

Proposed Project

Reader Evaluations of Public Health Assessments and Other Products (OMB No. 0923-0016)—Reinstatement with changes—The Agency for Toxic Substances and Disease Registry (ATSDR) is mandated pursuant to the 1980 Comprehensive Environmental Response Compensation and Liability Act (CERCLA) and its 1986 Amendments, The Superfund Amendments and Reauthorization Act (SARA), to perform health assessments for each facility on the National Priorities List and for releases or facilities where individuals have been exposed to a hazardous substance. In addition, ATSDR provides consultations on health issues relating to exposure to

hazardous or toxic substances to officials at the Environmental Protection Agency (EPA), and state and local government. The principal audiences for these products are health professionals at the federal, state, and local levels, staff in public libraries and repositories, interested private sector organizations and groups, and members of the public.

In order to make ATSDR products such as health assessments, consultations, exposure investigations, and fact sheets timely and relevant, ATSDR staff developed a survey questionnaire (OMB 0923-0016) to get readers' opinions and evaluations. The survey will be inserted and mailed in each public health assessment. In addition, electronic surveys will be sent

to clients and partners requesting ATSDR health consultations and exposure investigations within 1 month following delivery of product or service. The survey collects information on (a) affiliation of users, (b) timeliness and effectiveness of these products, and (c) practical utility of these products.

The reader evaluation surveys provide important feedback that enables ATSDR staff to maintain the utility, integrity and standards of its products. Gathering client feedback ensures that appropriate information is included in these documents and assists in maintaining medical and scientific usefulness. The information will be used to maintain customer satisfaction with these products. There is no cost to respondents.

Catherine Lorraine, Office of Policy, Planning, and Legislation (HF-11), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-3360.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of May 16, 2002 (67 FR 34942), FDA published a document entitled "Request for Comment on First Amendment Issues." In this document FDA asked the public to comment on a number of questions to help ensure that the agency's regulations, guidances, policies, and practices continue to comply with the governing First Amendment case law. Recent case law has emphasized the need for not imposing unnecessary restrictions on speech. The document also stated the agency's wish to learn what empirical evidence exists concerning, among other things, the effect of commercial speech on the public health.

The agency received three letters requesting that the agency extend the comment period for 60 days until September 30, 2002, for the submission of comments and until November 13, 2002, for the submission of responses to the comments. The three requests cited the need for additional time because of the complexity and importance of the subject matter to be commented on. The requests also stated an extension was needed to enable consultation with a variety of individuals, including social science and other experts, as well as business partners. One request pointed out that summer vacation schedules would make this consultation even more difficult. FDA has determined that it is appropriate to grant these requests. However, FDA believes that an additional 45 days will be sufficient time to allow for the consultations discussed and the preparation of comments.

Interested persons may submit to the Dockets Management Branch (see **ADDRESSES**) written or electronic comments on the document requesting comment on First Amendment issues by September 13, 2002, and responses to comments by October 28, 2002. Three copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Comments and responses to comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: July 3, 2002.

Senior Associate Commissioner for Policy, Planning, and Legislation.
