFED Programmatic Environmental Impact Statement/Report (PEIS/PEIR) and Record of Decision (ROD) identified the NDOS. Reclamation will use the results of this environmental analysis and other studies to seek Congressional authority as necessary for implementation of the preferred alternative.

**DATES:** Reclamation and DWR will hold three scoping meetings to seek public input on alternatives, concerns, and issues to be addressed in the EIR/EIS. The dates are:

- January 8, 2002, 1 to 4 p.m., Sacramento, California
- January 9, 2002, 6 to 9 p.m., Maxwell, California
- January 15, 2002, 6 to 9 p.m., Fresno, California

Written comments on the scope of alternatives and impacts to be considered should be sent to DWR at the address below by Friday, January 25, 2002.

**ADDRESSES:** Meeting locations are:

- Sacramento at the Bonderson Building Hearing Room, 901 P Street

- Maxwell at the Maxwell Inn, 81 Oak Street
- Fresno at the Piccadilly Inn—University, 4961 N. Cedar

Written comments on the scope of the EIR/EIS should be sent to Scott D. Woodland, P.E., Department of Water Resources, Division of Planning and Local Assistance, PO Box 942836, Sacramento, CA 94236, or faxed to (916) 651-9289.

**FOR FURTHER INFORMATION CONTACT:**

Scott Woodland at (916) 651-9278, or email at [woodland@water.ca.gov](mailto:woodland@water.ca.gov); or Donna Garcia, Bureau of Reclamation, Division of Planning, 2800 Cottage Way, Sacramento, CA, telephone: (916) 978-5009.

**SUPPLEMENTARY INFORMATION:****Sacramento Valley Resources**

Roughly three-quarters of California's runoff occurs north of Sacramento, while about three-quarters of California's water is used south of Sacramento. This imbalance in the location of water supply and demand has continually placed pressure on the Sacramento Valley watersheds. In recent years, demand for water supply has grown, not only due to increased population but also due to efforts to protect California's water quality and its ecological resources. To better manage Sacramento Valley water resources, the water supply system requires new infrastructure, regulatory stability, and increased system flexibility.

**CALFED**

The CALFED Bay-Delta Program (CALFED) is a cooperative, interagency effort of 23 State and Federal agencies established to develop and implement a long-term comprehensive plan that will restore ecological health and improve water management for beneficial uses of the Bay-Delta system and its tributary watersheds. These watersheds include the Sacramento Valley and watersheds located south of the Delta that use water from the Sacramento Valley in addition to local water supplies.

The CALFED agencies completed the PEIS/PEIR process in July 2000 and filed the ROD in August 2000. The PEIS/PEIR concluded a process of broad environmental analysis that evaluated a wide range of concepts. The ROD sets forth the Preferred Program Alternative and the strategy for implementation of that alternative. The descriptions of the alternatives are programmatic in nature, defining broad approaches to meet Program purposes. The Preferred Program Alternative includes eight program elements: Levee System Integrity, Water Quality, Ecosystem

Restoration, Water Use Efficiency, Water Transfer, Watershed, Conveyance, and Storage. The ROD states: "Expanding water storage capacity is critical to the successful implementation of all aspects of the CALFED Program. Not only is additional storage needed to meet the needs of a growing population but, if strategically located, it will provide much needed flexibility in the system to improve water quality and support fish and wildlife restoration efforts. Water supply reliability depends upon capturing water during peak flows and during wet years, as well as more efficient water use through conservation and recycling." (ROD, page 42).

**Associated Programs**

In addition to the CALFED Stage 1 actions to expand surface and groundwater storage, there are several Northern Sacramento Valley programs under way that are expected to contribute to water supply reliability or habitat restoration. Development and evaluation of alternatives for augmenting storage and system flexibility in the northern Sacramento Valley will consider the potential outcomes and information from the CALFED Integrated Storage Investigations' Groundwater/Conjunctive Use program and Onstream Storage Enlargement (Enlarged Shasta) investigation and from other Sacramento Valley water management programs. Some of the larger programs include:

- Sacramento Valley Agreement (Phase 8 Bay-Delta Settlement Agreement)
- Sacramento Valley Basinwide Management Plan
- CALFED Ecosystem Restoration Program Sacramento River Conservation Area (SB 1086)
- Sacramento/San Joaquin River Comprehensive Study

**North of the Delta Offstream Storage**

The CALFED ROD specified two actions to be completed before deciding whether to proceed with offstream storage north of the Bay-Delta. The first was to create a partnership with local water interests and the second was to complete environmental review and planning documentation for a reservoir with a capacity of up to 1.9 MAF by August 2004. DWR and Reclamation have completed the first of these directives and are working on the second. In order to comply with all environmental laws, DWR and Reclamation will examine a broad range of alternatives in an open and inclusive process. The investigation will analyze alternatives in terms of how well they
