

associated with abandoned mines. The public safety can be adversely affected by future land usage where such hazards are not known or inaccurately assessed. MSHA collects the closure maps and provides those documents to the Office of Surface Mining, Reclamation & Enforcement for inclusion in a repository of abandoned mine maps. Therefore, MSHA is continuing the certification and application of 30 CFR 75.1204 to assure the required information remains available for the protection of miner's and public safety. In addition, MSHA has added the burden hours and cost estimates for standards which address the preparation and maintenance of certified mine maps for surface and underground coal mines and the notification of MSHA prior to the opening on new coal mines or the

reopening of inactive or abandoned mines.

Type of Review: Reinstatement.
Agency: Mine Safety and Health Administration.

Title: Preparation and Maintenance of Accurate and Up-to-date Certified Mine maps for Surface and Underground Coal Mines; Submittal of Underground Mine Closure Maps; and, Notification of MSHA Prior to Opening New Mines or the Reopening of Inactive or Abandoned Mines.

OMB Number: 1219-0073.

Recordkeeping: Mine operators are required conduct surveying such that mine maps are maintained accurate and up-to-date, the maps must be revised every 6 months and certified accurate by a registered engineer or surveyor and to submit copies of the certified underground maps to MSHA annually and an up-to-date and revised mine closure map whenever an operator

permanently closes or abandons a coal mine, or temporarily closes a coal mine for a period of more than 90 days, he or she shall promptly notify the Secretary of such closure.

In addition, mine operators must notify MSHA so that an inspection can be conducted when ever a new mine is opened or a previously abandoned or inactive mine is reopened. The information required to be gathered and recorded on mine maps is essential to the safe operation of the mine and essential to the effectiveness of mandatory inspections and mandated mine plan approval by MSHA. Such information cannot be replaced by any other source and anything less than continuously updated and accurate information would place miner's safety at risk.

Affected Public: Business or other for-profit.

Cite/reference	Total respondents	Frequency	Total responses	Average time per response (in hours)	Burden hours
75.1200, 75.1200-1, 75.1201, 75.1202, 75.1202-1, 75.1203.	893	Biannual	448	32	14,336
