Fort James Operating Company*, Civil Action No. 02-C-0602 (E.D. Wis.) was lodged with the United States District Court for the Eastern District of Wisconsin on June 20, 2002. The complaint filed in the case by the United States and the State of Wisconsin (the "Plaintiffs") alleges that Fort James is party liable for certain response costs associated with the release and threatened release of hazardous substances from facilities at or near the Fox River/Green Bay Site in

northeastern Wisconsin (the "Site"), pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9601 *et seq.*

The proposed consent decree sets forth the terms of a proposed settlement between the Plaintiffs and Fort James addressing both: (1) the claims for recovery of response costs that are included in the complaint; and (2) related claims for natural resource damages at the Site. The Oneida Tribe of Indians of Wisconsin and the Menominee Indian Tribe of Wisconsin are additional parties to the settlement, as Tribal trustees for injured natural resources at and near the Site.

Under the settlement, Fort James would agree to preserve more than 1000 acres of wildlife habitat in northeastern Wisconsin and pay an additional \$8.5 million for other restoration projects as compensation for injuries to natural resources caused by widespread polychlorinated biphenyl ("PCB") contamination at the Site. The Federal, State, and Tribal trustees that are parties to the Consent Decree have reviewed and approved the specific restoration projects described in an Appendix to the Consent Decree, and will jointly select future projects to be funded with additional money available under the settlement. In addition to its payments for restoration projects, Fort James would pay \$1.6 million to help offset natural resource damage assessment costs and certain cleanup-related response costs incurred by the United States and the State.
