Federal Energy Regulatory
Commission

[Docket No. RM95-4-000]

**Electronic Filing and Public Access to
Information; Notice of Availability of
Submission Software for FERC Form
Nos. 2 and 2-A: Annual Report of
Major Natural Gas Companies and
Annual Report of Non-Major Natural
Gas Companies**

December 20, 2001.

The Federal Energy Regulatory Commission (Commission) hereby gives notice that it is providing software to the major and non-major natural gas pipelines to prepare both the paper and electronic submissions of the FERC Form No. 2 and Form No. 2-A (Form 2 and 2-A). The software is free of charge and all jurisdictional Form 2 and 2-A respondents are *required* to use it starting with the 2001 submissions due on or before March 31, 2002, for the Form No. 2-A and April 30, 2002, for the Form No. 2. The Commission has not modified the forms and the data required on the current schedules have not changed.

The Form 2 and 2-A submission software is Windows 95/98/2000/NT/XP compatible and will provide benefits to the respondent, the Commission and users of the data. The software will facilitate data entry and database loading, improve data integrity, enhance consistency between the paper and electronic filings, and eliminate the requirement to physically submit the electronic file to the Commission on a diskette or CD. Last year a beta version of the software was used successfully by 47 of 110 Form 2 and 2-A respondents to prepare their year 2000 paper submission and to upload the electronic submission to the Commission via the Internet.

Software distribution, set-up, updates, and submission of the electronic filing will all be accomplished via the Internet. In order to disseminate information on the submission software and to keep interested parties aware of any new developments, we are creating a point-of-contact list for companies that file Form 2 and 2-A. Persons who submit FERC Form 2 and 2-A, either for their company, or as an agent for another company, must first register to receive a Personal Identification Number (PIN). The PIN is required for electronic filing.

To register for a PIN, send an E-mail to Bolton Pierce (bpierce@ferc.fed.us) containing the exact legal name of the respondent company, the respondent's

address, a contact person's name, phone number and E-mail address. A PIN will be assigned and sent by return E-mail. Instructions for downloading and installing the Form 2 and 2A Submission Software are available at <http://rimsweb2.ferc.fed.us/form2/>. Federal and state agencies and others who wish to access and use the Form 2/2A data may download it without restriction from this same web address.

Respondents who submitted their year 2000 filing with the new software need only send in any changes to their point-of-contact information. If you have questions about the new software, please E-mail them to Bolton Pierce at bpierce@ferc.fed.us. Respondents with questions concerning the Form Nos. 2 and 2-A may contact James M. Krug at (202) 208-0419 or Craig A. Hill at (202) 208-0621.

The issuance of this software does not change the paper submission requirements for the forms this year. In addition to using the software to upload the electronic submission to the Commission via the Internet, Form 2-A respondents must also submit an original and two conformed paper copies of a completed form by March 31. Form 2 respondents must submit an original and four paper copies of the completed form by April 30. The original paper version is to be produced by the software.

The Commission has also developed, and made available via the Internet, Form 2 and 2-A "viewer" software to allow the public and other interested parties to download, view and print the Form 2 and 2-A data submitted electronically by the respondents for the years 1996 and later. This software was made available on December 19, 2001.

Linwood A. Watson, Jr.,

Acting Secretary.

Affected entities: Entities potentially affected by this action are those which are authorized to manage the federal Hazardous waste program.

Title: Final Authorization for Hazardous Waste Management Programs, (OMB Control No. 2050-0041, ICR No. 969.) expiring May 31, 2002.

Abstract: In order for a State to obtain final authorization for a State hazardous waste program or to revise its previously authorized program, it must submit an official application to the EPA Regional office for approval. The purpose of the application is to enable EPA to properly determine whether the State's program meets the requirements of section 3006 of RCRA.

A State with an approved program may voluntarily transfer program responsibilities to EPA by notifying EPA of the proposed transfer, as required by section 271.23. Further, EPA may withdraw a State's authorized program under section 271.23.

State program revision may be necessary when the controlling Federal or State statutory or regulatory authority is modified or supplemented. In the event that the State is revising its program by adopting new Federal requirements, the State shall prepare and submit modified revisions of the program description, Attorney General's statement, Memorandum of Agreement, or such other documents as EPA determines to be necessary. The State shall inform EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with section 271.21. If a State is proposing to transfer all or any part of any program

from the approved State agency to any other agency, it must notify EPA in accordance with section 271.21 and submit revised organizational charts as required under section 271.6, in accordance with section 271.21. These paperwork requirements are mandatory under § 3006(a). EPA will use the information submitted by the State in order to determine whether the State's program meets the statutory and regulatory requirements for authorization. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automatic electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 632 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information; and transmit or otherwise disclose the information.
