**AGENCY:** Federal Communications Commission.

**ACTION:** Final rules; announcement of effective date.

**SUMMARY:** This document announces the effective date of the rule published on July 9, 2002. Those rules amended the Commission’s rules regarding the provision of international telecommunications service. The Commission also clarified the intent of certain rules and eliminated certain rules that were no longer necessary. The Commission’s action was part of the agency’s 2000 biennial regulatory review.

**DATES:** Sections 43.61, 63.10(d), 63.18(e)(3), 63.19(a) and (b), 63.20(a), and 63.24(e) and (f) are effective September 4, 2002.

**FOR FURTHER INFORMATION CONTACT:** Peggy Reitzel, Policy and Facilities Branch, Telecommunications Division, International Bureau, (202) 418–1460.

**SUPPLEMENTARY INFORMATION:** On June 10, 2002, the Commission released a report and order adopting a number of amendments to Parts 43 and 63 of the Commission’s rules, as well as changes to Commission policy (FCC 02–154), a summary of which was published in the **Federal Register**. See 67 FR 45387 (July 9, 2002). We stated that the rules were effective on August 8, 2002, except for those sections containing new information collection requirements, which required approval by the Office of Management and Budget (OMB). The information collection requirements were approved by OMB on July 30, 2002. See OMB No. 3060–1019. This publication satisfies our statement that the Commission would publish a document announcing the effective date of the rules.

## DEPARTMENT OF TRANSPORTATION

### Transportation Security Administration

### 49 CFR Part 1511

[Docket No. TSA–2002–11334]

RIN 2110–AA02

### Aviation Security Infrastructure Fees

**AGENCY:** Transportation Security Administration (TSA), DOT.

**ACTION:** Temporary Waiver of Audit Submission Requirements.

**SUMMARY:** TSA is issuing this document to inform all air carriers and foreign air carriers that it will not seek enforcement of the independent audit submission deadline set forth in the Aviation Security Infrastructure Fees regulation, under certain conditions.

**FOR FURTHER INFORMATION CONTACT:** For guidance on technical matters: Randall Fiertz, Acting Director of Revenue, (202) 385–1209. For guidance on legal or other matters: Steven Cohen, Office of Chief Counsel, (202) 493–1216.

**SUPPLEMENTARY INFORMATION:** In order to offset the costs of providing civil aviation security services, TSA published in the **Federal Register** an interim final rule (67 FR 7926; February 20, 2002), codified at 49 CFR part 1511, that imposed the Aviation Security Infrastructure Fee on air carriers and foreign air carriers engaged in air transportation, foreign air transportation, and intrastate air transportation.

Sections 1511.5 and 1511.7 require these carriers to provide TSA with certain information on their costs related to screening passengers and property incurred in 2000. This information was due to be received by TSA by May 18, 2002. Section 1511.9 requires each such carrier to also provide for and submit to TSA an independent audit of these costs, which were due to be received by TSA by July 1, 2002.

As reflected in the public docket on the Aviation Security Infrastructure Fee regulation, TSA–2002–11334, TSA denied several requests that it alter the audit requirement and extend the July 1, 2002 audit deadline.

However, on two occasions TSA announced that it would not seek enforcement against carriers that meet certain criteria by certain dates. The first announcement appeared in TSA’s “Guidance for the Aviation Security Infrastructure Fee,” as published in the **Federal Register** on May 1, 2002 (docket item no. 20). The second announcement was in TSA’s July 24, 2002, letter to the

Air Transport Association (docket item no. 35). The criteria are that the carriers must make timely and proper fee payments, must submit any necessary revisions to their Appendix A submission(s), and must remit all adjusted fee payments retroactive to February 18, 2002.

By this document, TSA extends the period of time for which it will not seek to enforce the July 1, 2002, deadline for all carriers whose independent audits and adjusted fee payments are received by October 31, 2002. The previously stated conditions still apply. TSA is not waiving enforcement of any other requirements set forth in 49 U.S.C. 44940 or 49 CFR part 1511.

Issued in Washington, DC, on August 29, 2002.

J. M. Loy,

*Acting Under Secretary of Transportation for Security.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 660

[Docket No. 011231309-2090-03; I.D. 082702E]

#### Fisheries off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; Closure of Minor Nearshore Rockfish South of 40°10' N. lat.

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Fishing restrictions; request for comments.

**SUMMARY:** NMFS announces the closure of the nearshore rockfish south of 40°10' N. lat. at 0001 local time (l.t.) September 1, 2002, for both the open access and limited entry fixed gear groundfish fisheries. This closure is necessary because the commercial harvest guideline is projected to be reached. This action is intended to prevent overfishing of minor nearshore rockfish in 2002.

**DATES:** Effective from 0001 l.t. September 1, 2002, until the effective date of the 2003 specification and management measures for the Pacific Coast groundfish fishery which will be published in the Federal Register,

unless modified, superseded or rescinded. Comments will be accepted through September 19, 2002.

**ADDRESSES:** Submit comments to D. Robert Lohn, Administrator, Northwest Region (Regional Administrator), NMFS, 7600 Sand Point Way NE., Seattle, WA 98115-0070; or Rod McInnis, Acting Regional Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213.

**FOR FURTHER INFORMATION CONTACT:** Becky Renko at 206-526-6110.

**SUPPLEMENTARY INFORMATION:** This action is authorized by regulations implementing the Pacific Coast Groundfish Fishery Management Plan (FMP), which governs the groundfish fishery off Washington, Oregon, and California. This action is a routine management measure under the FMP, and would normally be implemented after recommendation by the Pacific Fishery Management Council (Council) at a Council meeting. However, in this case, the next Council meeting will be too late to implement this action in time to prevent harvest of the September-October trip limits, and too late to obtain the conservation benefits of this action. Therefore, NMFS is taking this action before the Council meeting, relying upon information provided by the Council's Groundfish Management Team. NMFS will consult with the Council at its meeting in Portland, OR, September 9-13, 2002, and could further adjust the limits inseason, if necessary.

On March 7, 2002, the levels of allowable biological catch (ABC), and the optimum yield (OY) for the minor rockfish species south of 40°10' N. lat. were announced in the **Federal Register** (67 FR 10490). Minor rockfish south includes the "remaining rockfish" and "other rockfish" categories in the Monterey and Conception areas combined. "Remaining rockfish" generally includes species that have been assessed by less rigorous methods than stock assessments, and "other rockfish" which includes species that do not have quantifiable assessments. The minor rockfish south ABC (3,506 mt) is the sum of the individual "remaining rockfish" ABCs (854 mt) plus the "other rockfish" ABCs (2,652 mt). Due to limited stock assessment information, the ABC was reduced to obtain a more precautionary total catch OY of 2,015 mt. The remaining rockfish ABC was reduced by 25 percent, with the exception of black rockfish and

other rockfish, which were reduced by 50 percent.

Changes to the rockfish management structure in 2000 resulted in the minor rockfish being divided into 3 species groups (nearshore, shelf, slope) (January 4, 2000; 65 FR 221). For the area south of 40°10' N. lat., the 2002 minor rockfish OY was divided with 662 mt going to nearshore rockfish, 714 mt going to shelf rockfish and 639 mt going to slope rockfish. The resulting commercial harvest guideline for nearshore rockfish, the total catch OY minus the estimated recreational catch of 532 mt, is 130 mt. The commercial landed catch OY, minus 5 percent for discard mortality, is 124 mt.

July inseason changes to the limited fixed gear and open access trip limits south of 40°10' N. lat., closed many fisheries outside of the 20 fathom depth-contour (67 FR 44778, July 5, 2002). Effective July 1, 2002, minor nearshore rockfish was one of the species groups adjusted to remain closed outside of 20 fathoms through October. For the November-December cumulative limit period, minor nearshore rockfish was scheduled to close in all waters. The best available information on August 23, 2002, indicates that open access and limited entry commercial fisheries together have landed 139 mt through August 17, 2002, and that the 24 mt commercial landed catch harvest guideline is likely to be exceeded by August 31, 2002. Therefore, to reduce the likelihood of the fishery (commercial plus recreational) exceeding the minor nearshore rockfish OY and possibly the ABC for the area south of 40°10' N. lat., it is necessary to close the fishery for the remainder of 2002, beginning in September. This **Federal Register** notice announces that minor nearshore rockfish fishery south of 40°10' N. lat. will be closed for the limited entry fixed gear and open access fisheries as of September 1, 2002. The limited entry trawl fishery for minor nearshore rockfish fishery south of 40°10' N. lat. has been closed since July 1, 2002.

#### NMFS Action

For the reasons stated above, NMFS herein announces: 1. in section IV., under B. Trip Limits in the Limited Entry Fixed Gear Fishery, Table 4 is revised to read as follows:
