Certain Cut-to-Length Carbon Steel Plate From Canada: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On September 4, 2001, the Department of Commerce (the Department) published the preliminary results of its administrative review of the antidumping duty order on certain cut-to-length carbon steel plate (CTL plate) from Canada (66 FR 46258). This review covers one manufacturer/exporter of CTL plate, Clayson Steel Inc. (Clayson), for the period August 1, 1999 through December 31, 1999.

We gave interested parties an opportunity to comment on our preliminary results. No interested parties filed comments on the preliminary results and no request for a hearing was received by the Department. We have not changed the results from those presented in the preliminary results of review, and we will instruct the U.S. Customs Service to assess antidumping duties on suspended entries for Clayson at the rate determined in the preliminary results (see "Final Results of Review" section below).

EFFECTIVE DATE: November 19, 2001.

FOR FURTHER INFORMATION CONTACT:

Mark Hoadley at (202) 482-0666 or Julio Fernandez at (202) 482-0190, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Applicable Statute

Unless otherwise indicated, all citations to the statute are references to the Tariff Act of 1930 (the Act), as amended. In addition, unless otherwise

indicated, all citations to the Department's regulations are to the regulations codified at 19 CFR part 351 (2000).

Background

On September 4, 2001, the Department published the preliminary results of the administrative review of the antidumping duty order on CTL plate from Canada. See *Certain Cut-to-Length Carbon Steel Plate From Canada: Preliminary Results of Antidumping Duty Administrative Review*, 66 FR 46258 (September 4, 2001) (*Preliminary Results*). We invited parties to comment on our preliminary results of review. We received no comments on our preliminary results and have made no changes to our calculations. This review covers imports of subject merchandise from Clayson, a Canadian manufacturer/exporter. The period of review (POR) for Clayson is August 1, 1999 through December 31, 1999. The Department is conducting this review in accordance with section 751 of the Act.

Scope of the Antidumping Duty Order

CTL plate includes hot-rolled carbon steel universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 millimeters but not exceeding 1,250 millimeters and of a thickness of not less than 4 millimeters, not in coils and without patterns in relief), of rectangular shape, neither clad, plated nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances; and certain hot-rolled carbon steel flat-rolled products in straight lengths, of rectangular shape, hot rolled, neither clad, plated, nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances, 4.75 millimeters or more in thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under item numbers 7208.40.3030, 7208.40.3060, 7208.51.0030, 7208.51.0045, 7208.51.0060, 7208.52.0000, 7208.53.0000, 7208.90.0000, 7210.70.3000, 7210.90.9000, 7211.13.0000, 7211.14.0030, 7211.14.0045, 7211.90.0000, 7212.40.1000, 7212.40.5000, and 7212.50.0000. Included in this review are flat-rolled products of non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been

beveled or rounded at the edges. Excluded from this review is grade X-70 plate. Also excluded is cut-to-length carbon steel plate meeting the following criteria: (1) 100% dry steel plates, virgin steel, no scrap content (free of Cobalt-60 and other radioactive nuclides); (2) .290 inches maximum thickness, plus 0.0, minus .030 inches; (3) 48.00 inch wide, plus .05, minus 0.0 inches; (4) 10 foot lengths, plus 0.5, minus 0.0 inches; (5) flatness, plus/minus 0.5 inch over 10 feet; (6) AISI 1006; (7) tension leveled; (8) pickled and oiled; and (9) carbon content, 0.03 to 0.08 (maximum).

The HTSUS item numbers are provided for convenience and U.S. Customs Service (Customs) purposes. The written description remains dispositive of the scope of this review.

Period of Review

The POR is August 1, 1999 through December 31, 1999. See the "Cash Deposit Requirements" section below for an explanation of this truncated POR.

Comments From Interested Parties and Changes Since the Preliminary Results

We received no comments from interested parties in response to our preliminary results. We have made no changes in the margin calculations.

Final Results of Review

The Department has not altered its determination from the *Preliminary Results*. The weighted-average margin for Clayson is 1.37 percent for the period August 1, 1999 through December 31, 1999.

The Department shall determine, and Customs shall assess, antidumping duties on all appropriate entries. We will direct Customs to assess the resulting percentage against the entered Customs values for the subject merchandise on each entry of subject merchandise during the POR.

Cash Deposit Requirements

As a result of a sunset review by the ITC, the Department has revoked the antidumping duty order for CTL plate from Canada, effective January 1, 2000. See *Revocation of Antidumping and Countervailing Duty Orders on Certain Carbon Steel Products From Canada, Germany, Korea, the Netherlands, and Sweden*, 65 FR 78467 (December 15, 2000) (*Revocation Notice*). Therefore, we have instructed Customs to terminate suspension of liquidation for all entries of CTL plate made on or after January 1, 2000, and further calculation of antidumping cash deposit requirements for this merchandise is no longer necessary.

Notification of Interested Parties

This notice also serves as a final reminder to importers of their responsibility under section 351.402(f) of our regulations to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO as explained in the administrative order itself. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

These final results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act (19 U.S.C. 1675(a)(1) and 19 U.S.C. 1677f(i)(1)).

Dated: November 9, 2001.

Joseph A. Spetrini,

Deputy Assistant Secretary for Import Administration, Group III.

Antidumping Duty Order: Pure Magnesium in Granular Form From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of antidumping duty order.

SUMMARY: Pursuant to section 736(a) of the Act, the Department of Commerce is issuing an anti-dumping duty order on pure magnesium in granular form from the People's Republic of China.

EFFECTIVE DATE: November 19, 2001.

FOR FURTHER INFORMATION CONTACT: Jennifer Gehr or Michael Strollo, AD/CVD Enforcement Group I, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and

Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-1779 or (202) 482-0629, respectively.

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all citations to the Department of Commerce's ("the Department's") regulations refer to 19 CFR part 351 (2000).

Scope of Order

There is an existing antidumping duty order on pure magnesium from the People's Republic of China (PRC). See *Notice of Antidumping Duty Orders: Pure Magnesium From the People's Republic of China, the Russian Federation and Ukraine; Notice of Amended Final Determination of Sales at Less Than Fair Value: Antidumping Duty Investigation of Pure Magnesium From the Russian Federation*, 60 FR 25691 (May 12, 1995). The scope of this order excludes pure magnesium that is already covered by the existing order on pure magnesium in ingot form, and currently classifiable under item numbers 8104.11.00 and 8104.19.00 of the *Harmonized Tariff Schedule of the United States* (HTSUS).

The scope of this order includes imports of pure magnesium products, regardless of chemistry, including, without limitation, raspings, granules, turnings, chips, powder, and briquettes, except as noted above.

Pure magnesium includes: (1) Products that contain at least 99.95 percent primary magnesium, by weight (generally referred to as "ultra-pure" magnesium); (2) products that contain less than 99.95 percent but not less than 99.8 percent primary magnesium, by weight (generally referred to as "pure" magnesium); (3) chemical combinations of pure magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight, that do not conform to an "ASTM Specification for Magnesium Alloy"¹ (generally referred to as "off-specification pure" magnesium); and (4) physical mixtures of pure magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight. Excluded from this order are mixtures containing 90

¹ The meaning of this term is the same as that used by the American Society for Testing and Materials in its *Annual Book of ASTM Standards: Volume 01.02 Aluminum and Magnesium Alloys*.

percent or less pure magnesium by weight and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures. The non-magnesium granular materials of which the Department is aware used to make such excluded reagents are: Lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluorspar, nepheline syenite, feldspar, aluminum, alumina (Al₂O₃), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomitic lime, and colemanite. A party importing a magnesium-based reagent which includes one or more materials not on this list is required to seek a scope clarification from the Department before such a mixture may be imported free of antidumping duties.

The merchandise subject to this order is currently classifiable under item 8104.30.00 of the HTSUS. Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of this order is dispositive.

Antidumping Duty Order

In accordance with section 735(a) of the Act, the Department published its final determination that pure magnesium in granular form from the PRC is being, or is likely to be, sold in the United States at less than fair value. See *Notice of Final Determination of Sales at Less Than Fair Value: Pure Magnesium in Granular Form From the People's Republic of China*, 66 FR 49345, (Sept. 27, 2001). On November 13, 2001, the International Trade Commission notified the Department of its final determination pursuant to section 735(b)(1)(A)(i) of the Act that an industry in the United States is materially injured by reason of less-than-fair-value imports of subject merchandise from the PRC. Therefore, in accordance with section 736(a)(1) of the Act, the Department will direct the Customs Service to assess, upon further advice by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price or constructed export price of the merchandise for all relevant entries of pure magnesium in granular form from the PRC. These antidumping duties will be assessed on all unliquidated entries of imports of the subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after April 30, 2001, the date on which the Department
