SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). The U.S. Fish and Wildlife Service (We) plan to submit a request to OMB to renew its approval of the collection of information for the Mourning Dove Call-Count Survey. We are requesting a 3-year term of approval for this information collection activity.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 1018-0010.

The Migratory Bird Treaty Act (16 U.S.C. 703-711) and Fish and Wildlife Act of 1956 (16 U.S.C. 742d) designate the Department of the Interior as the key agency responsible for the wise management of migratory bird populations frequenting the United States and for the setting of hunting regulations that allow appropriate harvests that are within the guidelines that will allow for those populations' well being. These responsibilities dictate the gathering of accurate data on various characteristics of migratory bird populations. The Mourning Dove Call-Count Survey is an essential part of the migratory bird management program. The survey is a cooperative effort between us and State wildlife agencies. It is conducted each spring by State and Service biologists to provide the necessary data to determine the population status of the mourning dove. The survey results are then used to help

guide us and the States in the annual promulgation of regulations for hunting mourning doves. Survey data are also used to plan and evaluate dove management programs and provide specific information necessary for dove research. If this survey were not used, there would be no way to determine the population status of mourning doves prior to setting regulations.

Title: Mourning Dove Call-Count Survey.

Approval Number: 1018-0010.

Service Form Number: 3-159.

Frequency of Collection: Annually.

Description of Respondents: State, local, tribal, provincial, or Federal employees.

Total Annual Burden Hours: The reporting burden is estimated to average 2.5 hours per respondent. With an estimated 50% entering data electronically, the reporting burden is estimated to average 2.6 hours per respondent. The Total Annual Burden hours is 2,698 hours.

Total Annual Responses: About 1,062 individuals are expected to participate in the survey.

We invite comments concerning this renewal on: (1) Whether the collection of information is necessary for the proper performance of our migratory bird management functions, including whether the information will have practical utility; (2) the accuracy of our estimate of the burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and, (4) ways to minimize the burden of the collection of information on respondents. The information collections in this program are part of a system of record covered by the Privacy Act (5 U.S.C. 552(a)).

Sincerely,

Anissa Craghead,

Collections Clearance Officer.
