Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443–7978.

National Survey of Characteristics and Funding of School Mental Health Services—New

SAMHSA's Center for Mental Health Services will sponsor this national study of the mental health services provided in U.S. public schools. A substantial proportion of public schools provide some level of mental health screening, prevention, and treatment services to their students. However, no national-level data are available on these services. The study is designed to document the types of mental health problems encountered in schools, the mental health services provided, the

types and qualifications of staff providing the services, the arrangements for delivery of services, and the funding of those services. The study will examine the prevalence of these mental health resources and their distribution across schools in the nation as they vary by grade level, size, locale, and the student populations served.

The survey will be conducted as a self-administered mail survey (with telephone followup) of a nationally representative sample of 2,000 public elementary, middle and secondary schools. The districts associated with the sampled schools will be asked to answer questions about funding sources, budgets, and issues related to funding. The results of the study will be available in the summer of 2003. Response burden for the survey is summarized in the following table.

Questionnaire	Number of respondents	Responses/ respondent	Burden/response (hrs.)	Total burden hours
Telephone call to school district	1,200	1	.17	204
School district	1,200	1	.5	600
School	2,000	1	1.0	2,000
Total	3,200			2,804

Opioid Drugs in Maintenance and Detoxification Treatment of Opioid Dependence

42 CFR Part 8 (OMB No. 0930–0206, Revision)—This regulation establishes a

certification program managed by SAMHSA's Center for Substance Abuse Treatment (CSAT). The regulation requires that Opioid Treatment Programs (OTPs) be certified. "Certification" is the process by which SAMHSA determines that an OTP is qualified to provide opioid treatment under the Federal opioid treatment standards established by the Secretary of Health and Human Services. To become certified, an OTP must be accredited by a SAMHSA-approved accreditation body. The regulation also provides standards for such services as individualized treatment planning, increased medical supervision, and assessment of patient outcomes. This submission seeks continued approval of the information collection requirements in the regulation, minor changes to Form SMA–162, and approval of a new form to be used in implementing the regulation.

SAMHSA currently has approval for the Application for Certification to Use Opioid Drugs in a Treatment Program Under 42 CFR 8.11 (Form SMA-162) and the Application for Approval as Accreditation Body Under 42 CFR 8.3(b) (Form SMA-163). SAMHSA also is seeking approval of a new form that has been developed at the request of the

treatment field, the Exception Request and Record of Justification Under 42 CFR 8.12 (Form SMA-168), which may be used on a voluntary basis by physicians when there is a patient care situation in which the physician must make a treatment decision that differs from the treatment regimen required by the regulation. This is a simplified,

standardized form to facilitate the documentation, request, and approval process for exceptions. The tables that follow summarize the annual reporting burden associated with the regulation, including burden associated with the forms.

* This is a one-time requirement that will be fully met during the first three years of approval for the final rule.

SAMHSA believes that the recordkeeping requirements in the regulation are customary and usual practices within the medical and rehabilitative communities and has not calculated a response burden for them. The recordkeeping requirements set

forth in 42 CFR 8.4, 8.11 and 8.12 include maintenance of the following: 5-year retention by accreditation bodies of certain records pertaining to accreditation; documentation by an OTP of the following: A patient's medical examination when admitted to

treatment, a patient's history, a treatment plan, any prenatal support provided the patient, justification of unusually large initial doses, changes in a patient's dosage schedule, justification of unusually large daily doses, the rationale for decreasing a patient's clinic

attendance, and documentation of physiologic dependence.

The rule also includes requirements that OTPs and accreditation organizations disclose information. For example, 42 CFR 8.12(e)(1) requires that a physician explain the facts concerning the use of opioid drug treatment to each patient. This type of disclosure is considered to be consistent with the common medical practice and is not considered an additional burden. Further, the rule requires, under § 8.4(i)(1) that accreditation organizations shall make public their fee structure; this type of disclosure is standard business practice and is not considered a burden.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Allison Herron Eydt, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.
