

excepted from the 5,000 minimum order size requirements and to be executed in 100 share increments, with a minimum order size of 100 shares. The Phlx believes these changes in order and commitment size should encourage trading through the System by eliminating previously imposed order and commitment size restrictions. This aspect of the proposal is intended to codify expressly into the rule a previously implemented modification.¹³ The Exchange believes that reflecting the size into the rule should make it more apparent to potential participants that smaller sizes are permissible, thereby potentially attracting new business.

The proposed rule change also makes minor technical amendments to Phlx Rule 237 to change the reference from stock to security to more accurately reflect the addition of ETFs and to replace a reference to UTS with eVWAP.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with Section 6 of the Act¹⁴ in general, and in particular, with Section 6(b)(5),¹⁵ in that it is designed to promote just and equitable principles of trade, and to remove impediments to and perfect the mechanism of a free and open market and a national market system by expanding the number of securities eligible for eVWAP trading and to codify order and commitment size requirements to promote trading activity.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Phlx does not believe that the proposed rule change would impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or

(ii) as to which the Exchange consents, the Commission will:

(A) By order approve such proposed rule change; or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filings will also be available for inspection and copying at the principal office of the Phlx. All submissions should refer to File No. SR-Phlx-2001-120 and should be submitted by February 22, 2002.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁶

Margaret H. McFarland,

Deputy Secretary.

2. State Agency Ticket Assignment Form, SSA-1365, State Vocational Rehabilitation Ticket to Work Information Sheet, SSA-1366 and Individual Work Plans (IWP) Information Sheet, SSA-1367—0960-0641.

Background

Public Law (Pub. L.) 106-170, the Ticket to Work and Work Incentives Improvement Act of 1999, created a new Ticket to Work (TTW) program for providing work access services to SSA beneficiaries. The new program requires SSA to monitor the services provided under the Law. SSA has developed three data collection forms that request service provider and beneficiary information, which is essential to SSA's administration of this new program. Employment networks (ENs) providing TTW services under contracts with SSA are required to submit to SSA the information listed in form SSA-1367. State vocational rehabilitation agencies (VRAs) that provide services to SSA beneficiaries under either the traditional VR reimbursement mechanism or the new TTW program are required to submit to SSA the information listed in forms SSA-1365 and SSA-1366. SSA does not require that ENs or VRAs use forms SSA-1366 and SSA-1367 per se, but does require that any alternative forms submitted in place of these SSA forms include the SSA listed information at a minimum. VRAs are required to submit Form SSA-1365 in all cases as a means of assigning Tickets to VRAs.

a. State Agency Ticket Assignment Form—SSA-1365. The information collected on this form will be used by SSA's contracted Program Manager (PM) to perform the task of assigning beneficiaries' tickets and monitoring the use of tickets under the Ticket to Work and Self-Sufficiency Program. The State VRA answers the questions and the beneficiary reviews the data and if in agreement will sign the form acknowledging the Ticket assignment. The respondents are State VR agencies.

Number of Respondents: 21.

Frequency of Response: 4,048 annually per respondent.

Average Burden Per Response: 3 minutes.

Estimated Annual Burden: 4,250 hours.

b. State Vocational Rehabilitation Ticket to Work Information Sheet—SSA-1366. The information collected on Form SSA-1366 will be used by SSA's contracted PM when a State VRA elects to participate in the Program as an EN. In this case, form SSA-1366, when combined with the SSA-1365, is intended to meet the minimum information requirements for IWPs and to monitor the appropriateness of the IWPs as required under the Pub. L. 106-107. The respondents are VRAs acting as ENs under the Ticket to Work Program.

Number of Respondents: 21.

Frequency of Response: 132 annually per respondent.

Average Burden Per Response: 2 minutes.

Estimated Annual Burden: 92 hours.

Please Note: The Ticket to Work Program is being implemented in stages. The above represents the initial phase of the program with 13 participating states that include 21 State VR agencies. As the program continues to be phased in, each initial program year will result in a larger number of new tickets for the participating State VRs because existing clients will also be brought into the program.

c. Individual Work Plans (IWP) Information Sheet—SSA-1367. The information collected on Form SSA-1367 will be used to monitor the appropriateness of IWPs that have been assigned to ENs under the TTW program. The respondents are ENs under the TTW program.

Number of Respondents: 31,450.

Frequency of Response: 1 annually per respondent.

Average Burden Per Response: 3 minutes.

Estimated Annual Burden: 1,573 hours.

4. Statement Regarding the Inferred Death of an Individual By Reason of Continued and Unexplained Absence—0960-0002. The information collected on Form SSA-723-F4 is needed to determine if SSA may presume that a missing wage earner is dead and, if so, to establish a date of presumed death. The respondents are people who have knowledge of the disappearance of the wage earner.

Number of Respondents: 3,000.

Frequency of Response: 1.

Average Burden Per Response: 30 minutes.

Estimated Annual Burden: 1,500 hours.

II. The information collections listed below have been submitted to OMB for clearance. Your comments on the

information collections would be most useful if received by OMB and SSA within 30 days from the date of this publication. You can obtain a copy of the OMB clearance package by calling the SSA Reports Clearance Officer on (410) 965-0454, or by writing to the address listed above.

1. Information Collections Conducted by State Disability Determination Services (DDS) on Behalf of SSA—0960-0555. The State DDS's collect certain information to administer SSA's disability program. The information collected is as follows: (1) Medical evidence of record (MER)—DDS's use MER information to determine a person's physical and/or mental status prior to making a disability determination; (2) consultative exam (CE) medical evidence—DDS's use CE medical evidence to make disability determinations when the claimant's own medical sources cannot or will not provide the information; (3) CE claimant forms—The DDS's request that claimants complete an authorization form for the release of consultative exam information to a personal physician and to complete an appointment form to confirm scheduled CE appointments; (4) CE provider information—DDS's use the CE provider information to verify medical providers' credentials and licenses before hiring them to conduct CEs; (5) activities of daily living (ADL)—this information and other medical evidence are part of the evidentiary documentation used by the DDS's in evaluating a person's disability; and (6) pain information—this information is used by the DDS's to assess the effects of symptoms on functioning for determining disability. The respondents are medical providers, other sources of MER and disability claimants.

The responses are used by SSA to determine if a valid marital relationship exists and to make an accurate determination regarding entitlement to

The data are needed to complement information available for the programs administered by SSA and to fully explain the impact of the public income support programs on the needy, aged, blind, and disabled. SSA personnel request data about State-administered supplementation programs to compare various State programs, to examine the relationship of State supplementation expenditures and caseloads to federally-financed programs such as Medicaid, and to determine the effect of changes in SSI and other Federal programs on State supplementation programs.
