The Proposal

The FAA is considering an
amendment to Part 71 of the Federal
Aviation Regulations (14 CFR part 71) to
establish Class E5 airspace at Sylva, NC.
Class E airspace designations for
airspace areas extending upward from
700 feet or more above the surface of the
earth are published in Paragraph 6005 of

FAA Order 7400.9J, dated August 31,
2001, and effective September 16, 2001,
which is incorporated by reference in 14
CFR 71.1. The Class E airspace
designation listed in this document
would be published subsequently in the
Order.

The FAA has determined that this
proposed regulation only involves an
established body of technical
regulations for which frequent and
routine amendments are necessary to
keep them operationally current. It,
therefore, (1) is not a "significant
regulatory action" under Executive
Order 12866; (2) is not a "significant
rule" under DOT Regulatory Policies
and Procedures (44 FR 11034; February
26, 1979); and (3) does not warrant
preparation of a Regulatory Evaluation
as the anticipated impact is so minimal.
Since this is a routine matter that will
only affect air traffic procedures and air
navigation, it is certified that this rule,
when promulgated, will not have a
significant economic impact on a
substantial number of small entities
under the criteria of the Regulatory
Flexibility Act.

1. The authority citation for Part 71

1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in
