BACKGROUND:

The AGOA provides for quota- and duty-free treatment for qualifying textile and apparel products. Such treatment is generally limited to products manufactured from yarns or fabrics formed in the United States or a beneficiary country. The AGOA also provides for quota- and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more beneficiary sub-Saharan African countries from fabric or yarn that is not formed in the United States or a beneficiary sub-Saharan African country, if it has been determined that such fabric or yarns cannot be supplied by the domestic industry in commercial quantities in a timely manner. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the AGOA and directed CITA to establish procedures to ensure appropriate public participation in any such determination. On March 6, 2001, CITA published procedures in the Federal Register that it will follow in considering requests. (66 FR 13502).

On February 28, 2002, the Chairman of CITA received a petition from Esquel Enterprises Limited of Hong Kong and Textile Industries Limited in Mauritius alleging that certain fabrics, listed above, for use in certain apparel articles, listed above, cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting quota- and duty-free treatment under the AGOA for such apparel articles that are cut and sewn in one or more beneficiary sub-Saharan African countries from such fabrics.

CITA is soliciting public comments regarding this request, particularly with respect to whether such fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. Also relevant is whether other

products that are supplied by the domestic industry in commercial quantities in a timely manner are substitutable for the fabrics for the purposes of the intended use. Comments must be received no later than **March 25, 2002**. Interested persons are invited to submit six copies of such comments or information to the Chairman, Committee for the Implementation of Textile Agreements, Room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, DC 20230.

If a comment alleges that such fabrics can be supplied by the domestic industry in commercial quantities in a timely manner, CITA will closely review any supporting documentation, such as a signed statement by a manufacturer of the yarn or fabric stating that it produces the fabrics that are the subject of the request, including the quantities that can be supplied and the time necessary to fill an order, as well as any relevant information regarding past production.

CITA will protect any business confidential information that is marked business confidential from disclosure for the full extent permitted by law. CITA will make available to the public non-confidential versions of the request and non-confidential versions of any public comments received with respect to a request in room 3100 in the Herbert Hoover Building, 14th and Constitution Avenue, N.W., Washington, DC 20230. Persons submitting comments on a request are encouraged to include a non-confidential version and a non-confidential summary.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Denial of Short Supply Request under the United States - Caribbean Basin Trade Partnership Act (CBTPA)

March 5, 2002.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Denial of the petition alleging that certain fabrics used in women's and girls' blouses cannot be supplied by the domestic industry in commercial quantities in a timely manner.

SUMMARY: On January 4, 2002 the Chairman of CITA received a petition

from School Apparel, Inc. alleging that certain fabrics, classified in subheadings 5210.21 and 5210.31 of the Harmonized Tariff Schedule of the United States (HTSUS) cannot be supplied by the domestic industry in commercial quantities in a timely manner. It requested that women's and girls' blouses of such fabric be eligible for preferential treatment under the CBTPA. Based on currently available information, CITA has determined that these subject fabrics can be supplied by the domestic industry in commercial quantities in a timely manner and therefore denies the petition.

FOR FURTHER INFORMATION CONTACT: Janet Heinzen, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

SUPPLEMENTARY INFORMATION:

Authority: Section 213(b)(2)(A)(v)(II) of the Caribbean Basin Economic Recovery Act, as added by Section 211(a) of the CBTPA; Section 6 of Executive Order No. 13191 of January 17, 2001.

BACKGROUND:

The CBTPA provides for quota- and duty-free treatment for qualifying textile and apparel products. Such treatment is generally limited to products manufactured from yarns or fabrics formed in the United States or a beneficiary country. The CBTPA also provides for quota- and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more CBTPA beneficiary countries from fabric or yarn that is not formed in the United States or a CBTPA beneficiary country, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the CBTPA. On March 6, 2001, CITA published procedures that it will follow in considering requests. (66 FR 13502).

On January 4, 2002 the Chairman of CITA received a petition from School Apparel, Inc. alleging that certain fabrics, classified in subheadings 5210.21 and 5210.31 of the HTSUS, not of square construction, containing more than 70 warp ends and filling picks per square centimeter, of average yarn number exceeding 70 metric, cannot be supplied by the domestic industry in commercial quantities in a timely manner. It requested that women's and

girls' blouses of such fabrics be eligible for preferential treatment under the CBTPA.

On January 10, 2002, CITA solicited public comments regarding this request (67 FR 1330) particularly with respect to whether these fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. On January 29, 2002, CITA and the Office of the U.S. Trade Representative offered to hold consultations with the relevant Congressional committees. We also requested that advice of the U.S. International Trade Commission and the relevant Industry Sector Advisory Committees.

CITA has determined that certain fabrics, classified in sub-headings 5210.21 and 5210.31 of the HTSUS, not of square construction, containing more than 70 warp ends and filling picks per square centimeter, of average yarn number exceeding 70 metric, used in the production of women's and girls' blouses, can be supplied by the domestic industry in commercial quantities in a timely manner. On the basis of currently available information, including its review of the petition, public comments and advice received, and its understanding of the industry, CITA has found that there is domestic capacity to produce these fabrics. School Apparel's request is denied.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.
