## Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

# PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; EO 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

## §71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9J, Airspace Designations and Reporting Points, dated August 31, 2001, and effective September 16, 2001, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

# ASO NC E5 Andrews-Murphy, NC [Revised]

Andrews-Murphy Airport, NC (Lat. 35°11′42″N, long. 83°51′50″W) RUGIE Waypoint

(Lat. 35°08′57″N, long. 83°57′29″W) Andrews-Murphy, NC, Point in Space Coordinates

(Lat. 35°11′10″N, long. 83°52′57″W)

That airspace extending upward from 700 feet or more above the surface within a 6.5-mile radius of the Andrews-Murphy Airport and within 3.2 miles each side of the 237° course from the RUGIE Waypoint, extending from the 6.5-mile radius to 8.1 miles southwest of the airport and that airspace within a 6-mile radius of the point in space (lat. 35°11′10″N, long. 83°52′57″W) serving Andrews-Murphy, NC; excluding that airspace within the Knoxville, TN, Class E airspace.

Issued in College Park, Georgia, on December 27, 2001.

[Airspace Docket No. 01-ASO-14]

# Establishment of Class E5 Airspace; Union, SC

**AGENCY:** Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

**SUMMARY:** This action establishes Class E5 airspace at Union, SC. A Non-Directional Beacon (NDB) Runway (RWY) 5 Standard Instrument Approach Procedure (SIAP) has been developed for Union County, Troy Shelton Field, Union, SC. As a result, controlled airspace extending upward from 700 feet Above Ground Level (AGL) is needed to contain the SIAP and other Instrument Flight Rules (IFR) operations at Union County, Troy Shelton Field. The operating status of the airport will change from Visual Flight Rules (VFR) to include IFR operations concurrent with the publication of the SIAP. EFFECTIVE DATE: 0901 UTC, April 18,

EFFECTIVE DATE: 0901 UTC, April 18, 2002.

# FOR FURTHER INFORMATION CONTACT:

Walter R. Cochran, Manager, Airspace Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305–5586.

# SUPPLEMENTARY INFORMATION:

## History

On November 20, 2001, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR part 71) by establishing Class E5 airspace at Union, SC, (66 FR 58081) to provide adequate controlled airspace to contain the NDB RWY 5 SIAP and other IFR operations at Union County, Troy Shelton Field. Class E airspace designations for airspace extending upward from 700 feet or more above the surface of the earth are published in FAA Order 7400.9J, dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

# The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR

part 71) establishes Class E5 airspace at Union, SC.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation, as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

# List of Subjects in 14 CFR Part 71

Airspace, Incorporation by Reference, Navigation (air).

## Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR Part 71 as follows:

# PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR Part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; EO 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

# §71.1 [Amended]

2. The incorporation by reference in 14 CFR Part 71.1 of Federal Aviation Administration Order 7400.9J, Airspace Designations and Reporting Points, dated August 31, 2001, and effective September 16, 2001, is amended as follows:

Paragraph 6055 Class E Airspace Areas Extending Upward from 700 feet or More Above the Surface of the Earth.

# ASO SC E5 Union, SC [New]

Union County, Troy Shelton Field, SC (Lat. 34°41′11″ N, Long. 81°38′30″ W) Union NDB

(Lat. 34°41′02″ N, Long. 81°38′32″ W)

That airspace extending upward from 700 feet above the surface within a 6.3-mile radius of Union County, Troy Shelton Field and within 4 miles north and 8 miles south of the 241° bearing from the Union NDB

extending from the 6.3-mile radius to 16 miles southwest of the airport.  $\,$ 

Issued in College Park, Georgia on December 27, 2001.

## 14 CFR Part 71

[Airspace Docket No. 00-ANM-31]

# Establishment of Class E Airspace, Bellingham, WA

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action establishes Class E airspace at the surface of Bellingham International Airport, Bellingham, WA. Class E controlled airspace, above the surface of the earth, is required to contain aircraft executing procedures in the Instrument Flight Rules (IFR). The effect of this action clarifies when twoway radio communication with Bellingham ATCT is required and to provide adequate Class E controlled airspace between the surface and the en route phase of flight for aircraft executing Instrument Flight Rules (IFR) operations at Bellingham International Airport, Bellingham, WA, when the Bellingham ATCT is closed. The FAA establishes Class E airspace where necessary to contain aircraft transitioning between the terminal and en route environments. The effect of this action is to provide adequate controlled airspace for IFR operations at Bellingham International Airport, Bellingham, WA.

**EFFECTIVE DATE:** 0901 UTC, February 21, 2002.

# FOR FURTHER INFORMATION CONTACT:

Brian Durham, ANM-520.7, Federal Aviation Administration, Docket No. 00-ANM-31, 1601 Lind Avenue SW, Renton, Washington 98055-4056; telephone number: (425) 227-2527.

# SUPPLEMENTARY INFORMATION:

# History

On August 14, 2001, the FAA proposed to amend Title 14 Code of Federal Regulations, part 71 (14 CFR part 71) by establishing Class E airspace at Bellingham, WA, in order to provide a safer IFR environment at Bellingham

International Airport, Bellingham, WA (66 FR 42618). This amendment established Class E2 surface area controlled airspace at Bellingham, WA, to contain IFR aircraft operating in the Bellingham terminal area during the hours when the Bellingham ATCT is closed. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. A comment was received from FAA, AVN-500. A discrepancy was found in the Airport Reference Point coordinates. This changes is reflected in the legal description. This change is considered to be an insignificant

## The Rule

This amendment to Title 41 Code of Federal Regulations, part 71 (14 CFR part 71) by establishing Class E controlled airspace at Bellingham, WA. Bellingham ATCT recently changed its operating hours to less than a 24-houra-day operation. In the absence of the Class D airspace, Class E controlled airspace above the surface of the earth is required for aircraft executing IFR operations at Bellingham International Airport when the ATCT is closed. The FAA establishes Class E airspace where necessary to contain transitioning between the terminal and en route environments. This rule is designed to provide for the safe and efficient use of the navigable airspace and to promote safe flight operations under IFR at the Bellingham International Airport and between the terminal and en route transition stages.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas designated as surface areas, are published in Paragraph 6005, of FAA Order 7400.9J dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air

traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

# List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

# **Adoption of the Amendment**

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

# PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

#### §71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Order 7400.9J, Airspace Designations and Reporting Points, dated August 31, 2001 and effective September 16, 2001, is amended as follows:

Paragraph 6002 Class E airspace designated as surface area for an airport.

# ANM WA E2 Bellingham, WA [New]

Bellington International Airport (Lat. 48°56′34″ N., long. 122°32′15″ W.) Whatcom VORTAC/CC

(Lat. 48°56′43″ N., long. 122°34′45″ W.)
Within a 4-mile radius of Bellingham
International Airport, and within the 1.8
miles each side of the Watchcom VORTAC
169° radial extending north from the 4-mile
radius of the Bellington International Airport
to 2.7 miles south of the VORTAC. This Class
E airspace is effective during specific dates
and times established in advance by a Notice
to Airmen. The effective date and time will
thereafter be continuously published in the
Airport/Facility Directory.

Issued in Seattle, Washington, on December 26, 2001.
