Executive Order 12372

The SPNS Grant Program has been determined to be a program subject to the provisions of Executive Order 12372, concerning intergovernmental review of Federal Programs, as implemented by 45 CFR part 100. Executive Order 12372 allows States the option of setting up a system for reviewing applications from within their States for assistance under certain Federal programs. The application packages to be made available under this notice will contain a listing of States which have chosen to set up a review system and will provide a State Single Point of Contact (SPOC) for the review. Applicants (other than federally recognized Indian tribes) should contact their SPOCs as early as possible to alert them to the prospective applications and receive any necessary instructions on the State process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected state. The due date for State process recommendations is 60 days after the appropriate deadline dates. HRSA does not guarantee that it will accommodate or explain its responses to State process recommendations received after the due date. (See "Intergovernmental Review of Federal Programs," Executive Order 12372, and CFR part 100, for a description of the review process and requirements.)
