Background and Purpose

The Coast Guard, EPA, RSPA and MMS developed the National Preparedness for Response Exercise Program (PREP) to provide guidelines for compliance with the Oil Pollution Act of 1990 (OPA 90) pollution response exercise requirements (33 U.S.C. 1321(j)). The guiding principles for PREP distinguish between internal and external exercises. Internal exercises are conducted within the plan holder's organization. External exercises extend beyond the plan holder's organization to involve other members of the response community. External exercises are separated into two categories: (1) Area exercises, and (2) Government-initiated unannounced exercises. These exercises are designed to evaluate the entire response mechanism in a given area to ensure adequate pollution response preparedness.

Since 1994, the USCG, EPA, MMS, and Office of Pipeline Safety (OPS) have published a triennial schedule of Area exercises. In short, the Area exercises involve the entire response community (Federal, State, local, and industry participants) and therefore, require more extensive planning than other oil spill response exercises. The PREP Guidelines describe all of these exercises in more detail. This notice announces the next triennial schedule of Area exercises. If a company wants to volunteer for an Area exercise, a company representative may call either the Coast Guard or EPA On-Scene Coordinator (OSC) where the exercise is scheduled.

The following table is the PREP schedule for calendar years 2002, 2003, and 2004.
