Abstract: The data collection proposed under this request is included in proposed regulations that would implement section 673(h) of the Individuals with Disabilities Education Act (IDEA) which requires that individuals who receive a scholarship through personnel preparation projects funded under the Act to subsequently provide special education and related services to children with disabilities (or, for leadership personnel, work in areas related to their preparation) for a period of two years for every year for which assistance was received. Scholarship recipients who do not satisfy their service obligation must repay all or part of the cost of their assistance in accordance with regulations issued by the Secretary. These proposed regulations would implement requirements governing, among other things, the service obligation for scholars, oversight by grantees, repayment (or "payback") of scholarship, and procedures for obtaining deferrals or exemptions from service or repayment obligations. In order for the Federal government to justify the expenditure of public funds under this program, certain data collections, recordkeeping, and documentation are necessary to ensure that goals of the program are achieved.
