**C.G. Bretting Manufacturing
Corporation, Inc., Ashland, WI; Notice
of Termination of Certification**

This notice terminates the Certification Regarding Eligibility to Apply For Worker Adjustment Assistance issued by the Department on June 19, 2002, applicable to workers of C.G. Bretting Manufacturing Corporation, Inc., in Ashland, Wisconsin. The notice was published in the **Federal Register** on July 9, 2002 (67 FR 45544).

The Department, on its own motion, reviewed the worker certification. Workers at the subject firm produce paper folding machines. The review of the investigation findings show that the survey of C.G. Bretting's major declining customers was conducted for paper folding machines instead of paper folding machines. Another survey was undertaken for the same customers for the same time periods. The survey revealed that none of the customers purchased imported paper folding machines.

Based on this new information, the Department is terminating the certification for petition number TA-W-41,047. Further coverage for workers under this certification would serve no purpose, and the certification has been terminated.

Signed at Washington, DC, this 6th day of August, 2002.

**Great Northern Paper, Inc., Millinocket,
ME, Great Northern Paper, Inc., East
Millinocket, ME; Amended Certification
Regarding Eligibility to Apply for
Worker Adjustment Assistance**

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on July 15, 2002, applicable to workers of Great Northern Paper, Inc., Millinocket, Maine. The notice was published in the **Federal Register** on July 29, 2002 (67 FR 49039).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. New findings show that workers engaged in employment related to the production of groundwood pulp were separated from employment at the subject firm's East Millinocket, Maine facility. A meaningful portion of the groundwood pulp produced at Great Northern Paper, Inc., East Millinocket, Maine was consumed by the subject firm's mill in Millinocket, Maine, for its production of coated and uncoated specialty paper.

Workers at Great Northern Paper, Inc., East Millinocket, Maine, also produce paper for telephone directories and are separately identifiable from those producing groundwood pulp. There was no allegation that imports of paper for telephone directories contributed to worker separations.

The Department is amending the certification to cover workers at Great

Northern Paper, Inc., East Millinocket, Maine, engaged in employment related to the production of groundwood pulp.

The amended notice applicable to TA-W-41,614 is hereby issued as follows:

"All workers of Great Northern Paper, Inc., Millinocket, Maine (TA-W-41,614); and workers engaged in employment related to the production of groundwood pulp at Great Northern Paper, East Millinocket (TA-W-41,616A) who became totally or partially separated from employment on or after May 17, 2001, through July 15, 2004, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

**Symbol Technologies, Telxon
Corporation, Houston, TX; Amended
Certification Regarding Eligibility To
Apply for Worker Adjustment
Assistance**

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on May 7, 2002, applicable to workers of Symbol Technologies, Houston, Texas. The notice was published in the **Federal Register** on May 17, 2002 (67 FR 35141).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of bar code scanners and handheld computers used for retail sales.

Information received from the State shows that Symbol Technologies merged with Telxon Corporation in 2000. Information also shows that some workers separated from employment at the subject firm had their wages reported under a separate unemployment insurance (UI) tax account for Telxon Corporation.

Accordingly, the Department is amending the certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of Symbol Technologies, Houston Texas who were adversely affected by increased imports.

The amended notice applicable to TA-W-40,983 is hereby issued as follows:

"All workers of Symbol Technologies, Telxon Corporation, Houston, Texas, engaged in the production of bar code scanners and handheld computers, who became totally or partially separated from employment on or after January 3, 2001, through May 7, 2004, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Temporary Extended Unemployment Compensation Program Reports; Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration (ETA) is soliciting comments concerning the proposed extension of approval for the collection of reports concerning the Temporary Extended Unemployment Compensation (TEUC) program. I. Background

The TEUC program was created under Public Law 107-147. This program allows for the application for and receipt of additional weeks of unemployment compensation under certain circumstances. This program is scheduled to expire December 31, 2002. In order to track participation in the program, plan for workloads, and plan for and distribute budget allocations, it is essential that certain basic data be collected and maintained. The collection of this information has previously been approved through an emergency clearance process through November 30, 2002. The TEUC program is currently due to expire December 28, 2002, and ETA is requesting that reporting for all reports continue for twelve full months or four full quarters after the last payable week of the TEUC program. However, to provide for potential congressional extensions of this program, ETA is seeking approval of a 2 year extension for this collection package.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
