

emission guidelines (40 CFR part 60, subpart Cb) for large municipal waste combustors (MWCs) that were promulgated under the authority of Clean Air Act (CAA) Sections 111 and 129. Under CAA Section 129(b)(2), States were required to submit plans to the Administrator for approval by December 19, 1996, that implement and enforce the 40 CFR part 60, subpart Cb. Section 129(b)(3) requires the Administrator to promulgate a Federal Plan to implement and enforce the guidelines in those States that have not submitted an approvable plan to Administrator by December 19, 1997.

40 CFR part 60, subpart Cb requires all respondents to comply with the recordkeeping and reporting requirements at 40 CFR part 60, subpart Eb, Section 60.59b except for certain notifications regarding the siting plan, construction requirements, performance testing procedures and certifications. The primary recordkeeping and reporting requirements of subpart Eb include a materials separation plan; notification of public meeting; the retention of continuous emission monitoring data; records of exceedances; records carbon injection system data; the names of the plant operator, shift supervisors and control room operators; and performance test reports.

Burden Statement: In the previously approved ICR, the estimated number of respondents for this information collection was 56 with 112 responses per year. The annual industry reporting and recordkeeping burden for this collection of information was 58,915 hours. On the average, each respondent reported approximately two times per year and 508 hours were spent preparing each response. The total annual reporting and recordkeeping cost burden for this collection of information was \$3,218,000 which is comprised entirely of annual operation and maintenance costs. There are no capital/startup costs associated with this ICR.

Dated: June 10, 2002.

Michael M. Stahl,

Director, Office of Compliance.

Notice of Availability of Funds; Research To Develop Improved Methods and Approaches To Empower Communities To Participate More Effectively in Environmental Cleanups

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability of funds.

SUMMARY: The Environmental Protection Agency (EPA), Office of Research and Development, National Center for Environmental Assessment (NCEA), is issuing this Request for Applications (RFA) for cooperative agreements to provide assistance conducting research to stimulate advances in the science of risk communication so that more effective methods, tools, and models can be used to empower communities to participate more effectively in environmental cleanups, especially the cleanup of contaminated sediment sites. Possible projects under this solicitation might include one or more of the following topics: tools to measure community preferences, tools to summarize complex data, methods to extract and utilize community-based knowledge, methods to assess impacts on societal/cultural practices, outreach tools for large geographic sites, and methods to evaluate the effectiveness of community involvement programs. The primary purpose of the research solicited by this document is to stimulate scientific research on the general topic of environmental risk communication and community involvement. The secondary purpose of the solicitation is to generate insights, methods, tools, and models that might be used to empower communities to participate more effectively in environmental cleanups, especially the cleanup of contaminated sediment sites. The total value of these cooperative agreement awards is estimated to range from \$100,000 to \$500,000 total over a period of one to three years depending on the availability of funding.

DATES: Applications must be postmarked, dated by a delivery service, or marked received by NCEA personnel by September 19, 2002.

ADDRESSES: Solicitation packages can be found on the NCEA Web site <http://www.epa.gov/ncea/>. Information about the full application process and application forms are found in the "Application Kit for Assistance" on the following web site: <http://www.epa.gov/ogd/AppKit/>. They also can be requested

from the EPA contact person at the address and phone number below.

FOR FURTHER INFORMATION CONTACT:

David Kelley, preferably by email: kelley.dave@epa.gov, also by mail: U.S. EPA, Mail Code 8623D, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone: 202-564-3263; or facsimile: 202-564-2268.

Dated: June 12, 2002.

Art Payne,

Acting Director, National Center for Environmental Assessment.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7234-9]

National Environmental Laboratory Accreditation Conference Meeting

AGENCY: Environmental Protection Agency.

ACTION: Notice of national meeting and field activities.

SUMMARY: The Environmental Protection Agency and the Florida Department of Environmental Protection are co-hosting the Eighth Annual Meeting of the National Environmental Laboratory Accreditation Conference (NELAC), a state-federal partnership with private sector participation. NELAC is expanding its scope to include accreditation standards for organizations performing sampling or conducting field analyses, which would be used to demonstrate compliance with EPA regulations. EPA strongly encourages participation from both public and private sector individuals, and organizations with expertise in environmental sampling and laboratory testing, to strengthen the development of NELAC standards. Draft standards are available on the National Environmental Laboratory Accreditation Conference website at www.epa.gov/ttn/nelac.

DATES: The conference will be held July 7-12, 2002. Training classes will be held on July 7th, 8th and the morning of July 9th. The opening session will convene at 12:30 pm on July 9th. All other meetings will convene between 8-9 a.m. and adjourn at 5 p.m., except Friday, July 12th, when the meeting will adjourn at 1:30 pm.

ADDRESSES: The meeting will be held at the Wyndam Harbour Island Hotel, 725 S. Harbour Island Boulevard, Tampa, Florida.

FOR FURTHER INFORMATION CONTACT: Conference arrangements are being

coordinated by the Florida Department of Environmental Protection in conjunction with the University of Florida. For information on registration, hotel rates, transportation, and reservations, go to the University of Florida web site at <http://www.treeo.ufl.edu/nelac/> or call Janet Touchton at the University of Florida at 352-392-9570 to receive a brochure.

Proposed Field Sampling Standards: NELAC proposes to establish consensus uniform standards for environmental sampling and other field activities. The EPA invites comments on the scope and content of sampling standards from organizations which conduct sampling as well as other interested parties. A draft proposed General Sampling Standard may be viewed at the NELAC website at: <http://www.epa.gov/ttn/nelac/propstan.html> under NELAC Files and Documents, Proposed Standards, "NELAC 8 Proposed Changes to Chapter 7: Field Activities", 5/21/02. The agency also invites recommendations for methods to implement a general sampling standard, as well as related field standards. Since the creation of NELAC, there has been a commitment to also establish standards for sampling and field measurement, since these activities are critical to the environmental measurement process. NELAC is committed to maintaining consistency with international standards related to laboratory accreditation. ISO 17025, promulgated by the International Organization for Standardization, contains standards for sampling as well as testing. In order to maintain consistency with the ISO standards, NELAC intends to adopt a general sampling standard. The proposed standard, mentioned above, is considered to be consistent with ISO 17025. The proposal to adopt field standards is a significant expansion of scope which potentially can involve a much larger collection of organizations. With this notice the Agency invites comments on (1) the proposal to establish such standards (2) the potential costs, and (3) the value of uniform field standards, for organizations doing sampling, their clients, data users, and other parties. The Proposed Standards will be discussed and voted on for adoption at the NELAC 8th Annual Meeting.

SUPPLEMENTARY INFORMATION: In 1992 an EPA chartered federal advisory committee recommended that a national environmental laboratory accreditation program be established. At the same time, the committee recognized the need for accreditation standards for field sampling and analysis. The committee

recommended that the initial step be to establish a national laboratory accreditation program before expanding to sampling and other field activities.

EPA established the National Environmental Laboratory Accreditation Conference (NELAC) as a result of the committee's deliberations. NELAC has successfully developed and implemented standards for the laboratory community. Currently 12 state programs have accredited over 900 laboratories in 45 states.

NELAC provides the opportunity for the entire sampling and analytical community to voice their concerns, provide advice based on their professional experience, and effect positive changes to the NELAC standards. Among those who are encouraged to attend, in addition to the laboratory community, are those who deal directly with field activities, e.g., state and federal regulatory officials, engineering firms, regulated industry, samplers, and other affected parties.

John G. Lyon,

*Director, Environmental Sciences Division,
National Environmental Research Laboratory.*

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2002-0110; FRL-7183-1]

Organophosphate Pesticides; Availability of the Revised Organophosphate Cumulative Risk Assessment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of revisions to the cumulative risk assessment for the organophosphorous (OP) pesticides, which was developed as part of EPA's process for tolerance reassessments under the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). This notice starts a 30-day period during which the public is encouraged to submit comments. By allowing access and opportunity for comment on the revised risk assessment, EPA is seeking to strengthen stakeholder involvement and help ensure our decisions under FQPA are transparent and based on the best available information.

DATES: Comments, identified by docket ID number OPP-2002-0110, must be

received by EPA on or before July 22, 2002.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit III. of the

SUPPLEMENTARY INFORMATION. To ensure proper receipt by EPA, it is imperative that you identify docket ID number OPP-2002-0110 in the subject line on the first page of your response.

FOR FURTHER INFORMATION CONTACT:

Karen Angulo, Special Review and Reregistration Division (7805C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 308-8004; e-mail address: angulo.karen@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Does this Action Apply to Me?

This action is directed to the public in general, nevertheless, a wide range of stakeholders will be interested in obtaining and submitting comments on the revisions to the OP pesticide cumulative risk assessment, including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the use of pesticides on food. As such, the Agency has not attempted to specifically describe all the entities potentially affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

II. How Can I Get Additional Information, Including Copies of this Document or Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document and other related documents from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "Federal Register—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

To access information about organophosphate pesticides and obtain electronic copies of the revised risk assessments and related documents mentioned in this notice, you can also go directly to the Home Page for the Office of Pesticide Programs (OPP) at <http://www.epa.gov/pesticides/cumulative>.
