**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission**

[Docket Nos. CP00-233-000 and CP00-233-001]

**Southern Natural Gas Company;  
Notice of Availability of the  
Environmental Assessment for the  
Proposed South System Expansion  
Project**

January 17, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Southern Natural Gas Company (Southern) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of about 67 miles of pipeline loop and about 54,000 horsepower (hp) of mainline compression at various points along Southern existing system in Mississippi, Alabama, Georgia and South Carolina. Southern's South System Expansion Project would provide a total of 335,800 thousand cubic feet per day (Mcf) to serve the following customers: Southern Company Services Inc. (284,050 Mcf); South Carolina Pipeline Corporation (50,000 Mcf); and the city of LaGrange, Georgia (1,750 Mcf). Southern proposes to construct the project into two phases, with in-service dates proposed for June 1, 2002 (Phase I), and June 1, 2003 (Phase II).

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at:

Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street, N.E., Room 2A, Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426;
- Label one copy of the comments for the attention of the Gas Group 1, PJ11.1;
- Reference Docket No. CP00-233-000 and CP00-233-001; and
- Mail your comments so that they will be received in Washington, DC on or before February 19, 2001.

Comments may also be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm> under the link to the User's Guide. Before you can file comments you will need to create an account which can be created by clicking on "Login to File" and then "New User Account."

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214). Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your comments considered.

Additional information about the proposed project is available from the Commission's Office of External Affairs,
