DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[U.S. DOT Docket No. NHTSA-2002-12499]

National and State Surveys of Alcohol Targets of Opportunity

ACTION: Notice and request for public comment on proposed collection of information.

SUMMARY: The National Highway Traffic Safety Administration (NHTSA) has a central role in the national effort to

reduce motor vehicle related traffic injuries and deaths. A core priority of NHTSA is to reduce the number of alcohol-related fatalities. Since 1999, several states were awarded cooperative agreements by NHTSA to demonstrate and evaluate the effectiveness of traffic safety programs that combine increased law enforcement efforts with enhanced publicity. These states were selected because of their potential for reducing the substantial number or percentage of alcohol-related fatalities occurring each year within their state. During the next few years NHTSA will be supporting additional state programmatic efforts to reduce the number of alcohol-related crashes. One means of determining whether these programs are successful is to conduct periodic telephone surveys of the public both prior to and after program implementation to assess changes in drivers' attitudes and behavior regarding drinking and driving after drinking. It would also be anticipated that states implementing such programs should show larger and more positive changes in attitudes and behavior as compared to a national sample of drivers. Under procedures established by the Paperwork Reduction Act of 1995, NHTSA invites the general public and Federal Agencies to comment on the need for the proposed data collection, the types of questions respondents should be asked, ways to enhance the quality of the collection, and ways to minimize the burden on respondents.

DATES: Comments must be received on or before September 16, 2002.

ADDRESSES: Direct all written comments to US DOT, Docket Management Facility, Docket Operations, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590, Docket Number NHTSA-2002-12499. It is requested but not required that 2 copies of the comment be provided. The Docket section is open weekdays from 10 a.m. to 5 p.m.

FOR FURTHER INFORMATION CONTACT:

Marvin Levy, Ph.D., Contracting Officer's Technical Representative, Office of Research and Traffic Records (NTS-31), Washington, DC 20590, e-mail mlevy@nhtsa.dot.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must publish a document in the **Federal Register** providing for a 60-day comment period and otherwise consult with affected agencies and members of the public concerning each proposed collection of information.

The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulations (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methods and assumptions;

(iii) How to enhance the quality, utility, and clarity of the information to be collected; and

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

In response to these requirements, NHTSA asks for public comment on the following collection of information:

National and State Surveys of Alcohol Targets of Opportunity

Type of Request: New information collection requirement.

OMB Clearance Number: None.

Form Number: This collection of information uses no standard forms.

Requested Expiration Date of Approval: June 30, 2005.

Summary of the Collection of Information

The National Highway Traffic Safety Administration (NHTSA) has a central role in the national effort to reduce motor vehicle related traffic injuries and deaths. A core priority of NHTSA is to reduce the number of alcohol-related fatalities. In support of this priority, since 1999, several states were awarded cooperative agreements by NHTSA to demonstrate and evaluate the effectiveness of traffic safety programs that combine increased law enforcement efforts with substantial publicity about these programs. These states were selected because of their potential for reducing the substantial number or percentage of alcohol-related fatalities occurring each year within their state. One means of determining whether these state programs were successful was to employ periodic telephone surveys of the public both prior to and after program implementation to assess changes in drivers' attitudes and behavior regarding drinking and driving after drinking.
