**Analysis of Agreement Containing
Consent Order To Aid Public Comment**

The Federal Trade Commission has accepted, subject to final approval, an agreement containing a proposed consent order with Genesis Physicians Group, Inc. ("GPG") and System Health Providers, Inc. ("SHP") ("Respondents"). The agreement settles charges that Respondents violated section 5 of the Federal Trade Commission Act, 15 U.S.C. 34, by facilitating and implementing agreements among GPG members on price and other competitively significant terms; refusing to deal with payors except on collectively agreed-upon terms; and negotiating uniform fees and other competitively significant terms in payor contracts and refusing to submit to members payor offers that do not conform to Respondent SHP's standards for contracts. The proposed consent order has been placed on the public record for 30 days to receive comments from interested persons. Comments received during this period will become part of the public record. After 30 days, the Commission will review the agreement and the comments received, and will decide whether it should withdraw from the agreement or make the proposed order final.

The purpose of this analysis is to facilitate public comments on the

proposed order. The analysis is not intended to constitute an official interpretation of the agreement and proposed order, or to modify their terms in any way. Further, the proposed consent order has been entered into for settlement purposes only and does not constitute an admission by any Respondent that said Respondent violated the law or that the facts alleged in the complaint (other than jurisdictional facts) are true.

The Complaint

The allegations in the Commission's proposed complaint are summarized below.

Respondent GPG has approximately 1,250 members, almost all of whom are physicians licensed to practice medicine in the State of Texas and engaged in the business of providing professional services to patients in the eastern part of the Dallas-Fort Worth metropolitan area ("Dallas area").

Respondent SHP is a management services organization, the voting stock of which is wholly owned by GPG.

Physicians often contract with health insurance firms and other third-party payors, such as preferred provider organizations. Such contracts typically establish the terms and conditions, including price terms, under which the physicians will render services to the payors' subscribers. Physicians entering into such contracts typically establish the terms and conditions, including price terms, under which the physicians will render services to the payors' subscribers. Physicians entering into such contracts often agree to lower compensation in order to obtain access to additional patients made available by the payors' relationship with insureds. These contracts may reduce payor costs and enable payors to lower the price of insurance, and thereby result in lower medical care costs for subscribers to the payors' health insurance plans.

Absent agreements among competing physicians on the terms, including price, on which they will provide services to subscribers or enrollees in health care plans offered or provided by third-party payors, competing physicians decide individually whether to enter into contracts with third-party payors to provide services to their subscribers or enrollees, and what prices they will accept pursuant to such contracts.

In order to be competitively marketable in the Dallas area, a payor's health insurance plan must include in its physician network a large number of primary care physicians (PCPs) and specialists who practice in the Dallas area. Many of the PCPs and specialists
