FOR FURTHER INFORMATION CONTACT: Ms. Judy Street at the above address or on (202) 267-9895.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Therefore, the FAA solicits comments on the following current collections of information in order to evaluate the necessity of the collection, the accuracy of the agency's estimate of the burden, the quality, utility, and clarity of the information to be collected, and possible ways to minimize the burden of the collection in preparation for submission to renew the clearances of the following information collections.

1. *2120-0007, Flight Engineers and Flight Navigators—FAR 63.* The information collected will be used to determine compliance of applicants with the provisions of FAR Part 63, which prescribes the requirements of eligibility for flight navigator and flight engineer certification and training course requirements for those airmen. The current estimated annual reporting burden is 1,009 hours.

2. *2120-0576, Kansas City Center Customer Satisfaction Questionnaire.* The information collected on this form represents customer feedback concerning the quality of service provided to the users of Kansas City ARTCC airspace. This information may be used to solve problems, improve safety, and increase system efficiency.

Respondents are general aviation pilots, air taxi operators, airlines, military pilots, and adjacent families. The current estimated annual reporting burden is 25 hours.

3. *2120-0605, ACSEP Evaluation Customer Feedback Report.* The information is collected from holders of FAA production approvals and selected suppliers to obtain their input on how well the agency is performing the administration and conduct of the Aircraft Certification Systems Evaluation Program (ACSEP). 4. *2120-0651, Additional Flight Data Recorder Requirements for Certain Boeing 737 Airplanes.* This collection of information requires the recording of additional operating parameters for certain Boeing 737 airplanes. These additional parameters allow the NTSB and FAA to establish a cause and enable the industry to make appropriate modifications to prevent future incidents. The current estimated annual reporting burden is 1 hour.

Issued in Washington, DC, on July 10, 2002.

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for expanding Illinois 29 to a four-lane highway. The proposed project will extend from Illinois 6 in Peoria County north to I-180 in Bureau County.

FOR FURTHER INFORMATION CONTACT:

Norman R. Stoner, P.E., Division Administrator, Federal Highway Administration, 3250 Executive Park Drive, Springfield, Illinois 62703, Phone: (217) 492-4600

Joseph E. Crowe, P.E., District Engineer,

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Illinois Department of Transportation, will prepare an Environmental Impact Statement (EIS) on a proposal to improve existing Illinois 29 to a four-lane highway from Illinois 6 in Peoria County north to I-180 in Bureau County. The approximately 35-mile long project corridor is located west of and parallel to the Illinois River. The proposal is being considered to improve north-south highway access west of the Illinois River, enhance travel efficiency, and support economic development in the region. Alternatives under consideration include: (1) The No-Build Alternative, (2) improvements to the existing highway, and (3) possible bypasses at Chillicothe, Sparland, Henry and Putnam.

Alignment studies will determine one preferred alignment location and address the type of facility and preliminary interchange geometrics. Engineering and environmental conditions will be addressed in order to determine an alignment that meets the transportation needs of the region while minimizing the impacts to the environment. Potentially affected resources include agricultural land, archaeological sites, wetlands, woodlands, natural areas, State Conservation Areas, a nature preserve, historic structures, and residential and commercial property. Preliminary measures to minimize harm, probable construction cost estimates and estimated right of way requirements will be developed as part of the study.

The scoping process undertaken for this project will include distribution of a scoping informational packet, coordination with appropriate Federal, State, and local agencies, and review sessions as needed. An informational scoping packet may be obtained from one of the contact people listed above.

To ensure that the full range of issues related to this proposed action are addressed, and all substantive issues are identified, public involvement activities will be conducted as part of the study. Public information meetings, local government meetings, and newsletters will provide opportunities for public involvement. A public hearing will be held at the time that the Draft EIS is made available for comment. The project's Draft EIS will be available for public and agency review prior to the public hearing. The time and location of

the public information meeting and public hearing will be announced in local newspapers. Comments or questions concerning this proposed action and the Draft EIS should be directed to FHWA or the Illinois Department of Transportation at the addresses provided above.
