

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7239-5]

Notice of Scientific and Technological Achievement Awards Subcommittee—Closed Meeting**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: An ad hoc Subcommittee of the EPA Science Advisory Board will meet at the U.S. Environmental Protection Agency (EPA), Washington, DC, on July 10–12, 2002. Pursuant to Section 10(d) of the Federal Advisory Committee Act (FACA), 5 U.S.C. App.2, and section (c)(6) of the Government in the Sunshine Act, 5 U.S.C. 552b(c)(6) EPA has determined that the meeting will be closed to the public. The purpose of the meeting is to recommend to the Assistant Administrator of the Office of Research and Development (ORD) the recipients of the Agency's 2000 Scientific and Technological Achievement Cash Awards. These awards are established to honor and recognize EPA employees who have made outstanding contributions in the advancement of science and technology through their research and development activities, as exhibited in publication of their results in peer reviewed journals. In making these recommendations, including the actual cash amount of each award, the Agency requires full and frank advice from the EPA Science Advisory Board. This advice will involve professional judgments on the relative merits of various employees and their respective work. Such personnel issues, where disclosure of information of a personal nature would constitute an unwarranted invasion of personal privacy, are protected from disclosure by section (c)(6) of the Government in the Sunshine Act, 5 U.S.C. 552b(c)(6). In accordance with the provisions of the Federal Advisory Committee Act, minutes of the meeting will be kept for Agency and Congressional review.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Flaak, Acting Deputy Staff Director, US EPA Science Advisory Board (1400A), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave, NW., Washington, DC 20460, telephone: (202) 564-4546 or e-mail at: flaak.robert@epa.gov.

Dated: June 25, 2002.

Christine Todd Whitman,
Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7240-2]

Federal Agency Hazardous Waste Compliance Docket**AGENCY:** Environmental Protection Agency.**ACTION:** Notice of fifteenth update of the Federal Agency Hazardous Waste Compliance Docket, pursuant to CERCLA section 120(c).

SUMMARY: Section 120(c) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), requires the Environmental Protection Agency (EPA) to establish a Federal Agency Hazardous Waste Compliance Docket. The docket is to contain certain information about Federal facilities that manage hazardous waste or from which hazardous substances have been or may be released. (As defined by CERCLA section 101(22), a release is any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment.) CERCLA requires that the docket be updated every six months, as new facilities are reported to EPA by Federal agencies. The following list identifies the Federal facilities to be included in this fifteenth update of the docket and includes facilities not previously listed on the docket and reported to EPA since the last update of the docket, 66 FR 50185, October 2, 2001, which was current as of May 1, 2001. SARA, as amended by the Defense Authorization Act of 1997, specifies that, for each Federal facility that is included on the docket during an update, evaluation shall be completed in accordance with a reasonable schedule. Such site evaluation activities will help determine whether the facility should be included on the National Priorities List (NPL) and will provide EPA and the public with valuable information about the facility. In addition to the list of additions to the docket, this notice includes a section that comprises revisions (that is, corrections and deletions) of the previous docket list. This update contains thirty additions and thirteen deletions since the previous update, as well as numerous other corrections to the docket list. At the time of publication of this notice, the new total number of Federal facilities listed on the docket is 2,231.

DATES: This list is current as of January 31, 2002.

FOR FURTHER INFORMATION CONTACT:

Electronic versions of the docket may be obtained at <http://www.epa.gov/oeca/fedfac/oversight/oversight.html>.

SUPPLEMENTARY INFORMATION:**Table of Contents**

- 1.0 Introduction
- 2.0 Revisions of the Previous Docket
- 3.0 Process for Compiling the Updated Docket
- 4.0 Facilities Not Included
- 5.0 Facility Status Reporting
- 6.0 Information Contained on Docket Listing

1.0 Introduction

Section 120(c) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 United States Code (U.S.C.) 9620(c), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), required the establishment of the Federal Agency Hazardous Waste Compliance Docket. The docket contains information on Federal facilities that is submitted by Federal agencies to the U.S. Environmental Protection Agency (EPA) under sections 3005, 3010, and 3016 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6925, 6930, and 6937, and under section 103 of CERCLA, 42 U.S.C. 9603. Specifically, RCRA section 3005 establishes a permitting system for certain hazardous waste treatment, storage, and disposal (TSD) facilities; RCRA section 3010 requires waste generators and transporters and TSD facilities to notify EPA of their hazardous waste activities; and RCRA section 3016 requires Federal agencies to submit biennially to EPA an inventory of hazardous waste sites that the Federal agencies own or operate. CERCLA section 103(a) requires that the National Response Center (NRC) be notified of a release. CERCLA section 103(c) requires reporting to EPA the existence of a facility at which hazardous substances are or have been stored, treated, or disposed of and the existence of known or suspected releases of hazardous substances at such facilities.

The docket serves three major purposes: (1) To identify all Federal facilities that must be evaluated to determine whether they pose a risk to human health and the environment sufficient to warrant inclusion on the National Priorities List (NPL); (2) to compile and maintain the information submitted to EPA on such facilities under the provisions listed in section 120(c) of CERCLA; and (3) to provide a mechanism to make the information available to the public.

The initial list of Federal facilities to be included on the docket was published on February 12, 1988 (53 FR 4280). Updates of the docket have been published on November 16, 1988 (54 FR 46364); December 15, 1989 (54 FR 51472); August 22, 1990 (55 FR 34492); September 27, 1991 (56 FR 49328); December 12, 1991 (56 FR 64898); July 17, 1992 (57 FR 31758); February 5, 1993 (58 FR 7298); November 10, 1993 (58 FR 59790); April 11, 1995 (60 FR 18474); June 27, 1997 (62 FR 34779); November 23, 1998 (63 FR 64806); June 12, 2000 (65 FR 36994); December 29, 2000 (65 FR 83222), and October 2, 2001 (66 FR 50185). This notice constitutes the fifteenth update of the docket.

Today's notice is divided into three sections: (1) Additions, (2) deletions, and (3) corrections. The additions section lists newly identified facilities that have been reported to EPA since the last update and that now are being included on the docket. The deletions section lists facilities that EPA is deleting from the docket. The corrections section lists changes in information about facilities already listed on the docket.

The information submitted to EPA on each Federal facility is maintained in the docket repository located in the EPA Regional office of the Region in which the facility is located (see 53 FR 4280 (February 12, 1988)) for a description of the information required under those provisions). Each repository contains the documents submitted to EPA under the reporting provisions and correspondence relevant to the reporting provisions for each facility. Contact the following docket coordinators for information on Regional docket repositories:

Gerardo Millán-Ramos (HBS), US EPA Region 1 #1 Congress St., Suite 1100, Boston, MA 02114-2023 (617) 918-1377.

Philip Ofosu (6SF-RA), US EPA Region 6, 1445 Ross Avenue, Dallas, TX 75202-2733, (214) 665-3178.

Helen Shannon (ERRD), US EPA Region 2, 290 Broadway, 18th Floor, New York, NY 10007-1866, (212) 637-4260.

D. Karla Asberry (FFSC), US EPA Region 7, 726 Minnesota Avenue, Kansas City, KS 66101, (913) 551-7595.

Alida Karas (ERRD), US EPA Region 2, 290 Broadway, New York, NY 10007-1866, (212) 637-4276.

Stan Zawistowski (EPR-F), US EPA Region 8, 999 18th Street, Suite 500, Denver, CO 80202-2466, (303) 312-6255.

Cesar Lee (3HS50), US EPA Region 3, 841 Chestnut Bg., Philadelphia, PA 19107 (215) 814-3205.

Deborah Leblang (ECL-115), US EPA Region 10, 1200 Sixth Avenue, Seattle, WA 98101, (206) 553-0115. Laura Ripley (SE-5J), US EPA Region 5, 77 W. Jackson Blvd., Chicago, IL 60604, (312) 886-6040.

Monica Lindeman (ECL, SACU2), US EPA Region 10, 1200 Sixth Avenue, Seattle, WA 98101, (206) 553-5113.

2.0 Revisions of the Previous Docket

Following is a discussion of the revisions of the previous docket, including additions, deletions, and corrections.

2.1 Additions

Today, thirty facilities are being added to the docket, primarily because of new information obtained by EPA (for example, recent reporting of a facility pursuant to RCRA sections 3005, 3010, or 3016 or CERCLA section 103). SARA, as amended by the Defense Authorization Act of 1997, specifies that, for each Federal facility that is included on the docket during an update, evaluation shall be completed in accordance with a reasonable schedule.

Of the thirty facilities being added to the docket, none are facilities that have reported to the NRC the release of a reportable quantity (RQ) of a hazardous substance. Under section 103(a) of CERCLA, a facility is required to report to the NRC the release of a hazardous substance in a quantity that equals or exceeds the established RQ. Reports of releases received by the NRC, the U.S. Coast Guard (USCG), and EPA are transmitted electronically to the Transportation Systems Center at the U.S. Department of Transportation (DOT), where they become part of the Emergency Response Notification System (ERNS) database. ERNS is a national computer database and retrieval system that stores information on releases of oil and hazardous substances. Facilities being added to the docket and facilities already listed on the docket for which an ERNS report has been filed are identified by the notation "103(a)" in the "Reporting Mechanism" column.

It is EPA's policy generally not to list on the docket facilities that are small-quantity generators (SQG) and that have never generated more than 1,000

kilograms (kg) of hazardous waste in any single month. If a facility has generated more than 1,000 kg of hazardous waste in any single month (that is, if the facility is an episodic generator), it will be added to the docket. In addition, facilities that are SQGs and have reported releases under CERCLA section 103 or hazardous waste activities pursuant to RCRA section 3016 will be listed on the docket and will undergo site evaluation activities, such as a PA and, when appropriate, an SI. All such facilities will be listed on the docket, whether or not they are SQGs pursuant to RCRA. As a result, some of the facilities that EPA is adding to the docket today are SQGs that had not been listed on the docket but that have reported releases or hazardous waste activities to EPA under another reporting provision.

In the process of compiling the documents for the Regional repositories, EPA identified a number of facilities that had previously submitted PA reports, SI reports, Department of Defense (DoD) Installation Restoration Program (IRP) reports, or reports under another Federal agency environmental restoration program, but do not appear to have notified EPA under CERCLA section 103. Section 120(c)(3) of CERCLA requires that EPA include on the docket, among other things, information submitted under section 103. In general, section 103 requires persons in charge of a facility to provide notice of certain releases of hazardous substances. The reports under various Federal agency environmental restoration programs may contain information regarding releases of hazardous substances similar to that provided pursuant to section 103. EPA believes that CERCLA section 120(c) authorizes the agency to include on the docket a facility that has provided information to EPA through documents such as a report under a Federal agency environmental restoration program, regardless of the absence of section 103 reporting. Therefore, some of the facilities that EPA is adding today are being placed on the docket because they have submitted the documents described above that contain reports of releases of hazardous substances.

EPA also includes privately owned, government-operated (POGO) facilities on the docket. CERCLA section 120(c) requires that the docket contain information submitted under RCRA sections 3005, 3010, and 3016 and CERCLA section 103, all of which impose duties on operators as well as owners of facilities. In addition, other subsections of CERCLA section 120 refer to facilities "owned or operated" by an

agency or other instrumentality of the Federal government. That terminology clearly includes facilities that are operated by the Federal government, even if they are not owned by it. Specifically, CERCLA section 120(e), which sets forth the duties of the Federal agencies after a facility has been listed on the NPL, refers to the Federal agency that "owns or operates" the facility. In addition, the primary basis for assigning responsibility for conducting PAs and SIs, as required when a facility is listed on the docket, is Executive Order 12580, which assigns that responsibility to the Federal agency having "jurisdiction, custody, or control" over a facility.

2.2 Deletions

Today, thirteen facilities are being deleted from the docket for various reasons, such as incorrect reporting of hazardous waste activity, change in ownership, and exemption as an SQG under RCRA (40 CFR 262.44). Facilities being deleted no longer will be subject to the requirements of CERCLA section 120(d).

2.3 Corrections

Changes necessary to correct the previous docket were identified by both EPA and Federal agencies. The changes needed varied from simple changes in addresses or spelling to corrections of the recorded name and ownership of a facility. In addition, some changes in the names of facilities were made to establish consistency in the docket. Many new entries are simply corrections of typographical errors. For each facility for which a correction has been entered, the original entry (designated by an "O"), as it appeared in the February 12, 1988 notice or subsequent updates, is shown directly below the corrected entry (designated by a "C") for easy comparison.

3.0 Process for Compiling the Updated Docket

In compiling the newly reported facilities for the update being published today, EPA extracted the names, addresses, and identification numbers of facilities from four EPA databases—ERNS, the Biennial Inventory of Federal Agency Hazardous Waste Activities, the Resource Conservation and Recovery Information System (RCRIS), and the Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS)—that contain information about Federal facilities submitted under the four provisions listed in CERCLA section 120(c).

Extensive computer checks compared the current docket list with the information obtained from the databases identified above to determine which facilities were, in fact, newly reported and qualified for inclusion on the update. In spite of the quality assurance efforts EPA has undertaken, state-owned or privately owned facilities that are not operated by the Federal government may have been included. Such problems are caused by procedures historically used to report and track data on Federal facilities; EPA is working to resolve them. Representatives of Federal agencies are asked to write to EPA's docket coordinator at the following address if revisions of this update information are necessary: Augusta K. Wills, Federal Agency Hazardous Waste Compliance Docket Coordinator, Federal Facilities Enforcement Office (Mail Code 2261A), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20004.

4.0 Facilities Not Included

As explained in the preamble to the original docket (53 FR 4280), the docket does not include the following categories of facilities (note, however, that any of these types of facilities may, when appropriate, be listed on the NPL):

- Facilities formerly owned by a Federal agency and now privately owned will not be listed on the docket. However, facilities that are now owned by another Federal agency will remain on the docket and the responsibility for conducting PAs and SIs will rest with the current owner.
- SQGs that have never produced more than 1,000 kg of hazardous waste in any single month and that have not reported releases under CERCLA section 103 or hazardous waste activities under RCRA section 3016 will not be listed on the docket.
- Facilities that are solely transporters, as reported under RCRA section 3010, will not be listed on the docket.

5.0 Facility Status Reporting

EPA has expanded the docket database to include information on the NFRAP status of listed facilities. Indicating NFRAP status allows easy identification of facilities that, after submitting all necessary site assessment information, were found to warrant no further involvement on the part of EPA at the time of the status change. Accordingly, the docket database includes the following facility status codes:

U=Undetermined
N=No further remedial action planned (NFRAP)

NFRAP is a term used in the Superfund site assessment program to identify facilities for which EPA has found that currently available information indicates that listing on the NPL is not likely and further assessment is not appropriate at the time. NFRAP status does not represent an EPA determination that no environmental threats are present at the facility or that no further environmental response action of any kind is necessary. NFRAP status means only that the facility does not appear, from the information available to EPA at this time, to warrant listing on the NPL and that, therefore, EPA anticipates no further involvement by EPA in site assessment or cleanup at the facility. However, additional CERCLA response actions by the Federal agency that owns or operates the facility, whether remedial or removal actions, may be necessary at a facility that has NFRAP status. The status information contained in the docket database is the result of Regional evaluation of information taken directly from CERCLIS. (CERCLIS is a database that helps EPA Headquarters and Regional personnel manage sites, programs, and projects. It contains the official inventory of all CERCLA (NPL and non-NPL) sites and supports all site planning and tracking functions. It also integrates financial data from preremedial, remedial, removal and enforcement programs.) The status information was taken from CERCLIS and sent to the Regional docket coordinators for review. The results of those reviews were incorporated into the status field in the docket database. Subsequently, an updated list of facilities having NFRAP status (those for which an "N" appears in the status field) was generated; the list of updates since the previous publication of the docket is being published today.

Important limitations apply to the list of facilities that have NFRAP status. First, the information is accurate only as of January 31, 2002. Second, a facility's status may change at any time because of any number of factors, including new site information or changing EPA policies. Finally, the list of facilities that have NFRAP status is based on Regional review of CERCLIS data, is provided for information purposes only, and should not be considered binding upon either the Federal agency responsible for the facility or EPA.

The status information in the docket database will be reviewed and a new list of facilities classified as NFRAP will be published at each docket update.

6.0 Information Contained on Docket Listing

As discussed above, the update information below is divided into three separate sections. The first section is a list of new facilities that are being added to the docket. The second section is a list of facilities that are being deleted from the docket. The third section comprises corrections of information included on the docket. Each facility listed for the update has been assigned a code(s) that indicates a more specific reason(s) for the addition, deletion, or correction. The code key precedes the lists.

SARA, as amended by the Defense Authorization Act of 1997, specifies that, for each Federal facility that is included on the docket during an update, evaluation shall be completed in accordance with a reasonable schedule. Therefore, all facilities on the additions list to this fifteenth docket update must submit a PA and, if warranted, an SI to EPA. The PA must include existing information about a site and its surrounding environment, including a thorough examination of human, food-chain, and environmental targets, potential waste sources, and migration pathways. From information in the PA or other information coming to EPA's attention, EPA will determine whether a follow-up SI is required. An SI augments the data collected in a PA. An SI may reflect sampling and other field data that are used to determine whether further action or investigation is appropriate. This policy includes any facility for which there is a change in the identity of the responsible Federal agency. The reports should be submitted to the Federal facilities coordinator in the appropriate EPA Regional office.

The facilities listed in each section are organized by state and then grouped alphabetically within each state by the Federal agency responsible for the facility. Under each state heading is

listed the name and address of the facility, the Federal agency responsible for the facility, the statutory provision(s) under which the facility was reported to EPA, and the correction code(s).

The statutory provisions under which a facility reported are listed in a column titled "Reporting Mechanism." Applicable mechanisms are listed for each facility: for example 3010, 3016, and 103(c).

The complete list of Federal facilities that now make up the docket and the complete list of facilities classified as no further remedial action planned (NFRAP) are not being published today. However, the lists are available to interested parties and can be obtained at <http://www.epa.gov/oeca/fedfac/oversight/oversight.html> or by calling the HQ Docket Coordinator at (202) 564-2468. As of today, the total number of Federal facilities that appear on the docket is 2,231.

Dated: June 24, 2002.

Elliott J. Gilberg,

Associate Director, Federal Facilities Enforcement Office.

Docket Revisions

Categories of Revisions for Docket Update by Correction Code

Categories for Deletion of Facilities

- (1) Small-Quantity Generator
- (2) Not Federally Owned
- (3) Formerly Federally Owned
- (4) No Hazardous Waste Generated
- (5) (This correction code is no longer used.)
- (6) Redundant Listing/Site on Facility
- (7) Combining Sites Into One Facility/Entries Combined
- (8) Does Not Fit Facility Definition
- (9) (This correction code is no longer used.)
- (10) (This correction code is no longer used.)
- (11) (This correction code is no longer used.)

- (12) (This correction code is no longer used.)
- (13) (This correction code is no longer used.)
- (14) (This correction code is no longer used.)

Categories for Addition of Facilities

- (15) Small-Quantity Generator With Either a RCRA 3016 or CERCLA 103 Reporting Mechanism
- (16) One Entry Being Split Into Two/ Federal Agency Responsibility Being Split
- (17) New Information Obtained Showing That Facility Should Be Included
- (18) Facility Was a Site on a Facility That Was Disbanded; Now a Separate Facility
- (19) Sites Were Combined Into One Facility
- (19A) New Facility

Categories for Corrections of Information About Facilities

- (20) Reporting Provisions Change
- (20A) Typo Correction/Name Change/Address Change
- (21) Changing Responsible Federal Agency (New Responsible Federal Agency Must Submit proof of previously performed PA, which is subject to approval by EPA)
- (22) Changing Responsible Federal Agency and Facility Name (New Responsible Must Submit proof of previously performed PA, which is subject to approval by EPA)
- (23) New Reporting Mechanism Added at Update
- (24) Reporting Mechanism Determined to Be Not Applicable After Review of Regional Files

Note: Further information on definitions of categories can be obtained by calling Augusta K. Wills, the HQ Docket Coordinator at (202) 564-2468.

Toxic Chemical Release Reporting; Request for Comment on Renewal Information Collection**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB) pursuant to procedures described in 5 CFR 1320.12: Toxic Chemical Release Reporting (EPA ICR No. 1363.12, OMB No. 2070-0093). This ICR involves a collection activity that is currently approved and scheduled to expire on January 31, 2003. Before submitting this ICR to the Office of Management and Budget (OMB) for review and approval under the PRA, EPA is soliciting comments on specific aspects of the collection as described below.

DATES: Comments, identified by the docket control number OEI-10015, must be submitted on or before August 30, 2002.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit III. of the

SUPPLEMENTARY INFORMATION section of this notice.

FOR FURTHER INFORMATION CONTACT: For general information contact: The Emergency Planning and Community Right-to-Know Hotline at (800) 424-9346 or (703) 412-9810, TDD (800) 553-7672, <http://www.epa.gov/epaoswer/hotline/>.

For technical information about this ICR renewal contact: Judith Kendall, Toxics Release Inventory Program Division, OEI, Environmental Protection Agency (2844T), 1200 Pennsylvania Ave. NW., Washington, DC 20460, Telephone: 202-566-0750; Fax: 202-566-0727; e-mail: kendall.judith@epa.gov.

SUPPLEMENTARY INFORMATION:**I. Does This Notice Apply to Me?**

A. Affected Entities: Entities that will be affected by this action are those facilities that manufacture, process, or otherwise use certain toxic chemicals listed on the Toxics Release Inventory (TRI) and which are required under section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA) to report annually to EPA their environmental releases and other waste management activities involving such chemicals.

Currently, those industries with the following SIC code designations (that meet all other threshold criteria for TRI reporting) must report toxic chemical releases and other waste management activities:

- ▶ 20-39, manufacturing
- ▶ 10, metal mining (except for SIC codes 1011, 1081, and 1094)
- ▶ 12, coal mining (except for SIC code 1241 and extraction activities)
- ▶ 4911, 4931 and 4939, electrical utilities that combust coal and/or oil for the purpose of generating power for distribution in commerce.
- ▶ 4953, RCRA Subtitle C hazardous waste treatment and disposal facilities

- ▶ 5169, chemicals and allied products wholesale distributors
- ▶ 5171, petroleum bulk plants and terminals
- ▶ 7389, solvent recovery services, and

▶ federal facilities in any SIC code

To determine whether you or your business is affected by this action, you should carefully examine the applicability provisions at 40 CFR part 372 and section 3(a) of the Supporting Statement of the information collection. If you have any questions regarding the applicability of this action to a particular entity, consult the person(s) listed in the **FOR FURTHER INFORMATION CONTACT** section.

II. How Can I Get Additional Information or Copies of This Document or Other Support Documents?*A. Electronic Availability***Internet**

Electronic copies of the ICR are available from the EPA home page at the **Federal Register**—Environmental Documents entry for this document under “Laws and Regulations” (<http://www.epa.gov/fedrgstr/>). An electronic copy of the collection instrument referenced in this ICR and instructions for its completion are available at <http://www.epa.gov/triinter/#forms>.

In Person

The Agency has established an official record for this action under docket control number OEI-10015. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as confidential business information (CBI).
