#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and containing information-collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are understandable, and OSHA's estimate of the information-collection burden is correct.

The Standard contains a number of collections of information which are used by employers to ensure that employees are informed properly about the safety and health hazards associated with marine terminal and longshoring operations. OSHA uses the records developed in response to the collection of information requirements to find out if the employer is complying adequately with the provisions of the standards.

##### **II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information-collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information-collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information-collection and -transmission techniques.

##### **III. Proposed Actions**

OSHA is proposing to increase the existing burden-hour estimate, and to extend OMB approval of, the collection-of-information requirements specified by the Standard on Longshoring and Marine Terminals. The Agency is proposing to increase the current burden-hour estimate from 23,161 hours to 36,100 hours, a total increase of 12,999 hours. This increase was a result of identifying several miscalculations in the previous ICR.

*Type of Review:* Extension of a currently-approved information-collection requirement.

*Title:* Longshoring (29 CFR part 1918) and Marine Terminal Operations (29 CFR part 1917).

*OMB Number:* 1218-0196.

*Affected Public:* Business or other for-profit; Not-for-profit institutions; Federal government; State, local, or tribal governments.

*Number of Respondents:* 748.

*Frequency of Recordkeeping:* Varies (Initially; Annually; On occasion; Monthly; Weekly).

*Average Time per Response:* Varies from two minutes (.03 hour) to 8 hours.

*Total Annual Hours Requested:* 36,160.

*Total Annual Costs (O&M):* \$0.
