The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to 19 CFR Part 351 (2001).

SUPPLEMENTARY INFORMATION:

Background

On October 30, 2001, the Department received a request from Longkou TLC Machinery Co., Ltd. ("Longkou TLC"), for a new shipper review pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214(b).

Section 751(a)(2) of the Act and 19 CFR 351.214(b)(2)(i) govern determinations of antidumping duties for new shippers. These provisions state that, in requesting a review, an exporter or producer of the subject merchandise must meet the following conditions: (1) It did not export the merchandise to the United States during the period covered by the original less-than-fair-value ("LTFV") investigation; and (2) it is not affiliated with any exporter or producer who exported the subject merchandise during that period. If these provisions are met, the Department will conduct a new shipper review to establish an

individual weighted-average dumping margin for such exporter or producer, if the Department has not previously established such a margin for the exporter or producer. The regulations require that the exporter or producer include in its request, with appropriate certifications, the following information: (i) The date on which the merchandise was first entered, or withdrawn from warehouse, for consumption, or, if it cannot certify as to the date of first entry, the date on which it first shipped the merchandise for export to the United States, or, if the merchandise has not yet been shipped or entered, the date of sale; (ii) a list of the firms with which it is affiliated; (iii) a statement from the exporter or producer, and from each affiliated firm, that it did not, under its current or a former name, export the merchandise during the period of investigation ("POI"); and (iv) in an antidumping proceeding involving inputs from a non-market-economy ("NME") country, a certification that the export activities of such exporter or producer are not controlled by the central government. See 19 CFR 351.214(b)(ii) and (iii).

Longkou TLC's request was accompanied by information and certifications establishing the effective date on which it first shipped and entered brake rotors. The respondent also claims that it is not affiliated with companies which exported brake rotors from the People's Republic of China ("PRC") during the POI and has certified that its export activities are not controlled by the central government. Based on the above information, the Department initiated a new shipper review covering Longkou TLC (see *Brake Rotors from the People's Republic of China: Initiation of Sixth New Shipper Antidumping Duty Review* (66 FR 63362, December 6, 2001)). The Department is now conducting this review in accordance with section 751 of the Act and 19 CFR 351.214.

On December 5, 2001, we issued the antidumping duty questionnaire to Longkou TLC. On December 17, 2001, the Department provided the parties an opportunity to submit publicly available information for consideration in these preliminary results.

On January 15, 2002, Longkou TLC submitted its questionnaire response.

On February 20 and 27, 2002, the petitioner and Longkou TLC submitted publicly available information and rebuttal comments, respectively.

On March 6, 2002, the Department issued a supplemental questionnaire to Longkou TLC, to which it received a response on April 5, 2002.
