

proposing that OMB extend its approval of the information-collection requirements specified by the Standard so that the Agency can enforce these requirements if employers begin using PSDI. This notice provides an opportunity for the public to comment on this proposal. The Agency will include a summary of these comments as part of its request to OMB to approve these paperwork requirements.

*Type of Review:* Extension of a currently-approved information-collection requirement.

*Title:* Standard on Presence Sensing Device Initiation (PSDI) (29 CFR 1910.217(h)).

*OMB Number:* 1218-0143.

*Affected Public:* Business or other for-profit; not-for-profit institutions; Federal government; State, local, or tribal governments.

*Number of Respondents:* 0.

*Frequency of Recordkeeping:* On occasion; annually; other (initially).

*Average Time per Response:* 0.

*Estimated Total Burden Hours:* 0.

*Estimated Cost (Operation and Maintenance):* \$0.

#### IV. Authority and Signature

John L. Henshaw, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506), and Secretary of Labor's Order No. 3-2000 (65 FR 50017).

Signed at Washington, DC on December 5, 2001.

**John L. Henshaw,**

*Assistant Secretary of Labor.*

#### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (01-156)]

##### Notice of Prospective Patent License

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Notice of prospective patent license.

**SUMMARY:** NASA hereby gives notice that The Texas A&M University System, having offices in College Station, Texas, has applied for a partially exclusive license to practice the inventions described and claimed in U.S. Patent No. 5,827,531, entitled "Multi-Lamellar, Immiscible-Phase Microencapsulation of Drugs"; U.S. Patent No. 6,099,864, entitled "INSITU Activation of

Microcapsules"; U.S. Patent No. 6,214,300, entitled "Microencapsulation and Electrostatic Processing Device (MEPS)"; U.S. Patent No. 6,103,271, entitled "Microencapsulation & Electrostatic Coating Process"; pending U.S. Patent Application entitled "Protein Crystal Encapsulation Process"; NASA Case No. MSC22936-1-SB; pending U.S. Patent Application entitled "Externally Triggered Microcapsules"; NASA Case No. MSC 22939-1-SB and pending continuations, divisional applications, and foreign applications corresponding to the above-listed cases. Each of the above-listed patents and patent applications are assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. With respect to U.S. Patent No. 5,827,531 only. NASA's property interests are presently limited by the terms of previously issued License No. DE-252. NASA is in the process of terminating the DE-252 License, pursuant to the terms of that license and applicable provisions of Title 37 of the Code of Federal Regulations, part 404. Written objections to the prospective grant of a license should be sent to the Johnson Space Center.

**DATES:** Responses to this notice must be received by January 10, 2002.

##### FOR FURTHER INFORMATION CONTACT:

James Cate, Patent Attorney, NASA Johnson Space Center, Mail Stop HA, Houston, TX 77058-8452; telephone (281) 483-1001.

Dated: December 4, 2001.

#### NATIONAL CREDIT UNION ADMINISTRATION

##### Notice of Meetings; Sunshine Act

**TIME AND DATE:** 10:00 a.m., Thursday, December 13, 2001.

**PLACE:** Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

**STATUS:** Open.

##### MATTERS TO BE CONSIDERED:

1. Requests from Three (3) Federal Credit Unions to Convert to Community Charters.

2. Community Development Revolving Loan Program for Credit Unions: Notice of Applications for Participation and Interest Rate for Loans.

3. Final Rule: Parts 700, 701, 712, 715, 723, 725, and 790, NCUA's Rules and Regulations, Definitions and Technical Amendments.

4. Proposed Rule: Section 710.19, NCUA's Rules and Regulations, Retirement Benefits for Employees of Federal Credit Unions.

5. Final Rule: Amendment to Section 701.33 NCUA's Rules and Regulations, Definition of Compensation.

6. Proposed Request for Comments on Risk Mitigation of Non-Maturity Shares.

7. National Credit Union Share Insurance Fund (NCUSIF) Operating Level for 2002.

8. NCUA's Annual Performance Plan for 2002.

9. Purchase of Video Conferencing System.

10. Replacement of NCUA's Telephone and Voice Mail System.

11. Amendment to Interpretive Ruling and Policy Statement (IRPS) 99-1.

Recess: 11:15 a.m.

**TIME AND DATE:** 11:30 a.m., Thursday, December 13, 2001.

**PLACE:** Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

**STATUS:** Closed.

##### MATTERS TO BE CONSIDERED:

1. Administrative Actions under Part 704 of NCUA's Rules and Regulations. Closed pursuant to exemption (8).

2. Administrative Action under Section 206 of the Federal Credit Union Act. Closed pursuant to exemption (8).

3. Two (2) Personnel Matters. Closed pursuant to exemptions (2) and (6).

**FOR FURTHER INFORMATION CONTACT:** Becky Baker, Secretary of the Board, Telephone 703-518-6304.

#### NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-317 and 50-318]

##### Calvert Cliffs Nuclear Power Plant, Inc., Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption to Facility Operating License Nos. DPR-53 and DPR-69, issued to Calvert Cliffs Nuclear Power Plant, Inc. (CCNPPI, the licensee), for operation of the Calvert Cliffs Nuclear Power Plant, Unit Nos. 1

and 2, located in Calvert County, Maryland.

## Environmental Assessment

### Identification of the Proposed Action

The proposed action is a one-time exemption from the requirements of Title 10 of the Code of Federal Regulations (10 CFR) part 50, Appendix E, Items IV.F.2.b and c regarding conduct of a full-participation exercise of the onsite and offsite emergency plans every 2 years. Under the proposed exemption, the licensee would reschedule the exercise originally scheduled for September 25, 2001, and complete the exercise requirements by September 31, 2002.

The proposed action is in accordance with the licensee's application for an exemption dated September 28, 2001.

### The Need for the Proposed Action

10 CFR part 50, Appendix E, Items IV.F.2.b and c requires each licensee at each site to conduct an exercise of its onsite and offsite emergency plan every 2 years. Federal agencies (the U.S. Nuclear Regulatory Commission (NRC) for the onsite exercise portion and the Federal Emergency Management Agency for the offsite exercise portion) observe these exercises and evaluate the performance of the licensee, State and local authorities having a role under the emergency plan.

The licensee had initially planned to conduct an exercise of its onsite and offsite emergency plan on September 25, 2001, within the required 2-year interval. However, because of consideration for increased security risk due to ingress and egress of personnel during the current period of heightened security, and consideration that activities associated with the exercise could create undue public alarm, the licensee has decided to postpone the exercise.

### Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes that the proposed action involves an administrative activity (a schedular change in conducting an exercise) unrelated to plant operations.

The proposed action will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not involve any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

### Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

### Alternative Use of Resources

The action does not involve the use of any different resources than those previously considered in the Final Environmental Statement for the Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2.

### Agencies and Persons Consulted

On October 9, 2001, the staff consulted with the Maryland State official, Mr. Richard McLean of the Maryland State Department of Natural Resources, regarding the environmental impact of the proposed action. The State official had no comments.

### Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated September 28, 2001, which is available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

Dated at Rockville, Maryland, this 4th day of December 2001.

For the Nuclear Regulatory Commission.

**Donna Skay,**

*Project Manager, Section 1, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8681]

### International Uranium (USA) Corporation; Notice of Opportunity for Hearing

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Final finding of no significant impact; notice of opportunity for hearing.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) proposes to accept the license amendment for the NRC Materials License SUA-1358 to authorize the licensee, International Uranium (USA) Corporation (IUSA), to allow for the and reclamation of the White Mesa uranium mill, located near Blanding, Utah. An Environmental Assessment was performed by the NRC staff in accordance with the requirements of 10 CFR part 51. The conclusion of the Environmental Assessment is a Finding of No Significant Impact (FONSI) for the proposed licensing action.

**FOR FURTHER INFORMATION CONTACT:** Mr. William von Till, Fuel Cycle Licensing Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Mail Stop T-8A33, Washington, DC 20555-0001. Telephone (301) 415-6251, e-mail [rwv@nrc.gov](mailto:rwv@nrc.gov).

### SUPPLEMENTARY INFORMATION:

#### Background

Materials License SUA-1358 was originally issued by NRC on August 7, 1979, Pursuant to Title 10, Code of Federal Regulations (10 CFR), part 40, "Domestic Licensing of Source Material." The IUC site is licensed by the U.S. Nuclear Regulatory Commission (NRC) under Materials License SUA-1358 to possess byproduct material in the form of uranium waste tailings and other uranium byproduct waste generated by the licensee's milling operations, as well as other source material from multiple locations. Some of these locations include material from Formerly Utilized Sites Remedial Action Program (FUSRAP) sites
