## **NUCLEAR REGULATORY COMMISSION**

### **Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations**

#### **I. Background**

Pursuant to Public Law 97-415, the  
U.S. Nuclear Regulatory Commission  
(the Commission or NRC staff) is  
publishing this regular biweekly notice.  
Public Law 97-415 revised section 189  
of the Atomic Energy Act of 1954, as  
amended (the Act), to require the  
Commission to publish notice of any  
amendments issued, or proposed to be  
issued, under a new provision of section  
189 of the Act. This provision grants the  
Commission the authority to issue and  
make immediately effective any  
amendment to an operating license  
upon a determination by the  
Commission that such amendment  
involves no significant hazards  
consideration, notwithstanding the  
pendency before the Commission of a  
request for a hearing from any person.

This biweekly notice includes all  
notices of amendments issued, or  
proposed to be issued from June 14,  
2002 through June 27, 2002. The last  
biweekly notice was published on June  
25, 2002 (67 FR 42814).

#### **Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing**

The Commission has made a  
proposed determination that the  
following amendment requests involve  
no significant hazards consideration.  
Under the Commission's regulations in  
10 CFR 50.92, this means that operation  
of the facility in accordance with the  
proposed amendment would not (1)  
involve a significant increase in the  
probability or consequences of an  
accident previously evaluated; or (2)  
create the possibility of a new or  
different kind of accident from any  
accident previously evaluated; or (3)  
involve a significant reduction in a  
margin of safety. The basis for this

proposed determination for each  
amendment request is shown below.

The Commission is seeking public  
comments on this proposed  
determination. Any comments received  
within 30 days after the date of  
publication of this notice will be  
considered in making any final  
determination.

Normally, the Commission will not  
issue the amendment until the  
expiration of the 30-day notice period.  
However, should circumstances change  
during the notice period such that  
failure to act in a timely way would  
result, for example, in derating or  
shutdown of the facility, the  
Commission may issue the license  
amendment before the expiration of the  
30-day notice period, provided that its  
final determination is that the  
amendment involves no significant  
hazards consideration. The final  
determination will consider all public  
and State comments received before  
action is taken. Should the Commission  
take this action, it will publish in the  
**Federal Register** a notice of issuance  
and provide for opportunity for a  
hearing after issuance. The Commission  
expects that the need to take this action  
will occur very infrequently.

Written comments may be submitted  
by mail to the Chief, Rules and  
Directives Branch, Division of  
Administrative Services, Office of  
Administration, U.S. Nuclear Regulatory  
Commission, Washington, DC 20555-  
0001, and should cite the publication  
date and page number of this **Federal  
Register** notice. Written comments may  
also be delivered to Room 6D22, Two  
White Flint North, 11545 Rockville  
Pike, Rockville, Maryland, from 7:30  
a.m. to 4:15 p.m. Federal workdays.  
Copies of written comments received  
may be examined at the Commission's  
Public Document Room (PDR), located  
at One White Flint North, 11555  
Rockville Pike (first floor), Rockville,  
Maryland. The filing of requests for a  
hearing and petitions for leave to  
intervene is discussed below.

By July 25, 2002, the licensee may file  
a request for a hearing with respect to  
issuance of the amendment to the  
subject facility operating license and  
any person whose interest may be  
affected by this proceeding and who  
wishes to participate as a party in the  
proceeding must file a written request  
for a hearing and a petition for leave to  
intervene. Requests for a hearing and a  
petition for leave to intervene shall be  
filed in accordance with the  
Commission's "Rules of Practice for  
Domestic Licensing Proceedings" in 10  
CFR Part 2. Interested persons should  
consult a current copy of 10 CFR
