Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission has accepted, subject to final approval, an agreement containing a consent order from Campbell Mithun LLC (Campbell), an advertising agency.

The proposed consent order has been placed on the public record for thirty (30) days for receipt of comments by interested persons. Comments received during this period will become part of the public record. After thirty (30) days, the Commission will again review the agreement and the comments received, and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

This matter involves allegedly unsubstantiated representations made on television advertising about the effects of the calcium in Wonder Bread on children's memory and brain function. Campbell was the advertising agency that created these commercials. According to the FTC complaint, Campbell made unsubstantiated claims that as a good source of calcium,

Wonder Bread helps children's minds work better and helps children remember things. The complaint further alleges that the ad agency knew or should have known that the claims were unsubstantiated.

The proposed consent order contains provisions designed to prevent Campbell from engaging in similar acts and practices in the future. Part I of the proposed order prohibits Campbell from making any unsubstantiated claim (a claim lacking competent and reliable scientific evidence) that as a good source of calcium, Wonder Bread helps children's minds work better, or as a good source of calcium, Wonder Bread helps children remember things.

Part II of the order requires Campbell to have competent and reliable scientific evidence for any claim that any bread, bread product, rolls or muffins or any of their ingredients, helps brain function or memory, or can treat, cure or prevent any disease or related health condition. Part II also provides that a mere statement that a product contains a particular vitamin or mineral will not, without more, be considered for purposes of this order a representation that the product can treat, cure or prevent any disease or related health condition.

Part III of the order notes that this order does not prohibit Campbell from making any claim that is specifically permitted in labeling pursuant to the Nutrition Labeling and Education Act of 1990. Parts IV through VII of the order require Campbell to keep copies of relevant advertisements and materials substantiating claims made in the advertisements, to provide copies of the order to certain of its personnel, to notify the Commission of changes in corporate structure, and to file a compliance report with the Commission. Part VIII provides that the order will terminate after twenty (20) years under certain circumstances.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

By direction of the Commission, Commissioner Anthony recused.

Donald S. Clark,

Secretary.
