Fisheries Off West Coast States and in the Western Pacific; Western Pacific Pelagic Fisheries; Hawaii-based Pelagic Longline Restrictions and Seasonal Area Closure, and Sea Turtle and Sea Bird Mitigation Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Emergency interim rule and extension of expiration date.

SUMMARY: This action extends an emergency interim rule, now in effect, applicable to vessels registered for use under a Hawaii longline limited access permit (Hawaii longline vessels) and allows the use of basket-style longline gear as an alternative method for deep-set tuna longline fishing. This emergency interim rule: Prohibits the targeting of swordfish north of the equator by Hawaii longline vessels; prohibits longline fishing by Hawaii longline vessels in waters south of the Hawaiian Islands (from 15° N. lat. to the equator, and from 145° W. long. to 180° long.) during the months of April and May; allows re-registration of vessels to Hawaii longline limited access permits only in October; imposes additional sea turtle handling and resuscitation measures; and requires all Hawaii longline vessel operators to attend an annual protected species workshop. This emergency interim rule implements an order issued by the U.S. District Court for the District of Hawaii (Court) in March 2001 to reduce the number of sea turtles injured and killed incidental to longline fishing operations. Other parts of this emergency interim rule implement the terms and conditions contained in an amended November 2000 biological opinion issued by the U.S. Fish and

Wildlife Service (FWS) on the effects of the Hawaii longline fleet on the endangered short-tailed albatross. In October 2001, FWS amended its biological opinion on the short-tailed albatross allowing Hawaii longline vessels to use basket-style longline gear as an alternative method for deep-set tuna longline fishing, which is implemented by this emergency interim rule.

DATES: 1. The expiration date of the emergency interim rule published on June 12, 2001 (66 FR 31564), is extended to June 8, 2002.

2. The amendments to §§ 660.12, 660.35 (a)(7), and (a)(10) in this emergency interim rule are effective from December 11, 2001, through June 8, 2002.

ADDRESSES: Copies of the environmental assessment and regulatory impact review prepared for this emergency interim rule may be obtained from Dr. Charles Karnella, Administrator, Pacific Islands Area Office (PIAO), National Marine Fisheries Service, 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI, 96814–4700.

FOR FURTHER INFORMATION CONTACT: Alvin Katekaru, PIAO, at 808–973–2937.

SUPPLEMENTARY INFORMATION: On June 12, 2001, NMFS issued an emergency interim rule (66 FR 31561) implementing temporary measures for the Hawaii-based pelagic longline fishery (Hawaii longline fishery) to avoid the likelihood of jeopardy to sea turtles and to reduce adverse effects to the short-tailed albatross. These measures are consistent with NMFS' March 29, 2001, Biological Opinion on the Fishery Management Plan for Pelagic Fisheries of the Western Pacific Region and FWS' November 28, 2000, Biological Opinion on the Effects of the Hawaii-based Domestic Longline Fleet on the Short-tailed Albatross (*Phoebastria albatrus*) (short-tailed albatross BiOp). NMFS received no written comments on the June 12, 2001, emergency interim rule.

The action taken to protect and conserve sea turtles complies with a March 30, 2001, Order Modifying Injunction (Order) issued by the Court in *Center for Marine Conservation v. NMFS*, CV No. 99-00152. This emergency interim rule codifies that Order in 50 CFR part 660 under the authority of section 305 (c) of the Magnuson-Stevenson Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1855 (c). Background information on the Order was published in several previous
