SECURITIES AND EXCHANGE COMMISSION

Issuer Delisting; Notice of Application To Withdraw From Listing and Registration; (Massey Energy Company, Common Stock, \$.625 Par Value) File No. 1-0777-5

January 19, 2001.

Massey Energy Company (formerly known as Fluor Corporation) ("Company") has filed applications with the Securities and Exchange Commission ("Commission"), pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 12d2-2(d) thereunder,² to withdraw its Common Stock, \$.625 par value ("Security"), from listing and registration on the Pacific Exchange, Inc. ("PCX") and on the Chicago Stock Exchange, Inc. ("CHX").³

As described in its application to the Commission, on November 30, 2000, the Company completed a reverse spin-off, which divided the Company into two publicly traded corporations. As a result of this action, the spun-off corporation,

"new" Fluor Corporation, owns all of the businesses of the predecessor corporation except that of A.T. Massey Coal Company, Inc., which, continuing as the successor to "old" Fluor Corporation, has been renamed Massey Energy Company.

In connection with this spin-off, the Company has determined to consolidate the listings for its Security to one national securities exchange. In addition to being listed on the PCX and CHX, the Security is currently listed on the New York Stock Exchange, Inc. ("NYSE"). The Company desires to continue only the NYSE listing.

The Company has stated in its application that it has complied with the respective rules of the PCX and CHX governing the withdrawal of a security by its issuer and that both the PCX and the CHX have in turn indicated that they will not oppose such proposed withdrawals. The Company's application shall not have any effect on the Security's continued listing on the NYSE or on its registration under Section 12(b) of the Act.⁴

Any interested person may, on or before February 9, 2001, submit by letter to the Secretary of the Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549-0609, facts bearing upon whether the application has been made in accordance with the respective rules of the PCX and CHX and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁵

Jonathan G. Katz,

Secretary.

Pinnacle West Capital Corporation (70-9745)

Pinnacle West Capital Corporation ("Pinnacle West"), located at 400 East Van Buren Street, Suite 700, Phoenix, Arizona 85004, an Arizona holding company exempt from registration under section 3(a)(1) of the Act by rule 2, has filed an application with the Commission under sections 9(a)(2) and 10 of the Act in connection with a proposed corporate reorganization ("Reorganization"). The Reorganization involves the relocation of certain generation assets from Arizona Public Service Company ("APS"), Pinnacle West's public-utility company subsidiary, to Pinnacle West Energy Corporation ("PWE"),¹ a wholly owned nonutility subsidiary of Pinnacle West. As a result of the Reorganization, PWE will be a public-utility company within the meaning of the Act, and Pinnacle West will acquire an additional public-utility subsidiary.

Pinnacle West is engaged through subsidiaries in the generation, transmission, and distribution of

¹ PWE was organized primarily to engage in the business of developing, owning and operating generation plants used for the production and sale of wholesale energy. PWE is currently engaged in the development of approximately 2,600 megawatts of generating capacity in Arizona.

² 17 CFR 240.12d2-2(d).

³ Notice of this application was previously issued by the Commission as Securities Exchange Act Release No. 43820 on January 8, 2001. Such notice, however, failed to appear in the **Federal Register**, as required, and so is being reissued.

electricity, the sale of energy services, real estate development, and venture capital investment. APS provides retail electric services principally in Arizona. In addition to the generation, transmission, and distribution of electricity, APS is presently engaged in power marketing activities. The Arizona Corporation Commission ("ACC") regulates APS with respect to its retail rates, accounting, service standards, service territory, issuances of securities, siting of generation and transmission projects, and various other matters. The Federal Energy Regulatory Commission regulates APS' wholesale generation and interstate transmission rates, accounting, and certain other matters.

The purpose of the Reorganization is to comply with certain requirements set forth in rules adopted by the ACC that provide the framework for introduction of retail electric competition in Arizona ("Competition Rules") and in a final ACC order approving APS' settlement with various parties with respect to implementation of the Competition Rules ("Settlement").² Under the Competition Rules and the Settlement, APS must separate its generating assets and competitive services from its transmission and distribution functions no later than December 31, 2002.

The principal transactions associated with the Reorganization are the following. First, APS will contribute certain of its fossil and solar generating facilities, assets and related operational agreements to one or more newly-formed wholly-owned subsidiaries ("Transitory Subsidiaries"). Second, APS will distribute (or cause to be distributed) all of the common stock of each Transitory Subsidiary to Pinnacle West. Third, the Transitory Subsidiaries will then be merged into PWE, with PWE as the surviving entity. It is contemplated that these transactions will occur simultaneously.

When the Reorganization is completed, APS' existing divisional structure, in which electric utility operations are divided along functional lines, will be formalized, and separate corporate entities will engage in the transmission/distribution of electricity and the generation of electricity. APS will become a "wires" company and will continue to own and operate its existing electric transmission and distribution system. PWE become a generating company and will own or lease and operate APS' generation assets and sell the output from these assets at

wholesale to Power marketing and Trading ("Power Marketing"), a division of Pinnacle West. Power Marketing was previously a division of APS engaged primarily in the sale and purchase of electric capacity and energy in the wholesale market. Power Marketing sold excess power from APS' generation facilities and also purchased energy from other entities to meet APS' requirements to supply retail and wholesale customers. The Competition Rules and Settlement contemplate that APS will move its Power Marketing division to an affiliate. Accordingly, on October 1, 2000, Power Marketing became a division of Pinnacle West. It is expected that Power Marketing will sell power to APS as well as to non-affiliated power purchasers. APS will continue to provide transmission and distribution services at regulated rates, as well as provide energy to those retail customers in APS' existing service territory that do not elect to use an alternate retail power supplier.

Pinnacle West states that, after the Reorganization, it will continue to qualify for exemption from registration under section 3(a)(1) of the Act because Pinnacle West and each public-utility company from which it derives, directly or indirectly, any material part of its income, will be predominantly intrastate in character and will carry on their business substantially in Arizona, the state in which Pinnacle West and each such public-utility company is organized.³

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Deputy Secretary.
