

intervention messages into regular office visits are currently under development by the joint efforts of CDC, HRSA, the National Institutes of Health, and the Infectious Disease Society of America.

Availability of Funds: The SPNS program is authorized by Section 2691 of the PHS Act. Grants may be awarded directly to public and non-profit private entities, including community-based organizations. The program has \$1.5 million dollars available for this Center initiative, at \$300,000 per year for 5 years. The budget and project periods for approved and funded projects will begin on or about September 1, 2002. Funds must be requested for all 5 years of the initiative.

All applicants funded should recognize that this initiative is not designed to provide continuous support once the initiative is complete and evaluated. Applicants are strongly encouraged to secure non-SPNS funding support during their initiative if the evaluation suggests that the Center is effective and merits continuation.

Eligible Applicants: The statute, Section 2691(a) specifies that grants may be awarded to public and non-profit private entities to fund special programs for the care and treatment of people with HIV disease. Eligible applicants may include, but are not limited to, State, local, or tribal public health, mental health, housing, or substance abuse departments; public or non-profit hospitals and medical facilities; faith-based and community-based service organizations (e.g., AIDS service organizations, federally-qualified health centers, family planning centers, AIDS anti-discrimination and advocacy organizations, homeless assistance providers, hemophilia centers, community mental health centers, substance abuse treatment centers, urban and tribal Indian health centers or facilities, migrant health centers, etc.), institutions of higher education (e.g., Historically Black Colleges and Universities, Hispanic Serving Institutions, and Tribal Colleges and Universities), and national service provider and/or policy development associations and organizations.

Allowable Costs: The basis for determining allocable and allowable costs to be charged to PHS grants is set forth in 45 CFR Part 74 and 45 CFR Part 92 for State, local, or tribal governments. The four separate sets of cost principles prescribed for public and private non-profit recipients are: Office of Management and Budget (OMB) Circular A-87 for State, local or tribal governments; OMB Circular A-21 for

institutions of higher education; 45 CFR Part 74, Appendix E for hospitals; and OMB Circular A-122 for non-profit organizations. Further information on allowable costs is contained in the Guidance.

Reporting and Other Requirements: In addition to deliverables described in guidance materials, the successful applicant under this notice must submit two semi-annual activity summary reports, in accordance with provisions of the general regulations which apply under 45 CFR Part 74.51 "Monitoring and Reporting of Program Performance" (with the exception of State and local governments to which 45 CFR Part 40 reporting requirements apply), and comply with audit requirements of OMB Circular A-133. Further, the PHS also strongly encourages all award recipients to provide a smoke-free workplace and to promote the non-use of all tobacco products. In particular, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care or early childhood development services are provided to children.

Public Health System Reporting Requirements: This program is also subject to the PHS Reporting Requirements which have been approved by the OMB under No. 0937-0195. Under these requirements, any community-based, non-governmental applicant must prepare and submit a Public Health System Impact Statement (PHSIS). The PHSIS is intended to keep State and local health officials apprised of proposed health services grant applications submitted from within their jurisdictions. Instructions on this matter are contained in the Guidance for this initiative, available from the GAC, previously cited.

Executive Order 12372: The SPNS Grant Program is subject to the provisions of Executive Order 12372, concerning intergovernmental review of Federal Programs, as implemented by 45 CFR part 100. Executive Order 12372 allows States the option of setting up a system for reviewing applications from within their States for assistance under certain Federal programs. The application packages to be made available under this notice will contain a listing of States which have chosen to set up a review system and will provide a State Single Point of Contact (SPOC) for the review. Applicants (other than federally recognized Indian tribes) should contact their SPOCs as early as possible to alert them to the prospective applications and receive any necessary

instructions on the State process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. The due date for State process recommendations under E.O. 12372 is 60 days after the application due date. HRSA does not guarantee that it will accommodate or explain its responses to State process recommendations received after that date. (See "Intergovernmental Review of Federal Programs," Executive Order 12372, and CFR part 100, for a description of the review process and requirements.)

Audit Requirements: Applicants are required to comply with requirements of OMB Circular A-133. For additional information on this topic, contact the Grants Management Specialist at 301-443-1262.

The OMB Catalog of Federal Domestic Assistance number for the Special Projects of National Significance is 93.928.

Dated: April 3, 2002.

Prevention Programs Safe Schools/Healthy Students, Youth Violence Prevention Cooperative Agreements, and Targeted Capacity Expansion in order to assist those grant sites in meeting their project objectives.

2. The TA Center will provide comprehensive outreach, consultation, and technical assistance to entities seeking Federal grant funding to support mental health promotion and violence prevention activities for underserved populations, including: racial and ethnic minorities, refugees, and individuals in low-income rural communities.

Eligibility: Eligibility is open to domestic, public, and private not-for-profit entities. For example, the following are eligible to apply:

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. PHS Non-use of Tobacco Policy Statement: The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and

promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. For proposed projects serving more than one State, the applicant is advised to contact the SPOC

of each affected State. A current listing of SPOCs is included in the application guidance materials. The SPOC should send any State review process recommendations directly to: Division of Extramural Activities, Policy, and Review, Substance Abuse and Mental Health Services Administration, Parklawn Building, Room 17-89, 5600 Fishers Lane, Rockville, Maryland 20857.
