AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: This final rule revises the NASA FAR Supplement (NFS) to remove language pertaining to the Balance of Payments Program as a result of Federal Acquisition Circular (FAC) 01–07, and make miscellaneous administrative and technical changes. SUPPLEMENTARY INFORMATION:
A. Background

Item II of Federal Acquisition Circular (FAC) 01–07 removed Subpart 25.3, Balance of Payments Programs. This change makes conforming changes to NFS parts 1825 and 1852 as a result of FAC 01–07. Additionally, this final rule makes administrative changes in section 1804.670, Individual Procurement Action Report (NASA 507 series); removes redundant language in section 1804.7403, Procedures, regarding offeror registration in the Central Contractor Registration (CCR) database and contract award; and clarifies the prescription language for NFS provisions in 1813.302–570 and 1815.209–70, NASA solicitation provisions.

Finally, this final rule makes technical corrections to organizational addresses and reference citations.

B. Regulatory Flexibility Act

This final rule does not constitute a significant revision within the meaning of FAR 1.501 and Public Law 98–577, and publication for public comment is not required. However, NASA will consider comments from small entities concerning the affected NFS Parts 1804, 1813, 1815, 1825, and 1852 in accordance with 5 U.S.C. 610.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes do not impose recordkeeping or information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Small Business Competitiveness Demonstration Program

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: This final rule revises the NASA FAR Supplement by removing Research and Development in the Physical Engineering and Life Sciences from the list of targeted industry categories (TICs) for NASA under the Small Business Competitiveness Demonstration Program. This change is required to prevent potential conflicts between the goals of the Small Business Competitiveness Demonstration Program and the Small Business Innovative Research Program created by the conversion from Standard Industrial Classification to the North American Industry Classification System.

EFFECTIVE DATE: August 6, 2002.

FOR FURTHER INFORMATION CONTACT:

Yolande Harden, NASA, Office of Procurement, Contract Management Division (Code HK); (202) 358–1279; e-mail: yharden@hq.nasa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

The conversion from Standard Industrial Classification (SIC) to North American Industry Classification System (NAICS) combined several stand-alone classification categories together. As a result, NAICS 54171 now contains not only categories previously listed as TICs but also other categories, some of which are used in conjunction with the Small Business Innovative Research (SBIR) Program. The deletion of this category will avoid any potential conflicts between the goals of the Competitiveness Demonstration Program and the SBIR Program.

B. Regulatory Flexibility Act

This final rule does not constitute a significant revision within the meaning of FAR 1.501 and Public Law 98–577, and publication for public comment is not required. However, NASA will consider comments from small entities concerning the affected NFS part 1819 in accordance with 5 U.S.C. 610.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes do not impose recordkeeping or information collection requirements which require

Pipeline Safety: High Consequence Areas For Gas Transmission Pipelines

AGENCY: Office of Pipeline Safety (OPS), Research and Special Programs Administration (RSPA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This final rule defines areas of high consequence where the potential consequences of a gas pipeline accident may be significant or may do considerable harm to people and their property. The definition includes: current class 3 and 4 locations; facilities with persons who are mobility-impaired, confined, or hard to evacuate, and places where people gather for recreational and other purposes. For facilities with mobility-impaired, confined, or hard-to-evacuate persons and places where people gather, the corridor of protection from the pipeline is 300 feet, 660 feet or 1000 feet depending on the pipeline's diameter and operating pressure.
