BILLING CODE 6820-EP-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Notice of Closed Meeting

AGENCY: Defense Intelligence Agency, Joint Military Intelligence College, DoD.

ACTION: Notice of closed meeting.

SUMMARY: Pursuant to the provisions of Subsection (d) of Section 10 of Public Law 92-463, as amended by Section 5 of Public Law 94-409, notice is hereby given that a closed meeting of the DIA Joint Military Intelligence College Board of Visitors has been scheduled as follows:

DATES: Tuesday, 4 June 2002, 0800 to 1700; and Wednesday, 5 June 2002, 0800 to 1200.

ADDRESSES: Joint Military Intelligence College, Washington, DC 20340-5100.

FOR FURTHER INFORMATION CONTACT: Mr. A. Denis Clift, President, DIA Joint Military Intelligence College, Washington, DC 20340-5100 (202/231-3344).

SUPPLEMENTARY INFORMATION: The entire meeting is devoted to the discussion of classified information as defined in Section 552b(c)(1), Title 5 of the U.S. Code and therefore will be closed. The Board will discuss several current critical intelligence issues and advise the Director, DIA, as to the successful accomplishment of the mission assigned to the Joint Military Intelligence College.

Dated: April 15, 2002.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-08-M

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of advisory committee meeting

SUMMARY: The Defense Science Board (DSB) Task Force on Defense Against Unconventional Use of Nuclear Weapons Against the US Homeland will meet in closed session on May 23-24, 2002, at the Los Alamos National Laboratory, Albuquerque, NM; June 20-21, 2002, in Norfolk, VA; and July 18-19, 2002, at SAIC, 4001 N. Fairfax Drive, Arlington, VA. The Task Force will review the Department of Defense's (DoD) responsibilities, current capabilities, and the scope of activities conducted by DoD to ensure its future preparedness to prevent, deter, detect, identify, warn, defend against, respond to, and attribute attack of the U.S. homeland by unconventional delivery of conventional and unconventional nuclear weapons, as well as radiological weapons.

The mission of the DSB is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Task Force will determine the adequacy of the U.S. ability to detect, identify, respond, and prevent unconventional nuclear attacks by terrorist or sub national entities. The Task Force will also identify capabilities of the Department to provide protection against such nuclear attacks in support of national capabilities in homeland defense.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C. App. II), it has been determined that these DSB Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meetings will be closed to the public.

Dated: April 12, 2002.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEPARTMENT OF DEFENSE

Department of the Army

Availability of a Novel Dendrimer Based Detection Technology for Exclusive, Partially Exclusive or Non-Exclusive Licenses

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army announces the general availability of exclusive, partially exclusive or non-exclusive licenses relative to a noise abatement technology as described in U.S. Patent Application entitled: "Compositions and Methods for Enhancing Bioassay Performance Through Nanomanipulation; Yin, R.; *et al.*" This application is a continuation-in-part of application Serial No. 09/448,403, filed November 22, 1999, which in turn was a non-provisional continuation of provisional application Serial No. 60/156,293, filed on September 22, 1999. Licenses shall comply with 35 U.S.C. 209 and 37 CFR 404.

FOR FURTHER INFORMATION CONTACT:

Michael D. Rausa, U.S. Army Research Laboratory, Office of Research and Technology Applications, ATTN: AMSRL-DP-T/Bldg. 459, Aberdeen Proving Ground, Maryland 21005-5425, Telephone: (410) 278-5028.

SUPPLEMENTARY INFORMATION: None.

Luz D. Ortiz,

Army Federal Register Liaison Officer.

[FR Doc. 02-9643 Filed 4-18-02; 8:45 am]

BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Availability of a Draft Evaluation Report and Draft Environmental Impact Statement, Tuttle Creek Dam Safety Assurance Program, Big Blue River, near the City of Manhattan, Riley and Pottawatomie Counties, KS

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice.

SUMMARY: In accordance with the requirements of the National Environmental Policy Act (NEPA), the U.S. Army Corps of Engineers (USACE or Corps) Kansas City District, in cooperation with U.S. Environmental Protection Agency, has prepared a Draft Evaluation Report and Draft Environmental Impact Statement

(DEvR/DEIS). This study identifies deficiencies in the foundation of the existing dam that could lead to failure in the event of a major earthquake. In addition, minor deficiencies were identified in the existing tainter gate system and with the existing amount of freeboard that could adversely affect performance of the dam during a major flood event. Failure of the structure in the event of a major earthquake or flood would have significant adverse impacts on the human environment, including property damage and potential loss of human life. Considering these potential significant impacts on the human environment, and in accordance with the NEPA, the Corps initiated preparation of an Evaluation Report and Environmental Impact Statement (EvR/EIS). This DEvR/DEIS presents a screening level analysis of several alternatives considered during scoping and a detailed analysis of four alternatives that would minimize the potential for loss of human life and property damage related to failure of the dam in the event of a major earthquake. These included: Restricted Lake Operation; Stabilize Foundation Soil with Drawdown; Stabilize Foundation Soil without Drawdown; and Enlarge Embankment. The DEIS identifies Stabilize Foundation Soil without Drawdown as the Corps' Preferred Alternative. In addition, the Corps considered the "No Action" Alternative. The Corps also identified potential measures to ensure satisfactory performance of the dam during a major flood. These measures include minor repair work on the existing tainter gate system and construction of a "Jersey barrier" wall across the top of the dam to increase freeboard and prevent wind and wave wash. The DEvR/EIS presents a detailed study of the environmental impacts of the five alternatives listed above, the minor measures needed to ensure satisfactory performance of the dam during a major flood, and an interim measure proposed to enhance public safety.

DATES: Submit comments by June 10, 2002.

ADDRESSES: Send written comments and suggestions concerning this proposal to William B. Empson, P.E., Project Manager, Tuttle Creek Dam Safety Assurance Program, U.S. Army Corps of Engineers, Kansas City District, Attn: Dam Safety and Support Section (EC-GD), 700 Federal Building, 601 E. 12th St., Kansas City, MO 64106 or via E-mail: tcdam.nwk@usace.army.mil or the Tuttle Creek Dam Safety Assurance Program Web site: <http://www.nwk.usace.army.mil/tcdam>.

Requests to be placed on the mailing list should also be sent to this address.

FOR FURTHER INFORMATION CONTACT:

William B. Empson, P.E., Project Manager, Tuttle Creek Dam Safety Assurance Study, USACE, Kansas City District, at the above address, telephone (816) 983-3556 or via e-mail: tcdam.nwk@usace.army.mil.

SUPPLEMENTARY INFORMATION: The proposed project must also address environmental impacts relative to the Clean Air Act, Clean Water Act, Endangered Species Act and the Fish and Wildlife Coordination Act (FWCA). In accordance with the NEPA, the DEvR/DEIS evaluates reasonable alternatives for the USACE's decision making process. As required by NEPA, the USACE also analyzes the "no action" alternative as a baseline for gauging potential impacts. As part of the public involvement process, notice is hereby given by the USACE-Kansas City District of a public meeting to be held at the Holiday Inn, 530 Richards Drive, Manhattan, KS, beginning at 7 p.m. on May 2, 2002. The public meeting will allow participants the opportunity to comment on the DEvR/DEIS prepared for the Tuttle Creek Dam Safety Assurance Study. Written comments should be submitted to the address above. Copies of the document may also be obtained from the same address.

Copies of the DEvR/DEIS are also available for inspection at the locations identified below:

- (1) Manhattan Public Library, 629 Poyntz Ave., Manhattan, KS 66506.
- (2) Hale Library, Kansas State University, Manhattan, KS 66506.
- (3) Wamego Public Library, 408 Elm St., Wamego, KS 66647.
- (4) Topeka & Shawnee County Public Library, 1515 SW 10th Ave., Topeka, KS 66604.
- (5) Lawrence Public Library, 707 Vermont, Lawrence, KS 66044.
- (6) Kansas State Library, 300 SW 10th Ave./Room 343-N, Topeka, KS 66612.
- (7) Marysville Public Library, 1009 Broadway, Marysville, KS 66508.
- (8) The Tuttle Creek Dam Safety Assurance Program website at <http://www.nwk.usace.army.mil/tcdam>.
- (9) Rm. 747—Library, U.S. Army Corps. of Engineers, Kansas City District, 601 E. 12th St., Kansas City, MO 64106.
- (10) Corps Lake Project Offices in the study area including Tuttle Creek Lake Project Office, 5020 Tuttle Creek Blvd., Manhattan, KS 66502.

After the public comment period ends, USACE will consider all comments received, revise the DEvR/DEIS as appropriate, and issue a Final

Evaluation Report and Final Environmental Impact Statement.

Luz D. Ortiz,

Army Federal Register Liaison Officer.

BILLING CODE 3710-KN-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Availability of the Draft Environmental Assessment for the Green Brook Flood Control Project, Segments A and N

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers (USACE), New York District, is issuing this notice to announce the availability for public review and comment of a draft Environmental Assessment (EA) for the proposed project modification of the Green Brook Flood Control Project in Segments A and N. The environmental impacts of the project were previously evaluated in the Final Environmental Impact Statement (FEIS) for the Proposed Plan for the Green Brook Flood Control Project in the Green Brook Sub-Basin, Somerset, Middlesex, and Union Counties, New Jersey, filed in August 1980, and the Final Supplemental Environmental Impact Statement (FSEIS) and Final General Reevaluation Report (FGRR) for the Proposed Plan for the Green Brook Flood Control Project in the Green Brook Sub-Basin, Somerset, Middlesex, and Union Counties, New Jersey, filed in May 1997. The EA documents and addresses the environmental impacts of the following project changes: (1) Buy-outs of properties in place of other flood proofing measures for up to 18 properties at Prospect Place, Borough of Middlesex, Middlesex County, in Segment N of the project; (2) Buy-outs of up to an additional 4 properties at Prospect Place, not previously identified to receive non-structural flood protection; and (3) Buy-outs of up to three commercial properties along Raritan Avenue and Lincoln Boulevard, Borough of Middlesex, Middlesex County, to eliminate the need for construction of structural flood protection elements in Segment A of the project which had included a levee and floodwall alignment with pump station. Congressional authorization of the post authorization project change was included in the Energy and Water Development Appropriations Act of
