14 CFR Part 71

[Airspace Docket No. 01-AGL-01]

Modification of Class D Airspace; Rockford, IL; Modification of Class E Airspace; Rockford, IL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class D airspace at Rockford, IL, and modifies Class E airspace at Rockford, IL. Area Navigation (RNAV) Standard Instrument Approach Procedures (SIAPS) have been developed for Greater Rockford Airport. Controlled airspace extending upward from 700 feet or more above the surface of the earth is needed to contain aircraft executing these approaches. This action increases the radius of the existing Class D and Class E airspace for Greater Rockford Airport.

EFFECTIVE DATE: 0901 UTC, June 13, 2002.

SUPPLEMENTARY INFORMATION:

History

On Monday, January 7, 2002, the FAA proposed to amend 14 CFR part 71 to modify Class D airspace and Class E airspace at Rockford, IL (67 FR 703). The proposal was to modify controlled airspace extending upward from 700 feet above the surface of the earth to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class D airspace designations are published in paragraph 5000, and Class E airspace areas extending upward from 700 feet above the surface of the earth are published in paragraph 6005, of FAA Order 7400.9J dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies Class D airspace at Rockford, IL, and Class E airspace at Rockford, IL, to accommodate aircraft executing instrument flight procedures into and out of Greater Rockford Airport. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Modification of Class E Airspace; Frankfort, MI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace at Frankfort, MI. A VHF Omnidirectional Range-A (VOR-A) Standard Instrument Approach Procedure (SIAP) has been developed for Frankfort Dow Memorial Field, Frankfort, MI. Controlled airspace extending upward from 700 feet above the surface of the earth is needed to contain aircraft executing this approach. This action adds an extension to the existing Class E airspace for Frankfort Dow Memorial Field Airport.

SUPPLEMENTARY INFORMATION:

History

On Monday, January 7, 2002, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Frankfort, MI (67 FR 705). The proposal was to modify controlled airspace extending upward from 700 feet above the surface of the earth to contain Instrument Flight Rules (IFR) operations in controlled airspace portions of the terminal operations and while transmitting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005, of FAA Order 7400.9J dated August 31, 2001,

and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Frankfort, MI, to accommodate aircraft executing instrument flight procedures into and out of Frankfort Dow Memorial Field Airport. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this, proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
