

- Complete the deliberations of the report of the International Space Station Management and Cost Evaluation (IMCE) Task Force
- An evaluation of NASA's Strategic Resource Review
- An evaluation of NASA's performance against the FY 2001 Revised Final Performance Plan

Due to increased security measures at NASA Headquarters, please contact Ms. Kathy Dakon at 202/358-0732 if you plan to attend the meeting. Visitors will be requested to sign a visitor's register and will require escort within the NASA Headquarters building. It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants.

Sylvia K. Kraemer,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

BILLING CODE 7510-01-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Advisory Committee on the Records of Congress; Meeting

AGENCY: National Archives and Records Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, the National Archives and Records Administration (NARA) announces a meeting of the Advisory Committee on the Records of Congress. The committee advises NARA on the full range of programs, policies, and plans for the Center for Legislative Archives in the Office of Records Services.

DATES: December 10, 2001, from 10:30 a.m. to 11:30 a.m.

ADDRESSES: Members Room, Library of Congress, Thomas Jefferson Building, Room LJ-162.

FOR FURTHER INFORMATION CONTACT: Michael L. Gillette, Director, Center for Legislative Archives, (202) 501-5350.

SUPPLEMENTARY INFORMATION:

Agenda

SAA Forum on the Third Advisory Committee Report—Summary
Center for Legislative Archives—Update
Other current issues and new business
The meeting is open to the public.

Dated: November 19, 2001.

Mary Ann Hadyka,

Committee Management Officer.

[FR Doc. 01-29398 Filed 11-26-01; 8:45 am]

BILLING CODE 7515-01-U

THE NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Meetings of Humanities Panel

AGENCY: The National Endowment for the Humanities.

ACTION: Additional notice of meetings.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that the following meetings of the Humanities Panel will be held at the Old Post Office, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

FOR FURTHER INFORMATION CONTACT: Laura S. Nelson, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, DC 20506; telephone (202) 606-8322. Hearing-impaired individuals are advised that information on this matter may be obtained by contacting the Endowment's TDD terminal on (202) 606-8282.

SUPPLEMENTARY INFORMATION: The proposed meetings are for the purpose of panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by the grant applicants. Because the proposed meetings will consider information that is likely to disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential and/or information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee meetings, dated July 19, 1993, I have determined that these meetings will be closed to the public pursuant to subsections (c) (4), and (6) of section 552b of Title 5, United States Code.

1. *Date:* December 10, 2001.

Time: 8:30 a.m. to 5 p.m.

Room: 426.

Program: This meeting will review applications for Humanities Projects in Museums and Historical Organizations, submitted to the Division of Public Programs at the November 1, 2001 deadline.

2. *Date:* December 14, 2001.

Time: 8:30 a.m. to 5 p.m.

Room: 426.

Program: This meeting will review applications for Humanities Projects in Museums and Historical Organizations, submitted to the Division of Public

Programs at the November 1, 2001 deadline.

3. *Date:* December 14, 2001.

Time: 8:30 a.m. to 5 p.m.

Room: 730.

Program: This meeting will review applications for Humanities Projects in Museums and Historical Organizations, submitted to the Division of Public Programs at the November 1, 2001 deadline.

4. *Date:* December 18, 2001.

Time: 8:30 a.m. to 5 p.m.

Room: 415.

Program: This meeting will review applications for Humanities Projects in Museums and Historical Organizations, submitted to the Division of Public Programs at the November 1, 2001 deadline.

Laura S. Nelson,

Advisory Committee Management Officer.

BILLING CODE 7536-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-250 and 50-251]

Florida Power and Light Company; Turkey Point Plant, Units 3 and 4; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from the requirements of Title 10, Code of Federal Regulations (10 CFR), section 50.44, and 10 CFR part 50, appendix A, General Design Criteria 41, 42, and 43, for Facility Operating License Nos. DPR-31, and DPR-41, issued to Florida Power and Light Company (the licensee), for operation of the Turkey Point Plant, Units 3 and 4, located in Miami-Dade County, Florida. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed exemption would exempt the Turkey Point Plant, Units 3 and 4, from the requirements of 10 CFR 50.44; 10 CFR part 50, appendix A, General Design Criteria 41, 42, and 43; and 10 CFR part 50, appendix E, section IV; related to combustible gas control systems. The purpose of the exemption request is to remove the requirements for the hydrogen control systems from the Turkey Point Plant design basis. The staff has reviewed the information

provided and concluded that the requested exemption for the hydrogen recombiners and the post-accident containment vent system is justified because special circumstances necessary to meet the criteria of 10 CFR 50.12(a)(2)(ii) do exist to justify the exemption from certain parts of 10 CFR 50.44 and General Design Criteria 41, 42, and 43. The staff will act on the exemption request for the containment hydrogen monitors and their associated Technical Specification revision by separate correspondence. The proposed exemption is in accordance with the licensee's application dated October 23, 2000.

The Need for the Proposed Action

The requested exemption to remove the requirements pertaining to recombiners and the post-accident containment vent system would improve the safety focus at Turkey Point during an accident and would represent a more effective and efficient method of maintaining adequate protection of public health and safety by simplifying the Emergency Response Plan Procedures. In a postulated loss-of-coolant accident, the Turkey Point emergency operating procedures (EOPs) direct the control room operators to monitor and control the hydrogen concentration inside the containment after they have carried-out the steps to maintain and control the higher priority critical safety functions. These hydrogen control activities could distract operators from more important tasks in the early phases of accident mitigation and could have a negative impact on the higher priority critical operator actions. An exemption from the hydrogen recombiner and the post-accident containment vent system requirements will eliminate the need for these systems in the EOPs and, hence, simplify the EOPs. The staff still expects the licensee's severe accident management guidelines to address combustible gas control. Therefore, this simplification would provide a safety benefit, and this action reduces unnecessary regulatory burden on the licensee, which is one of the NRC's outcome goals of effective regulation.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes, as set forth below, that there are no significant environmental impacts associated with the removal of the recombiners and the post-accident containment vent system from the Turkey Point Plant design basis.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types or amounts of any effluents that may be released offsite, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts on the Alternatives to the Proposed Action

There are two alternatives to the proposed action. The first one is the denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the denial of the action are similar. The second alternative is to grant the exemption as requested by the licensee in its submittal of October 23, 2000. The NRC does not endorse the second alternative at this time. Nevertheless, the environmental impacts of the second alternative and the environmental impacts of the proposed action are similar.

Alternative Use of Resources

This action does not involve the use of any different resources than those previously considered in the Final Environmental Statement for the Turkey Point Plant, Units 3 and 4, dated July 1972.

Agencies and Persons Consulted

On September 18, 2001, the staff consulted with the Florida State official, Mr. William A. Passetti of the Bureau of Radiation Control, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an

environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated October 23, 2000. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Public Electronic Reading Room). If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC PDR Reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr@nrc.gov.

Dated at Rockville, Maryland, this 20th day of November, 2001.

For the Nuclear Regulatory Commission.

Kahtan N. Jabbour,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-131]

Department of Veterans Affairs; Nebraska—Western Iowa Health Care System; Alan J. Blotcky Reactor Facility; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment for Facility Operating License No. R-57, issued to the Department of Veterans Affairs, Nebraska—Western Iowa Health Care System (the licensee or VA) for operation of the Alan J. Blotcky Reactor Facility (AJBRF) located in Omaha, Douglas County, Nebraska.

Environmental Assessment

Identification of the Proposed Action

The proposed action would renew the license for the AJBRF for 20 years from the date of issuance of the license amendment. The proposed action is in accordance with the licensee's application for amendment dated May 10, 1993, as supplemented on March 1, 1995, December 17, 1997, March 12, April 5, July 29, November 24 and December 2, 1999, January 4, September 25, October 2 and October 24, 2000, and August 8 and October 16, 2001. In
