## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 9

[FRL-7173-6]

### OMB Approvals Under the Paperwork Reduction Act; Technical Amendment

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Restructuring by the OGWDW of its existing drinking water program Information Collection Requests (ICR) has resulted in the consolidation of rules and activities of standalone ICRs into three main drinking water program ICRs.

**SUMMARY:** In compliance with the Paperwork Reduction Act (PRA), this technical amendment amends the table that lists the Office of Management and Budget (OMB) control numbers issued under the PRA for the Public Water System Supervision Program (PWSS) Information Collection Request (ICR), Microbial Rules ICR and Disinfectants/Disinfection Byproducts, Chemical, and Radionuclides (DBP/Chem/Rads) Rules ICR.

**EFFECTIVE DATE:** This is effective May 3, 2002.

**FOR FURTHER INFORMATION CONTACT:** Lisa Christ at 202-564-8354.

**SUPPLEMENTARY INFORMATION:** EPA is amending the table of currently approved information collection request (ICR) control numbers issued by OMB for various regulations. The amendment updates the table to list those information collection requirements which have moved due to the

restructure and consolidation of the Office of Ground Water Drinking Water ICRs. An announcement that the following ICRs: PWSS ICR, OMB Control No. 2040-0090; Microbial ICR, OMB Control No. 2040-0205; and the DBP/Chem/Rads ICR, OMB Control No. 2040-0204, have been forwarded to the Office of Management and Budget (OMB) for review and approval, appeared in the **Federal Register** on October 5, 2001 (66 FR 194). The affected regulations are codified at 40 CFR parts (141.21-142.312). EPA will continue to present OMB control numbers in a consolidated table format to be codified in 40 CFR part 9 of the Agency's regulations, and in each CFR volume containing EPA regulations. The table lists CFR citations with reporting, recordkeeping, or other information collection requirements, and the current OMB control numbers. This listing of the OMB control numbers and their subsequent codification in the CFR satisfies the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) and OMB's implementing regulations at 5 CFR part 1320.

These ICRs were previously subject to public notice and comment prior to OMB approval. Due to the technical nature of the table, EPA finds that further notice and comment is unnecessary. As a result, EPA finds that there is "good cause" under section 553(b)(B) of the Administrative Procedure Act, 5 U.S.C. 553(b)(B), to amend this table without prior notice and comment.

### I. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget. In addition, this action does not impose any enforceable duty, contain any unfunded mandate, or impose any significant or unique impact on small governments as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). This action also does not require prior consultation with State, local, and tribal government officials as specified by Executive Order 12875 (58 FR 58093, October 28, 1993) or Executive Order 13084 (63 FR 27655 (May 10, 1998), or involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). Because this action is not subject to notice-and-comment requirements under the Administrative Procedure Act or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C.

601 *et seq.*). This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because EPA interprets E.O. 13045 as applying only to those regulatory actions that are based on health or safety risks, such that the analysis required under section 5–501 of the Order has the potential to influence the regulation. This action is not subject to E.O. 13045 because it does not establish an environmental standard intended to mitigate health or safety risks.

#### *Congressional Review Act*

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a brief statement. 5 U.S.C. 808(2). As stated previously, EPA has made such a good cause finding, including the reasons therefore. EPA has submitted reports containing these rules and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

#### **Approval and Promulgation of State Air Quality Plans for Designated Facilities and Pollutants; Pennsylvania; Control of Emissions From Existing Hospital/Medical/Infectious Waste Incinerators**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** EPA is taking direct final action to approve the Commonwealth of Pennsylvania 111(d)/129 plan (the “plan”) for the control of air pollutant emissions from hospital/medical/infectious waste incinerators (HMIWIs). The plan was developed and submitted to EPA by the Pennsylvania Department of Environmental Protection (PADEP), Bureau of Air Quality, on October 26, 1998, and as amended on December 3, 1999, May 4, August 9, and October 22, 2001. The plan covers all affected facilities in the geographic area of the Commonwealth of Pennsylvania, except for Allegheny County where designated facilities are regulated under the Allegheny County Health Department HMIWI 111(d)/129 plan, approved by EPA on April 7, 2000, and amended on May 26, 2000. Also, EPA is approving the PADEP requested delegation of the increments of progress and compliance schedules promulgated under the
